Special Roosevelt Campaign Issue

"It's Roosevelt For Me and Mine"
Glittering Tribute Paid To A Gallant Leader

"FOR COURAGE AND VISION IN SOCIAL MATTERS"

By GOVERNOR HERBERT H. LEHMAN

October 19, 1936
State of New York
Executive Chamber
Albany

My dear Mr. Daniel:

I understand that you are publishing a special Roosevelt campaign issue this week.

I am heartily supporting President Roosevelt for re-election, for two reasons: first, because during the years I was associated with him in public work I formed an extremely high opinion of his ability, efficiency, vigor and broad-mindedness; and secondly, because I think he is more than any other man of our generation has displayed courage and vision in social matters. To lose his leadership at this time would be nothing short of a calamity.

Yours very sincerely,

HERBERT H. LEHMAN

(Extract from radio speech on October 8)

"The two prominent supporters of the President who often come under the designation as Communists (by President Roosevelt's opponents — Ed.), are Sidney Hillman and David Dubinsky. They are prominent members of a labor group which is working actively for the re-election of Mr. Roosevelt. What are the facts with regard to their alleged Communist sympathies?"

Sidney Hillman was never a Communist nor even a formally enrolled member of the Socialist Party. It is authoritative to report that he voted for La Follette in 1924, for Smith in 1928, and for Roosevelt in 1932. David Dubinsky resigned from the Socialist Party last April. Far from having communist sympathies, he has consistently fought Communism in the labor union of which he is head...

The assertion that President Roosevelt is closely associated with or supported by prominent Communists is without foundation, as is the charge that he is a Communist himself. Both accusations are ugly, cowardly and flagrant calumnies. They are violations of the Eighth Commandment. The revelations of Roosevelt, Dubinsky, Hillman and Dubinsky are as dear to us as they are to your propositions -- you and mine are in to it. Those who have called any of these men Communists are under strict moral obligation to make restitution; that is to restore insofar as they can the good name of Messrs. Roosevelt, Dubinsky, Hillman and Dubinsky.

"...Talents of America, I impose you not to permit yourselves to be misled. I implore you not to abandon your tried and tested champions in public life. I appeal to you not to vote against the man who has, with a deep and more sympathetic understanding of your needs and who has brought about a more fundamental legislation for labor than any other president in American history. If he is re-elected he will continue the fight with expert courage and unrelenting skill, until he has placed these beneficent laws and still other beneficent measures upon a permanent and firm foundation. As one who has always been your friend and who respects and understands your problems, I plead with you to do all in your power to keep alive the re-election of Franklin D. Roosevelt."

"RE-ELECTION OF ROOSEVELT IS THE HOPE OF AMERICA"

By JOHN L. LEWIS
President, United Mine Workers

An American, concerned with the future, will vote for the re-election of Roosevelt.

I believe and hope that the citizens of the United States, meeting this crisis, will make a sane and reasonable choice — that they will vote for President Roosevelt.

I am convinced in this belief by the fact that labor — in the broad sense of the word — whether it works in overalls or a white collar, constitutes today nearly seventy per cent of our national population. Organized labor has already demonstrated that it is almost unanimously in favor of the President's re-election. I am sure that the more that unorganized workers are also equally in support of the President.

These millions vociferously acclaim him. The reason for this is not far to seek. Labor is not slow to realize and support what is to its advantage.

"Masters Are Behind Landon"

By Frank P. Walsh

The issues of this campaign are as good as the Republican Staff. They have to do with the policy of the Federal Government toward the workers in industry and agriculture; such questions as taxation, the development of world markets, the fostering of our foreign trade, the development and use of natural resources on the public domain, the control of the great monopolies in oil, steel, atomic power, and war munitions. The masters of these industries, almost without exception, are throwing the weight of their money and influence behind the candidacy of Governor Landon. But our common citizenship is accused, will rout them at the polls and Roosevelt and Justice will triumph.

"ROOSEVELT SAVED HUMAN LIVES"

By William D. Wald

Franklin Delano Roosevelt has been the first President whose aims and whose program were definitely for human conservation. Plans for unemployed, assurance for youth, safety for old age, for the real welfare, self respect and dignity of the people are among the things this administration's greatest objectives. To say that he has earned our gratitude, our loyalty and our support is to say the least.

ILGWU Throng in Roosevelt Chicago Parade

Chicago Joint Board Big Factor in Non-Partisan League

By Morris Baillie, V.P.

In response to a call to "meet and greet President Roosevelt," on his visit to Chicago, 5,000 members of the locals affiliated with the International Ladies' Garment Workers poured out of their factories and homes to join the huge parade-demonstration on October 14 at which the great metropolitan of the Midwest acclaimed the Chief Executive of the nation.

13,000 Garment Unions in Line

The ILGWU members assembled, between 2:00 and 4:00 o'clock in the afternoon, along the Boulevard between Jackson and Van Buren streets, in the heart of the garment district, and from there marched in solid ranks to the Stadium together with 8,000 Amalgamated Clothing Workers members.

Chicago had not seen such an outpouring of sympathetic, enthusiastic humanity in all its history. Labor, organized workers of all crafts, wage and salaried workers of all classes, and masses of plain people, had found in the up movement of hundreds of thousands of Chicagoans a common goal, a common purpose to the great good of all of us. Our unions, and all other organizations in the country, had taken hold of this historic gathering practically in a man.

