THIS AGREEMENT Made and entered into this 1st day of June, 1999 by and between the **WISCONSIN TRANSPORTATION EMPLOYERS COUNCIL** (hereinafter called the Employers or Contractors) as party of the first part, and the Wisconsin Laborers' District Council (hereinafter called the Union) as party of the second part.

WITNESSETH

That the parties hereto, for and in consideration of the mutual promises and obligations herein contained, agreed to and with each other as follows:

ARTICLE I

Recognition, Assignment, Scope, Coverage, Entirety and Definitions of Agreement

Recognition

The Employer and the Contractor hereby recognize the union as the sole and exclusive bargaining unit. The bargaining unit shall consist of all Laborers as now or hereafter classified in **ARTICLE IV** (Jurisdiction and Classification) performing work within the scope and coverage of this agreement.

Assignment

The Contractor hereby assigns all work to be performed in the categories described in **ARTICLE IV** (Jurisdiction and Classification) and incidental thereto to employees in the bargaining unit covered by this agreement.

Scope

This agreement shall apply throughout the State of Wisconsin.

Coverage

This agreement shall cover all highway and heavy con-

struction work included in contracts awarded by the State of Wisconsin Department of Transportation, all work performed for any authority supervised by said Department of Transportation, airport work (exclusive of buildings.)

Entirety of Agreement

This agreement represents the entire written contract between the parties and supercedes any previous agreements, supplements, riders or addenda whether written or verbal. Neither the Union, the Contractor, nor the Employer, shall have the right to add to, subtract from or change the terms of the agreement without the mutual written consent of all parties hereto.

It is agreed that this agreement will be submitted to the (D.W.D.) Department of Workforce Development with the request that the rates and fringe benefits as set forth herein be determined as the prevailing wage rates in accordance with subsection 103.50 of the Wisconsin Statutes for each of the years covered by this agreement.

Definitions

1. "Airport Construction" work is defined as including site preparation, grading, paving, drainage, fences, sidewalks, driveways, parking areas and similar work incidental to the construction of airfields but shall not include the construction of buildings, sewers, tunnels, water mains or any other utilities.
2. "Employees" shall include only those persons employed by the Contractor coming within the jurisdiction of Laborers' International Union of North America and specifically set forth in ARTICLE IV (Jurisdiction and Classification and incidental thereto).
3. The "Contractor" where used in this agreement means any Contractor, subcontractor who is a member of the **WISCONSIN TRANSPORTATION EMPLOYERS COUNCIL** who is engaged in highway construction work anywhere in the State of Wisconsin which comes under the jurisdiction of the Unions. The word "Contractor" also means any signatory independent

contractor not a member of the Association or Council.

ARTICLE II

Union Security/Recognition Clause

- I. All present employees of the Contractor covered by this agreement who are members of the union as of the date of execution of this agreement shall, as a condition of continued employment with said Contractor, maintain membership during the life of this agreement to the extent of tendering the periodic dues and initiation fees uniformly required by the Union, as a condition of acquiring or maintaining membership. All present employees of the Contractor covered by this agreement who are not members of the Union and all employees of the Contractor covered by this agreement shall become members of the Union within eight (8) days following the date of this agreement, or within eight (8) days following the commencement of such employment, whichever is later, and shall, as a condition of continued employment with said Contractor, maintain membership during the life of this agreement to the extent of tendering the periodic dues and initiation fees uniformly required by the Union as a condition of acquiring or maintaining membership; provided however, that such membership in the Union is available to such employees on the same terms and conditions generally applicable to other members and that such membership is not denied or terminated for reasons other than a failure by the affected employees to tender their periodic dues and initiation fees uniformly required as a condition of acquiring or retaining membership.**

When a Business Manager or Field Representative of a local union comes in contact with a laborer who has not yet joined the Union, he/she may sign that employee to the necessary paper work to become a union member. This is to be allowed at any point of employment but the papers will be held until the eighth day of employment and then processed.

2. Upon written notice from the Union advising that an employee covered by this agreement has failed to maintain membership in the Union in good standing as covered above, by payment of uniform initiation fees and/or dues as required, the Contractor shall forthwith discharge the employee unless the Contractor has reasonable grounds for believing that membership was not available to the employee on the same terms and conditions generally applicable to other members, or that membership was denied or terminated for reasons other than for failure of the employee to tender the periodic dues and initiation fees uniformly required by the Union as a condition of acquiring or maintaining membership.
3. The contractor shall not discharge or cause an employee to lose any work for failure to maintain membership in good standing under this Article, except upon written notice from the Business Representative of the Union as set forth herein.
4. All employees upon hiring shall be notified of the membership provision of the Union Security clause.
5. The Employer acknowledges that the Union has submitted proof in the form of signed authorization cards that the Union represents a majority of the Employer's employees in the job classifications included in the appropriate bargaining unit covered by the Heavy and Highway Construction Agreement between the Laborers' District Council and Wisconsin Transportation Employers' Council.

