AGREEMENT

Between

**LOCAL UNION No. 435
LABORERS INTERNATIONAL UNION
OF NORTH AMERICA**

and

**CONSTRUCTION INDUSTRY ASSOCIATION
OF ROCHESTER, N.Y., INC.
AND CERTAIN INDEPENDENT CONTRACTORS**

AGREEMENT made this 27th day of August, 2000, to be effective May 1, 2001 and to expire April 30, 2006, 11:59 pm, by and between the Construction Industry Association of Rochester, N.Y., Inc., and certain independent employers and Local No. 435 ("Union") of the Laborers International Union of North America, affiliated with the American Federation of Labor-Congress of Industrial Organizations, for the general construction of all site preparations and clearance of right of ways and all buildings.

For the purposes of this Agreement the terms Association, Employer and Contractor shall be interchangeable. Local No. 435 shall be referred to as the Union and shall be the sole bargaining representative of all laborers employed by the Employer.

The parties agree to work together to create a "World Class Quality" attitude and program.

This Agreement covers all work on the building proper including all work related to the actual construction of the building and all site work in connection with a building project, which may include site preparation and grading, underground work, paving, etc.

The Employer agrees to recognize the jurisdictional claims of the Laborers International Union as listed hereinafter.

Notwithstanding these claims the Employer's obligation in making work assignments shall be in accordance with the following procedure:

(a) Where an agreement of record between the disputing trades applies to the disputed work, the Contractor shall assign the work in accordance with such agreement of record.

(b) Where no agreement under (a) applies, the Contractor shall assign the disputed work in accordance with the prevailing area practice.

(c) If a dispute has arisen prior to the specific assignment of work where no agreement of record under (a) applies, or where there is no predominant practice in the area, the Contractor shall nonetheless make a specific assignment according to his best judgment after consulting with the representatives of the contesting trades and considering any arguments or facts the trades may wish to present regarding applicable agreements of record or area practice.

(d) If a jurisdictional dispute arises, the Union agrees that such dispute shall first be submitted to the local Business Agents of the crafts involved for settlement, and if no understanding or agreement is reached within forty-eight (48) hours, the dispute will be referred to the International Unions involved for settlement. If no agreement is reached on this level within five (5) days, the parties to the dispute may extend the period for settlement to another fixed date, mutually agreed upon. Pending such settlement, the craft performing the work at the time the dispute arises will continue in such capacity until settlement is reached as above provided, it being further agreed that there shall be no stoppage of work in regard to any jurisdictional

dispute. Existing International Jurisdictional Agreements and future International Jurisdictional Agreements shall be respected by both parties.

ARTICLE I
RIGHTS AND OBLIGATIONS
OF LABORERS

1. The employee shall perform a fair and honest day's work.

2. When the Union feels that an employee has been discharged unjustly, it may petition the Joint Bargaining Committee for redress.

3. Employees injured at work shall be paid for the time spent going to the doctor's office for treatment at the time of injury. If the doctor certifies in writing that the employee is unable to work that day, the injured employee shall be paid for the balance of that working day.

(a) The injured employee shall be allowed two (2) hours' time for additional visits to the doctor for injuries sustained while in the Employer's service without loss of pay. It shall be understood however, that such visits during working hours shall be made only when no other arrangements can be made and an affidavit is received from the doctor stating the necessity for each visit.

(b) *The injured employee shall, if at all possible, be given preference to any light work that may be performed on the job provided however, that he is still in the employ of the Employer where the injury occurred.*

4. No member of Local No. 435 will be allowed to work for any Contractor (general or sub-contractor) who cannot show proof of unemployment insurance and disability benefits insurance and workers' compensation coverage as required by the State of New York.

5. Laborers who are employed by contributing Employers to the Administration and Safety Program for

eight hundred (800) hours or more within twelve (12) months immediately preceding service as jurors shall, upon proof of such service, be entitled to be paid by the Association for each day of such service. The rate of pay shall be established by the Association under its Jury Duty program, but shall be not less than \$45.00 per day during the term of this Agreement.

6. All laborers are to be allowed a mid-morning coffee break of ten (10) minutes duration. Employees are not to congregate, but are to remain at or near their places of work. If the Employer believes that this privilege is being abused, it shall notify the Union and the Union shall be given twenty-four (24) hours in which to correct the abuse. If, after giving the Union this opportunity, the Employer believes the abuse to be continuing, it may withdraw the privilege of the coffee break. Should the privilege be withdrawn as provided herein, the Union may refer the matter to the Joint Bargaining Committee, whose decision shall be final.