Joe Bagel Uprising

Conscious in the lines of our numbers were placards and handbills expressing the significance of this event in Chicago. Some read, "It's Safe With Roosevelt," "Roosevelt is For Industrial Democracy," "The Only Man to Lead a Movement in Chicago." "Roosevelt's a Man to Count On." "Let's Rally to Roosevelt." "Labor Will Mingle Their Struggle With Roosevelt." "Huff and Puff over a Vote of Thanks in Roosevelt," were blazoning placards in the ranks of the marchers. "No more slums, no more sweatshops, clothing work of the poorest kind," was another plume.

To say that the Chicago Laborers have gone on strike are all for Roosevelt and will vote for him is to put the bandy mildly. There is tremendous excitement running through our ranks in this campaign. Men, women and children are hanging all our offices with posters for Roosevelt behinds. Roosevelt is good news for their shop people which they display in their homes and on their persons. The marchers are proud to see their neighborhoods.

5,000 Already Given Campaign

All the locals affiliated with our Joint Board, including Local 317, every factory workers have spent the past week in door-to-door work and have traveled themselves voluntarily 90,000 miles for meetings, as a result of the Chicago Steel Garrison, John F. Joseph has already contributed $5,000 to the Illinois State Labor's Non-Partisan League.

The writer, Secretary Goldstein, of the Joint Board, and John F. Joseph of the Amalgamated, Ray Edmonson, of the Milwaukee Mower Workers, and John Fitzpatrick, president of the Chicago Federation of Labor, conducted a driving force behind the campaign of the Non-Partisan League in Illinois, to contact Roosevelt.

The League is very active in Chicago, with a series of bright, snappy campaigns for the Labor Vote. It's being distributed throughout the State, in addition to handbills of other campaigns.

7,000 In Baltimore Roosevelt Trade Union Parade and Rally

"Red Bogy" Exploded, Roosevelt Enemies on the Run," Says Dubinsky: Berry Sees Dismantling of Old Parties

3,500 garment workers members of the ILGWU and the Amalgamated all in Baltimore, on October 21, Lyric Theatre in Baltimore, one of the largest assembly places in the big Maryland city, and cheered to the echo the speeches of President David Dubinsky and Mayor George L. Berry at a Roosevelt rally.

The League of Unionists was only about half the number of trade unionists that paraded to the collection for the auditorium from the Baltimore City Hall Piazza. On the platform besides Dubinsky and Berry were: Angela Lansbury, Baltimore organizer of the ILGWU; Dorothy International of the ACW; and John T. Jones, district president of the United Mine Workers.

President Dubinsky lost no time in calling into Government Lamborn's campaign manager, John Hamilton, who several weeks ago raised the "Communists!" base with regard to his designation as an officer on the American Labor Party ticket in New York, and by virtue of this fact also as an officer on the Democratic ticket, "I suppose you've heard," he said, "that Hamilton hasn't said much about my companions in the last ten days. He realizes that Dubinsky and Hillsman may have more than their own votes. Hamilton, obviously, has received definite orders not to mention the things he said he has done enough harm to the Republican cause already.

Topwell and Dubinsky are "Communists!"

The reason they say Franklin D. Roosevelt and Dubinsky are "Communists!" is that they believe he can put over the idea that anyone who stands for a new deal for labor is a Communist. Everyone wants more opportunity for workers and their children, those who build, create and make up the backbone of the nation, these are all "Communists!"

"Dubinsky in particular is a "Communist," because his name ends in 'ay' and they believe that this is good enough evidence for the American public to prove that he is a "Communist."

"Twenty years ago when I was working in a shop as a cutter and valued a $1 rise, my employer called me a Bolshevist."

Then he quoted former Governor Smith as saying in the 1928 campaign that 'every forward-looking progressive organization was called State Socialism' by the re-activists of the Republican party.

"Smith said that then," Dubinsky commented, "and I say this now. 'Way after this campaign is over, when Landon and Hamilton will be forgotten, our Union and its service to the people will stand out as a Monument for Justice, fairness and democracy.'

Mayor George L. Berry, chairman of the Labor's Non-Partisan League for the Re-election of Roosevelt, declared when introduced, 'He was delighted to be associated with David Dubinsky and Sidney Hillsman in this campaign because they have represented that kind of Americanism that I approve and embrace without reservation.'

Roosevelt Victory Only First Aim

Explaning the reason for the formation of the Labor's Non-Partisan League, Mayor Berry asserted "the first plank of the League's platform is to elect Roosevelt. We have given that plank of the platform its rightful and well-earned fulfillment of the 1934 objective."

"Second, we decided to insert a plank for the protection of liberalism in the United States and it came through in the 1934 campaign."
Every ALP Vote Must Be Counted!

By MAX D. DANISH

The "Great Red Scare" of the ALP campaigns by all the signs of the horoscope is as good as a whole sandwich.

Hamilton, Aitken, and the entire saloon of laborers who had served for weeks to direct the American Labor Party's wagon with a "Communist" crossing. They had tried to pin a "red" tag upon the President by associating him with such "Moscow agents" as Townsend, Frankfurter, and--save the mark!--Dubinsky and Hillman. The ground was all but cleared for an either "Elsewhere Letter," the ill-smelling trick the Tory forces had pulled in the British elections of 1929, which scared the English voters back into their own party. 

No sooner, however, was the "red scare" carried out of sight than the Landers published results on an earlier scarecrow.

For the past week, the "Sun and the "Herald-Tribune." Landers' chief critics in the Eastern metropolis, have been putting out a "discovery" that the American Labor Party is not "enough to save the Democracy," that it has come to stay that it "was going to poll a million votes in the election," and that it was going to suppress Tammany Hall on the party in New York City within a mere couple of years.

