# Employment in Europe 2005: Statistical Annex

**Abstract**

Statistical annex to accompany Employment in Europe 2005, including macro economic indicators, key employment indicators, and data sources and definitions.

**Keywords**

Europe, employment, European Commission, economic growth, youth employment, labour markets, trends, human capital development, vocational training, labour market share

# Data sources and definitions

## Data Sources

Most of the data used in this report originates from Eurostat, the Statistical Office of the European Communities. The main data sources used are:

- the European Community Labour Force Survey (LFS)
- the Eurostat Quarterly Labour Force Data (QLFD) series
- the European Community Household Panel (ECHP)
- the European Structure of Earnings Survey (SES)
- the Eurostat Labour Cost Survey (LCS)
- the Eurostat Harmonised Series on Unemployment
- the Annual Macroeconomic Database (AMECO)

The **European Community Labour Force Survey (LFS)** is the EU's harmonised survey on labour market developments. The survey has been carried out since 1983 in the EU Members States, with some providing quarterly results from a continuous labour force survey, others conducting a single annual survey in the spring. If not mentioned otherwise, results based on the LFS refer to surveys conducted in the spring ("second quarter") of each year. It also provides data for all Candidate Countries.

The **Quarterly Labour Force Data (QLFD)** series is a harmonised, consistent series of quarterly employment statistics based on LFS, completed through estimates when quarterly data are not available. It covers all EU15 (for the period of 1991 to present) and all New Member States and Candidate Countries (since 1996 or later, depending on data availability). The QLFD consist of two series: 1) population, employment and unemployment, and 2) employment by economic activity and employment status. The first series is based mainly on the community LFS. Data cover the population living in private households only (collective households are excluded) and refer to the place of residence (national concept). They are broken down by gender and aggregate age group (15-24, 25-54, 55-64, 15-64). Unemployment data are also broken down by job search duration (less than 6 months, 6-11, 12-23, 24 or more). The second series is mainly based on the ESA-1995 national accounts employment data. Data cover all people employed in resident producer units (domestic concept), including persons living in collective households. They are broken down by sex, working time status (full-time/part-time) and contract status (permanent/temporary). All key employment indicators – with the exception of the full-time equivalent employment rate, the unemployment rates and the youth unemployment ratio - are based on the QLFD series. They represent yearly averages if not stated otherwise. Where the QLFD series does not provide the relevant breakdowns, the original LFS data were used in this report.

The **European Community Household Panel (ECHP)** is an annual longitudinal survey of a representative panel of households which was conducted for the period 1994-2001. The longitudinal structure of the survey makes it possible to follow up and interview the same households and individuals over several consecutive years. At the time of publication of this report, data were available for all eight waves of the panel (1994-2001) for all EU Member States except Austria (1995-2001) and Finland (1996-2001). Sweden did not take part in the ECHP, but provided some basic comparable micro data from the Swedish survey on living conditions in the ECHP user's database from 1997 onwards. There are important breaks in the data series for Germany, (1994/95), Luxembourg and the UK (1996/97), following variations in the sample definition. The survey covers a wide range of topics: income and living conditions, employment status, health, education, demographics and housing. It is based on a standardised questionnaire from Eurostat and subsequently adapted by national agencies. Data are accessible to the public by means of the ECHP user database. Results on quality in work and on transitions between labour market states or job characteristics are based on this database.

The **European Structure of Earnings Survey (SES)** is a survey of enterprises which is conducted every four years as from 2002 (until then, it has been conducted on an irregular basis). The SES gives detailed and comparable data on the distribution of earnings and the individual characteristics of both employers and employees. It represents all activities with NACE C-O codes of the NACE Rev.1 classification of economic activities in the European Community; although the inclusion of categories M-N-O remained optional in 2002. The SES covers industry and services, but excludes agriculture, public administration and firms with less than 10 employees (optional). Information is also not gathered for the self-employed.

In all Member States of the EU (except Malta), as well as Bulgaria and Romania, Iceland and Norway, a SES has been carried out in 2002, and the micro-data were delivered by countries. The data were made publicly available in April 2005. The following variables are available: gross earnings for a representative month, gross annual earnings in the reference year, and working-time. The SES aims at giving comparable (between Member States) European-level information on the structure and distribution of earnings, the individual characteristics of the employer and of the employee.