7. It shall be the duty of the Union to foster harmony on the job to insure compliance with the provisions this Agreement by its members and to provide able and efficient employees when and if requested by management to do so and when the same is not in violation of the National Labor Relations Act of 1947, as amended.

8. The authorized representatives of the Union shall be allowed to visit jobs during working hours to interview the employees and to enforce the provisions of this Agreement without unreasonably interfering with or hindering the progress of the work.

9. The Business Manager of the Union may inspect the payroll records when there is any doubt about employees receiving the proper pay for the work performed.

ARTICLE II

RIGHTS AND OBLIGATIONS OF THE EMPLOYER

1. There shall be no restriction on the use of machinery, tools, appliances or standard equipment for the use required.

2. There shall be no restrictions on the use of any raw or manufactured materials, except prison made.

3. (a) The Employer shall furnish all necessary standard tools that laborers are required to use. Laborers shall not be required to work in the rain or water without proper gear.

Where conditions require their use, laborers shall be issued slipover boots and a full set of rain gear. On the first pay day for a full week's work the value of the articles issued may be deducted from the pay of each laborer. Upon termination of employment for any reason, laborers will return the articles issued in reasonable condition and will be refunded the amounts deducted from their pay. The articles issued will be replaced by the Contractor when they are no longer in serviceable condition. Condition is to be determined by the Laborer Steward and the Contractor or his representative. Laborers will be allowed sufficient time to preserve the ownership of the articles issued.

Laborers must have rain gear which has been issued to them on the job when needed. Rain gear shall not be worn except under rainy or threatening weather conditions or during water operations.

(b) Where special gloves are required, such as in handling chemicals injurious to the skin, they shall be furnished by the Contractor for the duration of such work.

(c) The Employer shall furnish disinfectant material for re-issued gear when requested.

4. The Employer shall be responsible for maintaining safety conditions on the jobs and no laborer shall be required to work against his will under conditions which are hazardous or injurious to his health.

5. No person shall have the right to interfere with employees during working hours except as hereinafter provided.

6. The Employer shall provide warm, suitable shelter of sufficient size where all laborers may eat their lunch and hang their clothing. The Employer shall also assume responsibility in case of loss by fire. No tools, building equipment or combustible material shall be stored therein.

7. When the employment of a laborer is terminated for any reason, the Employer shall give a separation slip within twenty-four (24) hours containing the Employer's registration number and stating the reason for termination.

8. It is agreed that if the Employer subcontracts job site work falling within the terms of this Agreement, provision will be made in each subcontract for the compliance by said subcontractor with terms, conditions of employment, wages, S.U.B., welfare, pension, annuity and training contributions not less than those contained in this Agreement.

A subcontractor is defined as any person, firms, partnership, self-employed person or corporation who agrees, under contract, oral or written, with the general contractor or his subcontractor to perform on the job site any part or portion of the work covered by this Agreement.

With respect to subcontractors who are not members of the Association or who have not signed the

Agreement as an individual Employer, the following rules shall apply:

(a) Such subcontractors shall be required to remit fringe benefit payments on a weekly basis.

(b) On the first failure of such subcontractor to remit fringe benefits or first instance on which the subcontractor is delinquent, the Union shall notify the Prime Contractor of the said failure to remit or delinquency.

(c) After having been notified of a failure to remit or of a delinquency, the Prime Contractor shall be responsible for each such fringe benefit payment pursuant to Sub Article (d) below.

(d) After notification by the Union, the Employer is responsible for checking with the Funds' office to determine whether the regular payments are being made. However, once any non-payment has been rectified and the subcontractor resumes payments as required under (a), the Prime Contractor is relieved of any responsibility to check with the Funds' office until notification is again received in writing by the Union of further alleged delinquency.

(e) The Prime Contractor's responsibility is limited to fringe benefits applicable to its project on which the defaulting subcontractor is employed.

(f) The Prime Contractor does not assume the above responsibility with respect to subcontractors who are members of the Association, or who are individual signatories to the labor Agreement.

9. In the event of an accident on the job where an employee loses, breaks or damages his eyeglasses, they shall be repaired or replaced by the Contractor if the accident is reported immediately.

10. The management of the job and the direction of the working force, including but not limited to the right to hire, layoff or discharge for just cause, and the right

to relieve employees from duty because of lack of work is vested exclusively in the Employer, his superintendent or designated Foreman.

11. The signators strongly encourage each other to set and hold regular (at least monthly?) discussions to find solutions to the problem of how to get more work for signatory contractors. Agenda should include upcoming projects, owner relations and marketing, employee training, safety and health, cost avoidance and other items of mutual interest.

