Changing American Households

C-SPAN
Nov. 4, 2011

Definitions

- **Household** - all the people living in a housing unit.
- **Householder** - a person age 15 and over whose name is on the lease or mortgage.
- **Single-person household** - a household that contains only one person.
- **Family** - a household that contains at least one additional person who is related to the householder by birth, marriage or adoption.

How American Households are Changing

- Marital Patterns have driven changes in American Households.
- Since 2007, there has been an increase in the number of households with an additional adult living in them.
- There has been an increase in the percentage of multi-earner households in the past 10 years.