The **Eurostat Labour Cost Survey (LCS)** is a business survey which is conducted every four years, covering all economic activities in sections C-K of the NACE Rev.1 classification and all enterprises with 10 or more employees. Some countries, notably the New Member States and Candidate Countries, additionally provide data for NACE sections L-O and for smaller enterprises. The survey contains detailed information on the level and structure of labour costs (hourly, monthly and annual), wages and salaries, working hours and employment at the national, regional and sectoral (NACE-2) level and by establishment size. Labour Cost surveys have been carried out by the EU Member States for the years 1975, 1978, 1981, 1984, 1988, 1992, 1996, 2000 and 2004. Latest structural data from the Labour Cost Survey (LCS) are available for the year 2004.

For the unemployment related indicators, the main source is the Eurostat **Harmonised series on unemployment**. This is a data set on unemployment collected by Eurostat comprising of yearly averages, quarterly and monthly data. It is based on LFS and register data on unemployment from national sources. Monthly data from national surveys or from registers of the public employment services are used to extrapolate the LFS data and to compile monthly unemployment estimates. This data set does not cover skills and long term unemployment for the analysis of which the LFS was used instead.

Macroeconomic indicators are obtained from the Economic and Financial Affairs DG **Annual Macroeconomic Database (AMECO)** and are based on ESA 95 national accounts. The database comprises inter alia information on GDP, productivity, real unit labour costs and employment growth. The data is collected by Eurostat from the Member States' National Statistical Offices. Besides regular weekly updates this database is revised twice a year in the framework of the Commission's Spring and Autumn Economic Forecasts.

#### Other data sources:

Furthermore, data from other International Organisations were used where appropriate, in particular the OECD (Organisation for Economic Co-operation and Development) Labour market statistics database, the OECD Main Industrial Indicators, the OECD Social expenditures database.

## Definitions and Data Sources of Macroeconomic Indicators

Sources: AMECO and national accounts (ESA 95)

1. Real GDP: gross domestic product (GDP) at 1995 market prices, annual change
2. Occupied population: occupied population, total economy, annual change
3. Labour productivity: GDP at 1995 market prices per person employed, annual change
4. Annual average hours worked, annual change
5. Productivity per hours worked: gross domestic product per hours worked, annual change
6. Harmonised CPI: harmonised consumer price index, annual change
7. Price deflator GDP: price deflator gross domestic product at market prices, annual change
8. Nominal compensation per employee, total economy, annual change
9. Real compensation per employee: deflator gross domestic product, total economy, annual change
10. Real compensation per employee total economy (private consumption deflator), annual change
11. NULC: nominal unit labour costs, total economy, annual change
12. RULC: real unit labour costs, total economy, annual change

## Definitions and Data Sources of Key Employment Indicators

Sources: QLFD, LFS, Eurostat harmonised series on unemployment

1. Total population in 000s (source: Eurostat QLFD)
2. Total Population aged 15-64 (the “working age population”) in 000s (source: Eurostat QLFD)
3. Total Employment in 000s (source: Eurostat QLFD)
4. Population in employment aged 15-64 in 000s (source: Eurostat QLFD)
- 5-8. Employment rate, Employed divided by population in the corresponding age bracket (source: Eurostat QLFD)
9. Full-time equivalent employment rates

The full-time equivalent employment rate is calculated by dividing the full-time equivalent employment by the total population in the 15-64 age-group. Full-time equivalent employment is defined as total hours worked on both, main and second job (LFS) divided by the average annual number of hours worked in full-time jobs within the economic territory (ESA 1995).

10. Self-employed in total employment, Number of self-employed as the share of total employment (source: Eurostat QLFD)
11. Part-time employment in total employment, Number of part-time employed as a share of total employment (source: Eurostat QLFD)
12. Fixed term contracts in total employment (total employees), Number of employees with contracts of limited duration as a share of total employees (source: Eurostat QLFD)
13. Employment in services, Employed in services as a share of total employment (source: Eurostat QLFD)
14. Employment in industry, Employed in industry as a share of total employment (source: Eurostat QLFD)
15. Employment in agriculture, Employed in agriculture as a share of total employment (source: Eurostat QLFD)