The Landers press of a sudden has begun playing up the American Labor Party as a "menace" to Tammany Hall. In "feature" articles and long "newspaper" stories it has drummed the point that the "real" labor party with the endurance of Roosevelt, is being fashioned right in the same Tammany Hall which will send Tammany's key men out as one of the "Tribune" articles to help see this thing through and save themselves.

But why, this sudden intensity? To say that Tammany hall, supposedly their traditional enemy, is the "real" labor party is to say that the "Herald-Tribune," which until now have given the American Labor Party, but meekly mention, begun to "pull" the Labor Party and to send down Tammany's back:

The answer is simple. The Republican politicians, upon a close check-up, have concluded that New York is practically lost to Lincoln. Moreover, they appear to have become equally convinced that it is the American Labor Party, rather than the State into the Roosevelt column. But the rise of a strong Labor Party is ever more obvious to the Republican master-minds than a Roosevelt victory in New York State. The advent of a powerful political organization, controlled and guided by the trade unions and the progressive and liberal forces in the nation's metropolis, the Labor union figures, and not without reason, will spur formation of real labor parties throughout the land. How can they stop it? For they propose to Tammany to "whip it in the back." And what does that mean? No more and no less than a "friendlier suggestion" to "forever" in the American Labor Party with the votes that will be cast under its emblem and to shift that vote peacefully and "harmlessly" to the regular Democratic balance.

That's the obvious content of the new ad, as was conveyed in New York and it's still more obvious and desperately important.

The countercheck to this minor party move by the American Labor Party can be hot and, therefore, must be mobilized at once an army of poll watchers on Election Day that would see to it that the votes cast for Roosevelt and Lehman under the Labor Party's emblem are counted for it. Twelve thousand watchmen, we are told, are needed for adequate meaning of the voting booths. This can and should be done. Not a thing should be left to chance.

300 Trucks Parade

For American Labor Party

A parade of over 500 motor trucks, five blocks long, the most unique demonstration of its kind in New York's political history, was held in behalf of the American Labor Party on Monday morning, October 21, sponsored by the Greater New York Laborers' Industrial Union Association. The parade wound its way through the garment district and down lower Fifth Avenue.

Each truck was blanketed with signs and banners for the American Labor Party and its candidates, President Roosevelt and Governor Lehman. Both the trucks and the services of the drivers are said to have been contributed by the Roosevelt Industrial Union group which is friendly to the aims of the Party. These trucks are used to ship garments from the manufacturers' plant to the stores.

IGWU Helps Rid Ga. of Tamalchee Dictatorship

By A. Steve Nance

Primary elections in the State of Georgia are in fact the actual elections for State officials, including United States Senator, as there is no opposition to the Democratic candidates except in very rare instances.

In view of this fact the organization of Labor's Non-Partisan League was delayed until after the primary elections in September.

Naturally, during these elections the officers and members of Local 112 took a very active interest and cooperated with the State Federation of Labor in the fight against Georgia Tamalchee.

In the fight to rid Georgia of the dictator, labor united, without exception, against his reelection, and he was defeated by more than ten to one in the county unit even of non-union organizations.

The organization of the Non-Partisan League began during the session of the General Assembly of Labor, and the names of Local 112 are taking an active interest in the Labor movement from present indications, will have to pay a heavy price, for their services to the organization.

The above covers, very briefly, our local activities in this very important national campaign, in this section of the South.

TO ALL DRESSMAKERS

We do not forget the sweatshops, long hours and low pay. We will not be forced back to the dark days of breadlines, soup kitchens, bank failures and hopeless unemployment. We do not forget the mounting lists of those who took their own lives because the government would not help them live. We do not forget the boys and girls who met the veterans in their miserable hovels in Washington. We do not forget the apple salesmen. We do not forget how the government was deaf to the hunger calls of women and children while displaying a tender interest in the needs of vested monopoly and fractional finance.

We remember—and because we remember we are going to keep those who were responsible from getting another stranglehold on the National and State administrations.

The new philosophy in government has charted out a course for national recovery based on the vital needs of all the people rather than the claims of the privileged few. Increased purchasing power in the homes of the millions—to speed up the wheels of industry—reduction of hours to solve the problem of unemployment—fuller organization of workers into unions—stronger encouragement of collective bargaining—these are some of the things that have already happened.

With the American Labor Party we will go further.

All who work for a living need a permanent political party to insure an unbroken advance toward a richer, fuller, happier life.

Dressmakers!

We appeal to all our members to go to the polls on Election Day. Organize your family, friends and neighbors and take them to the polls. VOTE!

VOTE FOR ROOSEVELT AND LEHMAN!

JOIN BOARD DRESSMAKERS UNION, Locals 10-22-60-89

ONCE AGAIN the dressmakers show the way! Above is a photograph of a new poster created by General Manager Hochman at the Dress Joint Board contribution to the campaign of the American Labor Party. It is believed to be the first political poster ever circulated by a large trade union. The poster has been hung in all shops. All shops not provided with posters may obtain them by getting in touch with the Union.

Half of Election Day, next Tuesday, November 3, is a legal holiday for all dressmakers in accordance with our agreement.

This half holiday will begin at 12:30 P.M.

All work workers must be paid for the full day.

The Joint Board informs the membership that no work will be permitted in the shops after 12:30 P.M. on Election Day.

This Election Day will go down in political history.