ARTICLE III

THE LABORER STEWARD

1. The Business Manager shall appoint all Laborer Stewards.

2. The Laborer Steward shall be allowed sufficient time and shall not be discriminated against because of his activities on behalf of the Union. The Laborer Steward shall be a working Laborer Steward and shall perform the duties of a laborer on the job on which he is employed.

3. (a) After a Laborer Steward has been appointed, he shall also be employed on all overtime work where laborer's work is being performed by the general contractor provided however the Laborer Steward shall not replace any laborer who has been on any operation for the entire day or in the past has been assigned to a special operation.

(b) Whenever any overtime work is performed by a subcontractor to the general contractor which requires the employment of more than one laborer, the Laborer Steward shall be employed by the such subcontractor on the overtime work.

4. The Laborer Steward shall restrict his Union activities to the work of the laborers' jurisdiction being performed by his Employer and the subcontractors of his employer on the job on which he is Laborer Steward.

5. When the Employer is dissatisfied with the conduct of the Laborer Steward he shall notify the Business Manager of his dissatisfaction and it shall be the duty of the Business Manager to take corrective action and report the same to the Employer within a reasonable time.

6. The Laborer Steward shall be notified, as soon as possible, whenever hiring or layoff is decided upon.

7. (a) In matters relating to trade jurisdiction, the Laborer Steward's responsibility is as follows:

(1) to report the matter to the superintendent or his representative, who shall try immediately to resolve the matter with the stewards of the involved trades;

(2) if the Laborer Steward is not satisfied with the disposition of the matter by the superintendent or his representative, he shall report the matter to the Business Manager or Business Agent by telephone, if possible.

(b) By the above it is intended that a Laborer Steward is not to make decisions himself regarding work stoppages, slowdowns or jurisdictional disputes. Jurisdictional disputes shall be promptly referred to the Business Manager or Business Agent except for the provision for resolving a jurisdictional dispute in (a) (1) above.

ARTICLE IV

THE LABORER FOREMAN

1. (a) When eight (8) or more laborers are employed by a Contractor on a project a Laborer Fore-

man will be employed and shall be the agent of the Employer and selected by the Employer.

(b) A General Laborer Foreman will be employed when a Contractor employs more than two (2) Laborer Foremen on a project.

All orders to Laborer Foremen shall be transmitted by the General Laborer Foreman when a General Laborer Foreman is employed.

(c) A Laborer Foreman must qualify under Article V Section 4 of this Agreement, unless the Laborer Foreman is referred by the Local No. 435.

(d) The Laborer Foremen's duties are primarily to supervise laborers.

ARTICLE V

SUPPLY OF LABORERS

1. The Employer shall notify the Union Office whenever he needs additional laborers. The Employer may call back former employees.

2. A laborer who is not a member of the Union at the time this Agreement becomes effective shall become a member of the Union on the eighth (8th) day following his employment with any member of the Association herein, or any other Employer or on the eighth (8th) day following the effective date of this Agreement whichever is later, and shall remain a member of the Union to the extent of paying initiation fees and the membership dues uniformly required as a condition of employment whenever employed under and for the duration of this Agreement.

3. Failure of any employee covered by this Agreement to meet the requirements described in Paragraph 2, above, will result in his discharge by the Employer. The Union agrees that membership will be

available to any employee on the same terms and conditions applicable to all other members.

4. The Employer agrees that in providing opportunity for employment it shall give priority to persons who have had one year or more of service since January 1, 1969 in the building and construction industry in the type of work covered by this Agreement and in the geographic area defined in the preamble of this Agreement.

When layoffs or cutbacks in employment are necessary, those persons not entitled to the above priority shall be released first.

The Employer and the Union agree that the foregoing priority shall be exercised without regard to Union membership or non-membership.

5. Any and all persons referred or employed under this Agreement are understood to be hired with the specific understanding that their employment is and continues to be temporary. As such, all work under this Agreement is on a temporary project under-taking for purposes of Section 4 (1) of the Workers Adjustment and Retraining Notification Act.

ARTICLE VI

SHOWUP TIME

1. Laborers reporting for work at the regular designated starting time shall, if not put to work, receive two (2) hours' pay, unless unable to work due to weather conditions.

2. Laborers ordered by the Employer or his representative from the Union Hall, shall, if not put to work receive two (2) hours' pay, unless unable to work due to weather conditions, and at least four (4) hours' pay if put to work. Laborers ordered from the Union Hall