Based on such showing, the Employer therefore voluntarily agrees to recognize and hereby does recognize, the Union as the exclusive collective bargaining agent for all such employees within such bargaining unit as provided in Section 9(a) of the National Labor Relations Act. The Employer waives any right it may have to an NLRB election to confirm the majority status of the Union.

Substance Abuse Testing and Assistance Policy

This substance abuse testing and assistance policy ("Policy") has been adopted and implemented pursuant to the negotiations between the Wisconsin Transportation Employers Council ("WTEC") and the Wisconsin Laborers' District Council ("Union") as part of the June 1, 1999 Wisconsin Heavy and Highway Construction Agreement ("Agreement"). The term "Contractor" or "Company" or "Employer" when used herein refers to the construction industry contractors who are signatory to this Agreement. The term "Employee" when used herein refers to the construction industry employees who are members of the Union, while covered by this Agreement. The term "work-site" or "premises" includes all property, equipment and vehicles under the control of the Company. Should any dispute arise with respect to the application or implementation of this Policy, such disputes shall be filed in accordance with the grievance and arbitration provisions contained within the Agreement.

I. PURPOSES

- A. To establish and maintain a safe, healthy working environment for all employees;
- B. To ensure the reputation of the Contractors, their products and services, and their Employees within the community and industry at large;
- C. To reduce substance abuse-related accidental injuries to persons and property;
- D. To reduce substance abuse-related absenteeism and tardiness, and to improve productivity;
- E. To provide rehabilitation assistance for qualified and eligible Employees who seek help;
- F. To protect liability because of injuries or accidents caused by individuals using alcohol or drugs at work;
- G. To deter individuals from bringing, possessing or using alcohol or drugs in connection with work;
- H. To clearly state the commitment of the Contractors and

the Union to a workplace free from the effects of illegal drug use; and

- I. To comply with any law or regulation requiring the implementation of alcohol or drug programs.

II. POLICY

A. General Provisions

1. The Contractor prohibits the use, possession, concealment, transportation, promotion, distribution or sale on its premises or worksites of alcohol and illicit drugs. Employees must not report to work, or be on work premises at any time, while impaired by alcohol or any drug (including prescription and non-prescription drugs, as well as designer and look-alike drugs).
2. Legally prescribed drugs may be permitted on Company premises or worksites provided the drugs are contained in the original prescription container and are prescribed by a licensed physician for the current use of the person in possession of the drug.
3. Because some prescription and over-the-counter drugs can impair a worker's ability to perform safely, all Employees are required to report to an authorized agent of the Company, the use of any prescription and over-the-counter drugs which can adversely affect work performance, or behavior, or both. Employees should request such information from their prescribing physician. Failure to provide such information to the authorized agent of the Company may be grounds for disciplinary action. The disclosure of the use of any physician prescribed, or over-the-counter, drugs which can adversely affect work behavior, job performance, or both, shall be kept confidential. In the event an Employee is found in possession of a drug which has not been reported to the authorized agent of the Company, the Contractor retains the right to request a letter from the Employee's physician explaining any effects the drug

may have on the ability of the Employee to perform assigned duties. Such letter shall be provided only to an authorized agent of the Company and shall be kept confidential in accordance with the terms of this Policy.

4. The Contractor reserves the right to conduct any alcohol or drug testing mandated by law, and to incorporate any changes to the law into the terms of this Policy without further need for redrafting. In such case, the Company reserves the right to apply the amended government regulations immediately, and shall notify the Employees and the Union of any changes to this Policy, as required by law.
5. At the discretion of the Contractor any persons found in possession, offering for sale, purchasing or distributing any illegal drug will be reported to the civil authorities.
6. Employees working on a federally funded project are required by law to report any conviction of a violation relating to a criminal drug statute occurring in the workplace to their superior within five days of such conviction.
7. Where an owner or contracting agent requires alcohol or drug testing of Contractor Employees other than is provided for in this policy, the Contractor may implement the required program for the project. In the event that a Contractor becomes obligated to comply with such a program, the Contractor shall notify the Employees and the Union of this requirement.
8. Prior to being tested, an applicant or Employee must sign a consent and release form authorizing and agreeing to the test. The consent and release forms are attached to this Policy as Exhibit A and Exhibit B.
9. The parties recognize that drug testing may reveal information of a highly personal private nature unrelated to the employment of the Employee or any other legitimate concern of outside parties.