For the first time we are privileged to vote under the emblem of our own party—The American Labor Party. Composed of the organized workers of the City and State allied with all liberal and progressive elements, it is our permanent instrument for independent political action.

The American Labor Party is dedicated, fearless in action, to social, economic and political action. It is our permanent instrument for independent political action.

Our Party supports President Roosevelt and Governor Lehman for re-election.

We support Roosevelt and Lehman because they need our support and backing to press forward their social, economic, and humanitarian program of government. But we support them under our own banner, as a challenge to the anti-labor, anti-social forces of reaction this year, next year and in the years to come.

The real issue in this campaign are simple.

Next Tuesday we will decide whether to continue the policies of Roosevelt and Lehman or hand the government back to the organized forces of greed and privilege.

We choose the new social consciousness in government based on social and labor legislation, bigger purchasing power of the workers of the State and Nation and a decent regard for the rights of the common man. We will not be thrown back to the misery and agony of Hooverism.

State Chief Executive Advocates Amendment to Protect Minimum Wage Standards—Mrs. Roosevelt Sends Warm Letter—Dubinsky Extols Democratic Regimes

By a Staff Reporter

Relating to speeches which it followed in the early years of its existence, the Italian Dressmakers' Union, Local 89, observed Columbus Day this year, on October 12, with a celebration at the big Hippodrome on West 42d Street. The huge theatre, filled to capacity by an enthusiastic crowd of 6,000 members of the local, presented an imposing and eye-filling spectacle for which the Italian dressmakers of New York have become renowned.

First twenty-President Luigi Antonini, as head of Local 89, presided over the speakers part of the program. He first reconvened, in Italian, the oldest points of Chris-tofer Columbus' life and the struggles he faced earlier and during his historic achievement. This was followed by way of the unknown western routes which resulted in the discovery of America. Then, continuing in English, he explained why the Italian dressmakers have felt it their duty to observe the anniversary of the great discoverer. "We are prompted to do so," said Antonini, "not by feelings of na-tional nationalism but because he is an inspiration of the sentiment of deep gratitude which is stirring the hearts of all who inhabit this Continent."

Mrs. Roosevelt Sends Greetings

Unable to accept the invitation to be present at the celebration, Mrs. Franklin D. Roosevelt, for whom the Italian dressmakers have special admiration, sent the following message, which was read to the following audience:

September 23, 1934.

"My dear Mr. Antonini:

"I am glad to have this opportunity to send my congratulations to the members of the Italian Dressmakers' Union, Local 89, at their Columbus Day celebration. I am sorry that other engagements prevented my being with you but I do wish to send my best wishes to you at this very pleasant and memorable occasion."

Gov. Lehman

Stir Aufgemeine

Governor Herbert H. Lehman, represented by his Executive Secretary, Charles Politi, who was accorded a hero's welcome as he came upon the platform. The Governor paid a glowing tribute to the contribu-tion of the sons and daughters of Italy to the progress of America, adding that in this land discovered by the Great Columbus there should never be a place for a governmental policy based on the exploitation or discrimination against minorities.

Dubinsky Hails Democracy

The address of President Dubinsky was a stirring plea for the preservation of democratic liberties in America and a tribute to those who attempt to inject in this present political campaign race or religious prejudices. He commended Local 89 for the devotion to these principles and for the part it is playing in making America sure for the great mass of people.

"Young Unionists Join ALP Drive"

A wholesaler drive for membership in the youth division of the American Labor Party is being conducted by the Party's trade union committee in Locals 12, 22, 60, and 13. A large committee composed of delegates from every local has been set up and all shop meetings and educational centers are being improved by the delegates in an attempt to bring the entire youth membership of the Joint Board into the American Labor Party.

Drive leaders declare that they desire more than just additional memberships as such. New mem-bers of the Party are being asked to join the drive and actively work with the delegates to get the fellow workers to Join also. Everyone is being urged to accept work in con-nection with the drive, and to use every influence that has been set up for the campaign. The speakers' committees, which are the most important committees, have room for many additional members who will accept speaking assignments.

Sound Track in District

A trade union committee is arranged for a sound track over the garage district. The job speaker will make a special appeal to the young people for membership in the American Labor Party and to the old members of the American Labor Party. The speech will be repeated by President Roosevelt and Governor Lehman under the auspices of the Labor Party.

The committee is set up for a permanent basis and will carry at its work after election as well as before. Looking ahead to 1933 and 1934, its leaders declare that the youth division of the Party will be large enough and strong enough to demand and receive a decisive voice in the shaping of policy and the selection of candidates.

The enthusiasm of the young trade unionists for independent political action by labor as exemplified in the American Labor Party has been illustrated by the rapid growth of membership in the youth division. In the last few months many new members are enrolling in the local youth divisions of the American Labor Party and in the citywide conference of 250 dele-gates from 63 labor, educational, social, and patriotic organizations at the Hotel Claridge on October 8.

The delegates adopted resolutions endorsing President Roos-velt and Governor Lehman for re-election, endorsing the program of the American Labor Party, and setting up a youth division of the Labor Party as a permanent organization.

They set up a temporary four-committee of 32 in direct and co-ordinated the campaign work. Since then the city committee has di-vided itself into committees for members to carry on work in the trade unions and neighborhood districts, the suburbs, and to arrange for radio time.

"Buy Apples, Eat Apples."—Do You Recall That Aiming Trojan of the

The Issue Before Us

By DAVID DUBINSKY

The issue in the current presidential campaign is definite and clear-cut.