# List of tables, charts and boxes

## List of tables

1	International comparison of key indicators (2004) .....	17
2	Annual change in employment growth, by quarter, from 2001 to 2004 .....	19
3	Annual productivity growth 2000-2004 .....	23
4	Employment rates by age group, 2004 .....	33
5	Employment rates in EU Member States in 2004 and progress towards the Lisbon and Stockholm targets for 2010 .....	34
6	Employment structure in 2004 (% of total employment 15+, by main employment, resident concept) .....	45
7	Average exit age from the labour force 2001-2003 .....	58
8	Students (all ISCED levels) aged 15-24 years (as a percentage of the population of the same age) in EU Member States 1998-2003 .....	64
9	Employment structure (% of employment) by main employment in Bulgaria, Romania and the EU, 2004 ...	72
10	Employment rate targets for the EU .....	74
11	Average annual percentage changes in the period 2001-2004 (except for the unemployment rate which are period averages) .....	74
12	Average annual percentage changes in the period 2005-2006 (except for the unemployment rate which are period averages) .....	76
13	Employment rate .....	77
14	Total employment rate by gender in the EU-25 (persons aged 15 to 64) .....	78
15	Employment rate by gender for older workers in the EU-25 (persons aged 55 to 64) .....	78
16	Total employment rates (as percentages) .....	78
17	Employment rates for women (as percentages) .....	79
18	Employment rates for older workers aged 55-64 (as percentages) .....	79
19	Medium-run impact of a percentage point increase in the output gap on the deviation of labour market variables from their trends (as percentage) .....	95
20	The tax wedge, the unemployment trap, the low-wage trap indicators and the implicit tax rate on labour .....	96
21	Inactivity trap indicator for 2001 showing the marginal effective tax rate of moving from social assistance to work at a wage level equivalent to 67% of the average production worker (APW) for the first worker, while the wage level for the second earner is indicated in each column. ....	97
22	Employment by type of contract and gender for individuals aged 15-64 (proportions of total employment as percentages) .....	99
23	Proportion of part-time working by gender and age groups (percentages) .....	100
24	Proportion of part-time working by gender and education level for individuals aged 15-64 (percentages) ....	101
25	Part-time rate among individuals aged 15-64 by gender and economic sector (percentages) .....	102
26	Reasons for part-time employment among individuals aged 15-64 (percentages) .....	103
27	Employees with temporary contracts by gender and age group (percentages) .....	104
28	Employees with temporary contracts among individuals aged 15-64 by gender and education level (percentages) .....	105
29	Employees with temporary contracts among individuals aged 15-64 by gender and economic sector (percentages) .....	106
30	Reasons for temporary employment among individuals aged 15-64 (percentages) .....	107
31	Distribution of the duration of temporary employment (in months) among individuals aged 15-64 (percentages) .....	108
32	Ratio of inactive persons to the total population by gender and age groups (percentages) .....	109
33	Distribution of inactive persons aged 15-64 by gender and education level (percentages) .....	110
34	Reasons for inactivity among persons aged 15-64 (percentages) .....	111
35	Willingness to work of inactive persons aged 15-64 (percentages) .....	112