Despite pretenses to "liberalism" which he makes in his speeches in some parts of the country, Alf L. Landon is definitely the candidate of all forces of repressive reaction in American life.

If a man is known by the company he keeps and a party is known by its supporters, it is self-evident that the party which has the support of the DuPonts, the Morgans, the Rockefellers, of William Randolph Hearst, of Andrew Mellon, is by this fact the party of these monopolists and beneficiaries of privilege.

Roosevelt, on the other side, has proved by his record as Governor of New York and as President of the United States that the workers and common people of America can depend on him as a true friend of progress and labor.

Roosevelt and Landon are poles apart. Landon is the candidate of Hoover, Ford, the Steel Trust, the non-union dukes in the mass-production industries, the munition makers and the war makers.

On NOVEMBER 3, THE MEMBERS OF THE ILGWU IN COMMON WITH ALL OTHER MEN AND WOMEN IN AMERICA WHO WORK FOR A LIVING, WILL DEMONSTRATE THIS INTELLIGENT UNDERSTANDING OF THE TRUE ISSUE FACING THEM IN THIS GREAT POLITICAL CAMPAIGN BY VOTING FOR FRANKLIN D. ROOSEVELT—AND IN NEW YORK STATE ALSO FOR GOVERNM HERBERT H. LEHMAN, BY THE GREATEST MAJORITY EVER GIVEN A PRESIDENT OF THE UNITED STATES.

Watchers, A L P Builders, Wanted!

A CALL TO ALL MEMBERS OF THE ILGWU IN GREATER NEW YORK!

Within a week, the future of labor and progress which we have allied ourselves this year in New York to build a Labor Party in order to make safe the election of Roosevelt and Lehman and to ensure an organized political defense of economic freedom and democracy for years to come, we hope, will have occasion to look with pride upon their first-year achievements.

But there is still a lot to be done, a great many obstacles to overcome. The message of the American Labor Party, in the form of campaign literature, attendance at meetings and rallies, distribution of posters, etc., must still reach hundreds of thousands of people in this great metropolis. Thousands of watchmen are needed for Election Day to see that every vote we get for Roosevelt and Lehman will be credited to the Labor Party.

Members of all Chambers of Commerce in New York as City Campaign Committees.

Chairmen of the A.L.P. call upon you to volunteer for this work without delay. Get at once in touch with your local office, and apply to the Local Campaign Committee for an appointment, or contact directly with the main headquarters, at Hotel Claridge 46th Street and Broadway—Telephone Beacon 4-1640—and you will be directed to your proper locality.

In this work, we must leave nothing to chance in this campaign. Your help is needed in this political struggle as much as in the economic conflicts our Union has so successfully carried out in the past years.

REMEMBER—There is no time lost for delay. Every day, every hour counts. Let's get a magnificent result to the pictured job we have set out to achieve!

**The Campaign in Westchester Co.**

By Louis Reiff

Westchester ILOU Manager

The opening gun to the American Labor Party's campaign in Westchester County was fired by Thursday afternoon, October 15, when two thousand workers, members of Local 314, met in the auditorium of the Westchester Labor Club, 406 Avenue, New Rochelle.

New Haven, Schenectady, and Schenectady's 2,350 new members who registered as of the result of the campaign's activities. The number of registered members in Schenectady is estimated to be over 2,000. The number of new members in the other counties is estimated to be around 1,500. The number of new members is estimated to be around 1,500.

Conn. Labor Goes Big For Roosevelt

Local political observers in New Haven, Conn., attribute the success of the campaign to a large registration drive in the city, with the exception of New Rochelle, where party affiliation is not required. In New Rochelle, the activities of the Labor Non-Partisan League are not as active as in other counties, due to the lack of representation in the city.

Conn. Labor, under the leadership of the American Labor Party's New York labor leader, is reaching out to the workers in the city, encouraging them to become active members of the union. The city has a strong labor movement, and the American Labor Party is working hard to represent the workers in the city.

The evening of October 15 was another overflow meeting in the city of New York. At this meeting the Labor Party took a significant step in its campaign, as the large crowd of workers who attended the meeting gave the American Labor Party a strong mandate to continue their campaign.

The meeting was held at the Madison Square Garden, and was attended by thousands of workers from all over the city. The meeting was addressed by the American Labor Party's leaders, who emphasized the importance of organizing workers and mobilizing them to support the party's campaign.

The meeting was followed by a parade of workers, who marched through the streets of the city, waving signs and banners in support of the American Labor Party.

Our Union Campaigning For Roosevelt In Southwest

By mayor Peralta
ILGWU Representative in Southwest

Our unions everywhere are busying the campaign.

In St. Louis, Kansas City, Dallas, Houston, the Twin Cities, Alton, and wherever union ladies' garment shops are located our people are full of enthusiasm, working with other labor unions, agitating for the re-election of President Roosevelt.

In St. Louis the Central Labor Union organized a Non-Partisan League. The committee is under the able leadership of T. F. Quinn, executive agent of the Illinois Potters, one of the outstanding intelligent union men of that city; Joseph Clark, chairman of the Central Labor Union, Wm. M. Cloward, secretary of the Central Labor Union, and Mrs. Mary Nylander.

Similarly, the ILGWU as well as the Amalgamated Clothing Workers is conscientiously active in the Southwest.

Christine Cain,
Secretary, Missouri Labor's Municipal League.

ILGWU Slafe

For Roosevelt

Our membership in St. Louis and their friends are almost as a unit going to vote for President Roosevelt.