36	Government expenditure on active labour market policies in the EU-15 as percentage of GDP (unless otherwise stated) .....	112
37	Selected indicators for the EU-15 .....	114
38	Selected indicators for the EU-25 .....	115
39	Employment rates among individuals aged 15-64 by highest level of education attained (percentages) .....	116
40	Selected measures of monetary poverty and social exclusion in 2003 (or the latest year for which data are available) .....	122
41	Gender gaps .....	124
42	Long-term unemployment rate .....	125
43	Youth unemployment rate .....	125
44	Early school-leavers (percentage of the total population aged 18-24 with at most lower secondary education and not in further education or training) .....	125
45	Unemployment rates per nationality (aged 15-64) .....	126
46	Employment rates per nationality (aged 15-64) .....	126
47	Dispersion of regional employment rates .....	127
48	Dispersion of regional unemployment rates .....	127
49	Sectoral contributions to labour productivity growth in selected EU countries and the US (percentage points) .....	130
50	Average annual growth rates of hourly labour productivity in the ICT and non-ICT industries of the EU-15 and the US .....	131
51	Regions and groups most affected by earnings inequality .....	175
52	Duncan Index by country .....	179
53	Developments by age cohort .....	179
54	Developments by education level (ISCED classification) .....	179
55	Interdecile gaps .....	180
56	Change in the level of inequality of countries by decile ratio .....	183
57	Earnings dispersion and labour market institutions .....	190
58	Regional earnings inequalities (Annex II) .....	204
59	OLS results Dependent variable: hourly earnings nb of observations: 5431139 (Annex III) .....	206
60	OLS results Dependent variable: log of hourly earnings (Annex III) .....	207
61	OLS results for women and men Dependent variable: log of hourly earnings (Annex III) .....	208
62	Country-specific regressions (Annex III) .....	209
63	Structure of inactive population by age group in 2004 (% of total inactive population in age group) .....	216
64	Inactivity rates by skill level, 2004 (row percentages) .....	218
65	Time since inactive people last worked rather more important than retirement by country – 2004 (row percentages) .....	224
66	Reason for inactivity by country for the working age population (15-64), 2004 (row percentages) .....	230
67	Reason for inactivity by country in thousands for the working age population (15-64), 2004 .....	231
68	Transitions by economic status and reasons for inactivity in the EU-25 between 2003 and 2004 (row percentages) .....	232
69	Transitions by economic status and by country between 2003 and 2004 in the EU-25 (cell percentages) .....	233
70	Inactive people undertaking education or training by level in the EU-25, 2002 (row percentages) .....	234
71	Inactive people registered at a Public Employment Office, 2004 (cell percentages) .....	236
72	Inactive people willing to work in the EU-25, 2004 (cell percentages) .....	238
73	Prevalence of long-standing health problem or disability (LSHPD), EU Member States, 2002 .....	244
74	Inactivity and unemployment rates for the population aged 15+ by region at NUTS2 level, 2003 .....	247

## List of charts

1	Employment growth rates in the EU, US and Japan, 1997-2004 .....	18
2	Employment rates in the EU, US and Japan, 1975-2004 .....	18
3	Employment growth in the larger Member States, 2001-2004 .....	20
4	Employment growth for EU Member States, 2004 .....	20
5	Trends in unemployment rates in the EU, US and Japan since 1995 (seasonally adjusted quarterly data) .....	21
6	Growth in productivity per person employed, 2000-2004 .....	21
7	Growth in productivity per hour worked, 2000-2004 .....	22
8	Unemployment rates in the EU by gender, 2004 .....	24
9	Youth unemployment rates in the EU by gender, 2004 .....	25
10	Long-term unemployment rates in the EU by gender, 2004 .....	26
11	Change in long-term unemployment rates between 2000 and 2004 .....	26
12	Activity rates in the EU by gender, 2004 .....	27
13	Trends in EU activity rates by gender, 1997-2004 .....	28
14	Change in female participation rates between 1997 and 2004 .....	28
15	Trends in EU youth activity rates by gender, 1997-2004 .....	29
16	Change in youth activity rates in the EU between 2000 and 2004 .....	29
17	Youth (persons aged 15-24) activity rates by gender, 2004 .....	30
18	Change in older people's (aged 55-64) activity rates between 2000 and 2004 .....	30
19	Older people's (aged 55-64) activity rates by gender, 2004 .....	31
20	Employment rates by gender, 2004 .....	32
21	Overall employment rate for EU Member States, 2000 and 2004 .....	35
22	Female employment rates for EU Member States, 2000 and 2004 .....	36
23	Older people's employment rates for EU Member States, 2000 and 2004 .....	36
24	Part-time employment by gender in the EU, 2004 .....	38
25	Change in the share of part-time employment in total employment between 2000 and 2004 .....	39
26	Involuntary part-time employment (as a % of total part-time employment for the working age population) by gender in the EU-25, 2004 .....	39
27	Fixed-term employment by gender in the EU, 2004 .....	40
28	Share of employees in fixed-term employment in the EU in 2000 and 2004 .....	40
29	Changes in employment rates, in shares of self-employment and part-time employment in total employment, and in shares of employees in fixed-duration employment between 2000 and 2004 .....	41
30	Change in employment in the large EU Member States between 2000 and 2004, by sex and age group .....	42
31	Comparative employment structure (by main employment) of the EU Member States by main sector, 2004 .....	44
32	Employment growth in the EU by main sector, 2000-2004 .....	44
33	Sectoral employment growth in the four largest Member States, 2000-2004 .....	46
34	Changes in sectoral employment in the EU between 2000 and 2004 .....	48
35	Sectoral employment growth for Italy and Spain 2000-2004 compared to the EU average .....	48
36	Sectoral employment growth for Germany and Poland 2000-2004 compared to the EU average .....	49
37	Change in employment in the large EU Member States between 2000 and 2004, by sector .....	49
38	Share of self-employment in total employment by gender, 2004 .....	50
39	Employment shares of self-employment in the EU-25 by age group and gender, 2004 .....	51
40	Shares of self-employment in employment in the EU-25 by skill level and gender, 2004 .....	51
41	Shares of non-agricultural self-employment in total nonagricultural employment in the EU by age and gender, 2004 .....	52
42	Shares of non-agricultural self-employment in non-agricultural employment in the EU by skill level and gender, 2004 .....	52
43	Composition of self-employed and employee populations in the EU in 2004 by gender, age group and skill level .....	53
44	Sectoral structure of self-employment in the EU by gender, 2004 .....	54
45	Comparison of sectoral employment structures of the self-employed and employees in the EU, 2004 .....	55
46	Comparison of occupational employment structures of self-employed and employees in the EU, 2004 .....	55

47	Change in employment rate of older people (aged 55-64) and working age population (aged 15-64) .....	56
48	Changes in employment rates of older people aged 55-64 between 2000 and 2004 across EU Member States .....	59
49	Average exit age from the labour force in 2003 .....	59
50	Sectoral employment structure in the EU in 2004 by age group (% of employment in each age group) .....	60
51	Change in employment levels between 2000 and 2004 for older people aged 55-64 by sector .....	61
52	Changes in employment rates of young people (aged 15-24) between 2000 and 2004 across EU Member States .....	61
53	Change in employment rate of young people (aged 15-24) and working age population (aged 15-64) .....	62
54	Developments in the labour market situation of young people (aged 15-24) in the EU between 2000 and 2004 .....	62
55	Trends in the share of early school leavers (% of the population aged 18-24 with at most lower secondary education and not in further education or training) in the EU-25, 2000-2004 .....	63
56	Students in the EU-25 at ISCED levels 5-6 by age (as % of corresponding age population) .....	63
57	Change in employment rates by gender and age group over the two periods 1997-2000 and 2000-2004 .....	65
58	Changes in employment rates in EU Member States between 1998 and 2000 for young (15-24) and older people (55-64) .....	66
59	Change in employment rates in EU Member States between 2000 and 2004 for young (15-24) and older people (55-64) .....	66
60	Employment rates for youth (15-24) versus older persons (aged 55-64) across EU Member States in 2004 .....	67
61	Comparison of changes in employment of young (15-24) and older people (55-64) between 2000 and 2004 by sector in the EU .....	67
62	Comparison of changes in employment of young (15-24) and older people (55-64) between 2000 and 2004 by sector in the Czech Republic .....	68
63	Labour market indicators in the Acceding and Candidate Countries, 2004 .....	70
64	Employment rates in Acceding and Candidate Countries by gender, 2004 .....	70
65	Trends in activity rates, employment rates and unemployment rates in Bulgaria, Romania and Turkey, 2000-2004 .....	71
66	Comparison of sectoral employment structure (by main employment) of Bulgaria, Romania and the EU, 2004 .....	72
67	The jobs cost of weak growth .....	75
68	The unemployment rate and the Nairu in the EU-15 .....	80
69	The unemployment rate and the Nairu in the EU-10 .....	81
70	The long-term unemployment rate .....	82
71	Correlation between percentage changes in the unemployment rate and in the average duration of unemployment between 1997 and 2003 .....	83
72	Beveridge Curve .....	84
73	Real wage gap/pressure indicator (1970=0) .....	89
74	Nominal compensation per employee; total economy (national currency, pps weighted) .....	90
75	Real compensation per employee; deflator GDP; total economy (national currency, pps weighted) .....	90
76	Intra euro area real effective exchange rates (nominal unit labour costs relative to competitors, 1987=100) .....	91
77	Employment to GDP elasticity and the output gap in the EU-15 .....	92
78	Employment/GDP elasticity and profitability .....	93
79	Ratios of part time workers to total employment and of fixed-term employment to total employees in 2004 (percentages) .....	108
80	Relative indices EU-15 compared to the US (US=100) .....	117
81	Relative indices EU-15 compared to the US (US=100) .....	118
82	Relative indices of total factor and hourly productivity EU-15 compared to the US .....	118
83	Determinants of total labour input, EU-15 compared to the US (US=100) .....	119
84	Impact of social transfers (other than pensions) in the reduction of the risk-of-poverty rate .....	123
85	Contribution of ICT investment to GDP growth in selected EU countries and the US (in percentage points) .....	129
86	Gap between actual and potential gross domestic product at 1995 market prices .....	138
87	Current level of capacity utilisation in the industrial sector (seasonally adjusted percentages) .....	138