In Kansas City the organization in her movement—and for that matter, the average man in the city—does not think of anyone except Roosevelt.

In the Twin Cities our members and their friends are enthusiastic supporters of the Farmer Labor Party. Our own unions in those cities and the Amalgamated Clothing Workers are busy day in and day out installing, talking of the election. I can very well imagine the huge majority Roosevelt will receive in Minnesota.

From Left to Right: Mayor Peralta, William M. Brandt, Tom F. Quinn, Joseph Clark, Ben Gilbert.

In Queens and Staten Island

Brother Jack Greenman, manager of the ILGWU's Long Island offices, is actively engaged in promoting the campaign in his territory. The workers of the Mayday, May 1926, and Amelio Dress shops of Hicksville, Nassau County, met in the Christian Hall to complete arrangements for campaign activities. Post watchers were appointed and arrangements for campaigning were made.

A similar meeting was held on October 6 in Columbia Hall, Huntington, Suffolk County, and the same arrangements were made with the 10 people from the Silver Ray shop.

At Coronea, Queens, two meetings were held with the workers from the Frank, Rose, Retail and Anchor shops in Coronea. At the Queen Beat Hall, over 500 people placed their votes to Roosevelt and to an active campaign on the behalf of Roosevelt. Greenman has assigned Charles Cloos to the Staten Island office of the American Labor Party, where he is cooperating with Mr. Sidney, local chairman of the American Labor Party, a meeting of 200 people was held Wednesday afternoon, October 21, at Barrister Hall.

Among those addressing the meeting were S. Malivo, Italian foreman, chairman of the ALP, and Sister Margaret Deegan.

ALP Caravan in
ILGWU Territory

The caravans of the Women's Division of the American Labor Party, led by Marie B. McDonald, has been making a very successful tour of, normally Republican strongholds in the major part of New York State. Princess Columbia County on October 10, they held five successful meetings in the five main towns of the county. In the town of Herkimer the people stood in a pouring rain to hear Mrs. McDonald speak. Later, the caravan traveled to Utica and thence to Chauncey where "Pop" Smith of the Railroads New Yorkites joined. Mrs. McDonald is in iPod for support of President Roosevelt.

Our Watchers and our organized workers, and most conspicuous among them the garment workers and the miners, are working unceasingly, agitating, explicating the true line of division between the laboring people, the men and women of average means, the prosperous and the rich men, the large employers. It is the labor people, the men of average means, the prosperous and liberals of the country that will re-elect Roosevelt. The large employers, the rich, will vote against him.

It is the worker in this section of the country who is the largest beneficiary of the prosperous and the better condition of the country that will re-elect Roosevelt.

It is the worker in this section of the country who is the largest beneficiary of the prosperity and progress. We should be happy that our members are so active in this campaign.

2,000 CUTTERS WANTED FOR WATCHER DUTY ON NOV. 3

To All Members of Local 10—Cutters in Every Branch of the Women's Garment Industry

On November 3, the electorate of America will decide the fate of the country for the next four years. That decision, however, will have more political significance.

It will decide whether the wage earners of America in every trade, profession and occupation continue the common people of this country to look forward to progress, further recovery and a place in the sun of our social and economic fabric, or whether we shall return again to Hooverism and all the misery and degradation that tragic term stands for.

Members of Local 10! We call upon you to go to the polls on November 3 and help return to their exalted posts President Roosevelt and Governor Lehman, the two great leaders for human progress and social justice. Vote for them—and this is tremendously important—under the banner of the American Labor Party, the Headline under the Ceposel. We must not only elect Roosevelt and Lehman; we must build up in this campaign a powerful labor party controlled and guided by the organized workers.

But IT IS NOT ENOUGH TO CAST A VOTE—WE MUST SEE TO IT THAT OUR VOTES ARE COUNTED FOR THE AMERICAN LABOR PARTY. I CALL UPON YOU, THEREFORE, TO ENLIST, AS MEMBERS OF LOCAL 10, IN THE BIG ARMY OF WATCHERS FOR ELECTION DAY. IT IS EXPECTED THAT LOCAL 10 WILL FURNISH NOT LESS THAN 500 WATCHERS FOR NOVEMBER 3.

EVERY MAN IS NEEDED FOR THIS BIG TASK AND NO TRUE FRIEND OF OUR COMMON CAUSE SHOULD SHirk THIS DUTY.—REPORT TO THE CAMPAIGN COMMITTEE OF LOCAL 10 AT ONCE AT HEADQUARTERS AND GET YOUR INSTRUCTIONS AND ASSIGNMENTS.

LET EVERY MAN FACE HIS TASK SQUARELY!

Fraternally,

Boston ILGWU Girls Present Flowers To Roosevelt

Local Unions Emphasize Need of Getting Out Vote — Shop Meetings Popularize Campaign — Garment Workers Among Huge Throng of Roosevelt-Greaters

The entire labor movement of Boston has set its machinery in high speed for the final with-wind campaign to elect President Roosevelt.

With the Boston ILGWU in the van-guard of the movement, as reported in the "Justice," a major Roosevelt Rally was held in October 6 at Tremont Temple, at which David Dubinsky and Sidney Hillman were the main speakers. Literally thousands were turned away from the meeting while hundreds lined the corridors to hear the speakers through amplifiers.

With this rally as the touch-off signal, an intensive campaign has been launched in all parts of the International in Boston, through the Boston John Board with Vice President Philip Kramer heading the campaign, and through the Organization Department with Brother Jack Halpern as leader's spirit.