88	Consumer Confidence Indicator in the EU (seasonally adjusted)	139
89	Industrial Confidence Indicator in the EU (seasonally adjusted)	139
90	Euro area business climate index	140
91	Price indexes in Euro deflated by the GDP price index in the Euro area (100=1992q2 to 1992q4)	140
92	GDP, average growth rates (percentages)	142
93	Employment, average growth rates (percentages)	142
94	Domestic Demand, average growth rates (percentages)	143
95	Gross Fixed Capital Formation, average growth rates (percentages)	143
96	Construction, average growth rates (percentages)	144
97	Equipment, average growth rates (percentages)	144
98	Private Consumption, average growth rates (percentages)	145
99	Government Consumption, average growth rates (percentages)	145
100	Exports of Goods and Services, average growth rates (percentages)	146
101	Nominal unit labour costs, total economy – relative to EU-25	146
102	Saving rate, gross; households and NPISH	147
103	Saving rate, gross; households and NPISH	147
104	Data for EU-15 – Year-on-year real growth rates for the year ending in the current quarter	148
105	Data for Germany – Year-on-year real growth rates for the year ending in the current quarter	149
106	Data for France – Year-on-year real growth rates for the year ending in the current quarter	150
107	Data for Italy – Year-on-year real growth rates for the year ending in the current quarter	151
108	Data for the United Kingdom – Year-on-year real growth rates for the year ending in the current quarter	152
109	Data for Spain – Year-on-year real growth rates for the year ending in the current quarter	153
110	Data for the Netherlands – Year-on-year real growth rates for the year ending in the current quarter	154
111	Domestic demand excluding stocks at 1995 prices	155
112	Unemployment rate; total – Member States: definition EUROSTAT	155
113	Trends in earnings inequality (selected countries)	165
114	Trends in earnings inequality (selected new Member States)	165
115	Average annual earnings by activity (in € per annum)	167
116	Hourly earnings in Industry (C-F), in PPS	168
117	Hourly earnings in Services (G-K), in PPS	168
118	Variability of hourly earnings (in PPS)	169
119	Hours paid in Services (G-K)	170
120	Hours paid in Industry (C-F)	170
121	Hourly earnings by gender (in PPS)	177
122	Women's earnings in financial intermediation activities (J) as a percentage of those for men	177
123	Hourly earnings by gender and occupation	178
124	Women's hourly earnings as % of men's, by occupation	178
125	Asymmetry of the earnings distribution	181
126	Earnings of top decile of workers relative to bottom decile (D9/D1)	181
127	Earnings of top decile of workers relative to the median (D9/D5)	182
128	Median relative to earnings of the bottom decile of workers (D5/D1)	182
129	Variability of gross hourly earnings in different branches in industry and services, in PPS (within-country dispersion)	188
130	Interdecile dispersion (90%/10%) of wages and labour market performance	191
131	Mean annual bonuses as % of mean annual earnings	194
132	Top occupations, top bonuses	195
133	Gender gap in bonuses	195
134	International comparison of activity rates in 2004	212
135	Inactivity rates of the working age population (aged 15-64) by Member State, 2004	213
136	Inactivity rates of the working age population (aged 15-64) by gender, 2004	214
137	Inactivity rates in the EU-25 by age group, 2004	215
138	Structure of the EU-25 inactive population aged 15-64 by age group, 2004	215
139	Inactivity rates for the EU-25 by age group and gender, 2004	217
140	Inactivity rate of the working age population by nationality and sex, 2004	217