Campaign Work at Forefront

At all local District meetings emphasis has been placed, as it is for members to vote on November 3. At all shop meetings the question of registration has been pressed in the forefront.

The climax of all labor's activities in the Roosevelt campaign came on Wednesday, October 21, 1934, with the President's visit to the Womack Sparkle Crankshaft and Steel Company in the West End, and State-wide.

Roosevelt has yet to see a more enthusiastic, more sincere, and a more efficient type of organization than that of the American Labor Party.

The President's visit to Boston added more power to the Roosevelt movement of the city and for him for the return of the ALP.

The girls were red, white and blue, and held red-and-white and blue-white and star and stripes, and the entire lab. the quicksilver and all things.

ALP Looks Out On "Great White Way"
"MARS OVER THE WHITE HOUSE"

Suppose William Randolph Hearst were President of the United States and a du Pont were Secretary of State.

What would you give for your chances of staying at peace with the world?

Suppose Hearst, America's chief war-monger, determined our foreign policy, and the du Ponts, our greatest munition makers, put that policy into effect.

How long before we would be in trouble—with the Hearst papers yelling "War!" and the du Pont mills grinding powder overtime?

What does it mean that Hearst and the du Ponts are the chief supporters of Alfred Momman Landon, the man nobody had ever heard of until Hearst picked him out?

Thank God, the American people are too keen ever to have a Hearst for President, a du Pont for Secretary of State. But how much better off, if any, will they be with the hand-picked candidate of Hearst and the du Ponts?

We get an odd feeling at the thought of an American President in office with Hearst at one hand, the du Ponts at the other.

The next four years are make-or-break years in international affairs.

Let's keep the du Ponts out of the White House during the dangerous years ahead.

In our foreign policy to the family that made a profit of $229,000,000 during the last war.

In three years Roosevelt has forged new weapons for peace—neutrality legislation, reciprocal trade treaties, his Good Neighbor policy. The Republican Party, ominously, never mentions neutrality legislation in its platforms. It promises specifically to repeal the reciprocal trade treaties.

"You supply the pictures, I'll supply the war," Hearst cabled Remington, his artist in Cuba, before the Spanish-American War. He supplied it. He could do it again.

A vote for Landon is a vote for this irresponsible war-monger and his powder-maker ally.

A vote for Roosevelt is a vote to keep Hearst and the du Ponts out of the White House.

PACIFIC COAST ILGWU MEMBERS ACTIVE IN ROOSEVELT DRIVE

A WIRE FROM VICE-PRESIDENT ISRAEL FEINBERG, ILGWU REPRESENTATIVE ON THE PACIFIC COAST, READS:

"MOST OF OUR MEMBERS ON THE WEST COAST, FROM LOS ANGELES TO SEATTLE, ARE WHOLEHEARTEDLY SUPPORTING THE RE-ELECTION OF PRESIDENT FRANKLIN D. ROOSEVELT.

"THE TIME IS TOO BRIEF FOR ME TO GIVE YOU DETAILS. OUR PEOPLE ARE ACTIVE IN THE VARIOUS LABOR'S NON-PARTISAN LEAGUES AND ARE ENTHUSIASTICALLY COOPERATING WITH THE CENTRAL LABOR BODIES IN THE CITIES IN THE ROOSEVELT CAMPAIGN. THE PORTLAND, ORE., LOCAL IS DOING ESPECIALLY FINE WORK.

"WE EXTEND TO OUR BROTHERS AND SISTERS IN THE MIDWEST AND IN THE EAST WHO HAVE ENROLLED IN THIS MIGHTY CAMPAIGN OF PROGRESS AGAINST REACTION OUR WHOLEHEARTED GREETINGS AND WISHES FOR A VICTORIOUS OUTCOME IN THIS COMMON CAUSE."
Another Hearst Fake Flaps

Last issue of "Justice," October 13, contained the news item of a letter forwarded by the ILGWU through the signature of President Dubinsky, to all its members in New York state, calling upon them to register for the coming election in order to be able to cast their vote for Roosevelt and Labor Party.

The envelopes also carried a free return postal card, asking the members of the ILGWU to state if they had registered, how many others they had induced to register, and sending them in to sign the cards as directed.

Then-out of a clear sky-hears "new York American" and all the Hearst sheets in the East made a startling discovery. They found, in that "free" letter, a statement that, "all the communications were not the envelopes contained when it reached the union membership. There was a third enclosure." That third envelope is supposed to have contained a "malicious message attacking the American Labor Party and declaring:"

"The purpose of the promoters of the new organizations are simply to create a rising agitation of personal political objects and financial projects, etc. The effect of this letter is to induce workers into the belief that their vote is not to be cast for the party, but in casting their votes in November they may occur representative for the part of the union.

"This third enclosure," according to the "hearst" paper, was supposed to have been enclosed in all 15,000 letters forwarded by the Union in its membership in New York state, and the entire paper was on the rosary of a "playoff" caused by a "hearth scribble," the entire editorial staff being put in the field to find out how many of the group of union members this alleged third enclosure.

A diligent search failed to discover that a single member of the ILGWU in Greater New York had received or seen this Hearst anonymous "document." When engine, it is a vast thing to be true out of the whole crew, even those in the union, any publication or branch activity of any sort interested in the ILGWU. Our best information is that some time ago it was associated with the New York post-discouragement and special assignment work for the Hearst family. It later toured France and other parts of the country, and it is also known that he has received the attention of police authorities in this country on more than one occasion.