141	Skill structure of the inactive population aged 15-64, 2004 .....	219
142	Skill structure of the inactive population aged 15-64 in the EU-25 by age group, 2004 .....	219
143	Skill structure of the inactive population aged 25-64 in the EU-25 by gender, 2004 .....	220
144	Inactive working age population as share of total working age population (aged 15-64) .....	221
145	Inactive population as share of the working age population (aged 15-64) .....	222
146	Change in inactivity rates for the EU-25 by age group and gender between 2000 and 2004 .....	223
147	Change in inactivity rates for the EU-15 by age group and gender between 1995 and 2004 .....	223
148	Length of inactivity by gender and age in the EU-25, 2004 .....	225
149	Length of inactivity by reason for leaving last job in the EU-25, 2004 .....	226
150	Reasons for inactivity for the working age population (15-64) in the EU-25 .....	226
151	Change in reasons for inactivity in the EU-15 between 1995 and 2004 for the working age population (15-64) .....	227
152	Reason for inactivity by age in the EU-25, 2004 .....	228
153	Reason for inactivity by educational qualifications for the working age population (15-64), 2004 .....	228
154	Inactive people participating in education or training in the EU-25, 2004 .....	234
155	Inactive people participating in education or training in the EU-15 between 1995 and 2004 .....	235
156	Willingness to work by reason of inactivity and gender in the EU-25, 2004 .....	239
157	Inactivity and unemployment rates for the population aged 15+ by region in the EU-25, 2003 .....	239

## List of boxes

1	Lisbon and Stockholm employment rate targets .....	35
2	Relaunching of the Lisbon Strategy and the new integrated guidelines .....	37
3	Recent approaches to employment of older people in the Netherlands, Sweden and the UK .....	57
4	The European Youth Pact .....	65
5	Overview of the labour market situation in the Acceding and Candidate Countries .....	70
6	Special Focus on Information and Communications Technologies (ICT), Organisational change and Productivity .....	129
7	The estimation of Okun type equations (Annex I) .....	134
8	The estimation of unemployment gap equations (Annex II) .....	135
9	Estimation of a 'reaction' function for budgetary policy .....	162
10	The difficulties in measuring earnings inequality .....	166
11	Methodological notes .....	186
12	Special focus on technical change, skill bias and wage polarisation .....	198
13	The European Structure of earnings survey, a unique source of information (Annex I) .....	202
14	Labour market disadvantage and inactivity: the disabled .....	220

## Introduction to key employment indicators tables

The figures in the following "key employment indicators" tables refer to data available up to mid-June 2005. For most Member States this means the most recent data available is that for 2004, although for some Member States 2004 data was not yet available or is provisional.

The source for the indicator values is Eurostat, EU Labour Force Survey (annual averages), except for the following indicators which are from Eurostat, National Accounts:

3. Total employment levels (except for EL, PL, SK, SI for 2004, HR and RO)
10. Share of self-employed in total employment
13. Share of total employment in Services
14. Share of total employment in Industry
15. Share of total employment in Agriculture

## Notes for particular Member States/tables:

(a) Missing quarters are estimated by Eurostat before the transition to a continuous quarterly survey takes place in each country.

(b) General comments and breaks in series:

- PT (EU-LFS indicators): break in 1998
- UK (EU-LFS indicators): break in 2000
- LT (National Accounts indicators): break in 2004
- IT/AT (EU-LFS indicators): break in 2004
- DE 1999-2004: national estimates
- CY 2004: provisional

(c) Comments on specific indicators

Indicator 01, 02	Provisional for EU-25. 1997-1998: without MT. Indic 01 refers to the population aged 15+ for PL (1997-1999) and for LT (1997-2001).
Indicator 20 to 23	Based on EU LFS estimated monthly results (harmonised unemployment series).
Indicator 08	EU-25 1998-1999 estimates.
Indicator 09	EU-LFS, spring results, BE 1999-2000: estimate.
Indicators 11 and 12	DE 1999-2004, CY 1999-2003: spring results.
Indicator 3, 10, 13-16	LT 2002: break in series.
Indicator 10, 13-15	PL, EU-25 2003: break in series, 2004: Provisional data.

Source: Eurostat, EU Labour Force Survey and National Accounts.

Note: EU Labour Force Survey indicators: break in 2004. In the case of Austria, employment in agriculture – as derived from national accounts – includes a significant number of persons with occasional or small jobs. When calculated on the basis of the LFS and limited to the main job, the share of agriculture in employment is found to be significantly lower, and the shares in services and industry somewhat higher. Due to the substantial differences in the estimates of sectoral employment shares, no data is provided.