It was this reliable fellow who was supposed to have performed the miraculous job of inserting the letter in the envelopes of the entire mailing list at the ILGWU headquarters, and one information that the Republican National Committee has made public is that the Hearst paper has been made to believe that any but the "hearst" papers used this slightly altered speech.

ILGWU Representative In Southwest

Our unions everywhere are busy with the campaign.

In St. Louis, Kansas City, Dallas, Houston, the Twin Cities, Alton, and wherever union ladies' garment shops are located our people are full of enthusiasm, working with other labor unions, agitating for the re-election of President Roosevelt.

In St. Louis the Central Labor Union organized a Non-Partisan League. The committee is under the able leadership of T. F. Quinn, business agent of the Illinois Flitter, one of the outstanding, intelligent union men of that city; Joseph Clark, chairman of the Central Labor Union; Wm. M. Wood, secretary of the Central Labor Union, and Mrs. Mary Tyler.

Similarly, the ILGWU, as well as the Amalgamated Clothing Workers, is conspicuously active in the movement.

In Houston, Texas, a group of union members last Friday attended a rally dinner given in honor of President Roosevelt. Each shop had its own group and although the majority at the dinner were women of every walk of life, the trade unionists were very conspicuous, and particularly the garment workers, members of our National Union. They had the largest group of any organization at the dinner tables. Everybody in Houston knows our people, for they are a part of the cause of Roosevelt, a true humanitarian in the White House.

The Common People For F. D. R.

While on furlough and in traveling, I have heard a lot during the last few months. Everywhere one sees the trade that the organized workers, and most conspicuously among them the garment workers and the miners, are working unceasingly, agitating, explaining the true idea of division between the laboring people, the men and women of average income, and the rich men, the large employers.

It is the labor people, the men of average means, the poor, the uncouth and liberals of the country that will re-elect Roosevelt. The large employers, the rich, will vote against him.

Brother Jack Grossman, manager of the ILGWU Long Island, is actively engaged in promoting the campaign in his territory. The workers of the Mayflower, Downey and Amelia Drew shops of Hicksville, Nassau County, met in the Christmas Hall to complete arrangements for campaign activities. Post watchers were appointed and arrangements for coins were made.

A similar meeting was held on October 6 in Columbia Hall, Huntington, Suffolk County, and the same arrangements were made with the 10 people from the Silver Fox shop.

At Corona, Queens, two meetings were held with the workers from the Frank, Eagle, Rider and Amber shops in Corona. At the Queen Michael Hall, over 500 people placed their votes to Roosevelt and to an active campaign on the behalf of Roosevelt. Grossman has assigned Charles Cline to the Staten Island office of the American Labor Party, where he is in cooperation with Mr. John, local chairman of the American Labor Party. A meeting of 200 people was held Wednesday afternoon, October 21, at Barrister Hall. Among those addressing the meeting were B. Mann, Italian branch chairman of the ILGWU, and Sister Margaret DeLima.

The Time to Act Has Come

Your Union has for the past several months advocated the re-election of President Franklin D. Roosevelt. In New York State it has come out just as strongly for the re-election of Governor Herbert H. Lehman.

In every State where we have organizations, we have urged our locals and joint boards to affiliate and to work with the Labor's Non-Partisan League for the Re-election of Roosevelt. In New York State, we have helped to form the American Labor Party and are taking a big part in the remarkable campaign which this Party is conducting to make New York safe for Roosevelt and Lehman.

This political activity on the part of our International is a voluntary, genuine expression of the will of the mass of our membership. We cannot recall a movement in our ranks which was more spontaneous, more heartily welcomed, more uniform in every part and section of the organization, than this mighty upsurge on the part of the membership to work for the re-election of President Roosevelt.

We support, together with all of organized labor of America, President Roosevelt because we recognize in him a true champion of the people. We support Roosevelt and in New York State also Governor Lehman, because they have turned the Government away from the tragedy of Hooverism and charted out a course for national recovery.

Shall we proceed along the road of returning prosperity based on social and labor legislation and bigger purchasing power for the workers? Shall we throw our support to those who have a decent regard for the rights of the common people?

Or shall we be forced back to the dark days of the sweatshop, of breadlines, of soup kitchens, hunger marches and hopeless unemployment with the Government displaying a tender interest only in vested monopoly, organized greed and frenzied finance?

To these stirring questions we, members of the ILGWU, have but one answer: We must mobilize our strength, as voters, this year, with the same earnestness, the same loyalty, the same devotion that we apply in our daily struggle for better economic conditions as trade unionists, to the common fight of freedom as against reaction, for economic democracy as against exploitation and oppression, for the security and happiness of the broad masses of the population as against organized greed and special privilege.

Members of the ILGWU! Let us march to the polls on Tuesday, November 3, in solid ranks to vote for Roosevelt, and if you live in New York, for Roosevelt and Lehman under the emblem of the American Labor Party. Let us remember that all who work for a living need a permanent political party formed by organized labor allied with progressive and liberal elements to insure an unbroken advance toward better living.

Let us prevent the despairers of our national life, the sharks of industry and finance, from regaining their stronghold on the Federal and State administrations!

VOTE FOR FRANKLIN D. ROOSEVELT FOR PRESIDENT!
MAKE SURE THAT EVERY MEMBER OF YOUR FAMILY DOES LIKewise.

LET US CHECK REACTION BEFORE IT GETS A CHANCE TO WRECK OUR HOPES FOR A BETTER AND HAPPIER LIFE!

VOTE FOR ROOSEVELT, PROGRESS AND CONTINUED RECOVERY!