Therefore, to protect the Employee's rights, any test results shall be disclosed only to the Employee, the authorized agent of the Contractor, or upon written authorization from the Employee, the authorized agent of the Union. Confirmed test results shall be reported as either "negative" or "positive" quantitative levels will not be disclosed unless otherwise required by law.

B. Pre-Hire Screening

1. A Pre-employment drug test may be administered to all applicants for employment. Prior to taking a pre-employment drug test, the applicant will given instructions which will include an explanation of the collection procedures for each test and the consequences of a verified positive test result. Applicants for employment who test positive for drug use, will not be considered for employment for a period of 3 months.
2. All offers by the Company to hire an Employee are conditioned upon the applicant:
 - a. executing the Company's consent and release to be tested for drugs and alcohol forms;
 - b. taking and passing a drug test as directed by the Company;
 - c. complying with all DOT Requirements applicable to the position;
 - d. complying with any other conditions or requirements of which the Company advises the applicant at the time of the offer.
3. Applicants will only be notified of the results of their tests if they present a written request to the Company for their results within 60 days of being notified by the Company of its hiring decision.

C. Post-Hire Screening

1. Reasonable suspicion testing may be conducted on any Employee who reports to work and whose supervisor has reasonable suspicion to believe that

the Employee is under the influence of alcohol or any drug. Reasonable suspicion is a belief based on direct observations of the appearance or behavior of an Employee, or other evidence, sufficient to lead a prudent or reasonable person that an Employee is under the influence and exhibits such traits as slurred speech, inappropriate behavior, decreased motor skills, etc. Such observations must be personally observed and documented by at least one Company official who has received training covering the physical, behavioral, speech, and performance indicators of probable drug or alcohol use. Whenever practical, the Employee should be observed by more than one individual.

2. Post-accident testing may be conducted where an Employee caused, or whose actions can not be discounted as having been a factor in causing, a work related accident; or where an Employee was operating or helping to operate machinery, equipment or vehicles involved in a work-related accident which resulted in: a fatality, an injury required medical treatment, or property damage. The Employee may be suspended without pay pending results of such testing.
3. Where required by law, or agreed to by the Union, the Contractor shall have the right to establish a Company program for conducting random testing of their Employees for drugs and alcohol based on neutral selection criteria, without this decision affecting any other Contractor. The terms and conditions of any such program shall be agreed upon by the Union and the Contractor prior to implementation, and will be provided to the existing Employees at least 30 days before the initial implementation of the program. New hires will be informed of the program upon application.
4. Drug tests conducted under the terms of this Agreement require Employees to provide a speci-

men of their urine. All drug testing shall be conducted by qualified persons, in the same manner as the testing procedures set forth in 49 CFR, Part 40, including the use of a Medical Review Officer ("MRO") to verify all confirmed positive drug tests. In addition to alcohol, the substances that will be tested for are:

- Marijuana
- Cocaine
- Opiates
- Phencyclidine (PCP)
- Amphetamines

Limits for each of the above listed substances will be at the "Cutoff Levels" estimated by the Department of Health and Human Services ("DHHS"), that are in effect on the date of the test.

5. Specimens will also be analyzed for such other substances as the DOT may from time-to-time direct, or as may otherwise be required by federal or state law. In the event that the DOT expands the list of drugs for which testing is or may be required, the Company reserves the right to begin testing immediately for those drugs, and shall notify the Employees and the Union of any changes to this Policy.
6. All drug tests will be administered using the split sample methodology set forth in 49 CFR, Part 40. In the event the primary specimen is verified as positive, the Employee will be notified by the Company's MRO of the positive test and informed of, and given the opinion to have the second bottle sent to a different laboratory certified by the National Institute on Drug Abuse ("NIDA") for analysis. To exercise this option, Employees must advise the Company's MRO of their desire to have the second sample tested, within 72 hours of being told that the primary specimen was positive.
7. Testing for alcohol content will be done by a Screening Test Technician ("STT") or Breath

Alcohol Technician ("BAT") using a saliva swab or evidential Breath Testing ("EBT") device. A positive test result for alcohol will be reflected by a blood-alcohol concentration ("BAC") equal to or greater than 0.02.

8. In the event a test result is negative, the Employee shall be immediately reinstated and paid any wages and benefits that would have been paid had the Employee's work hours not been interrupted by the test. This is considered full reinstatement.
9. In the event of a confirmed positive BAC test of between 0.02 and 0.039, the tested Employee will be suspended without pay until the next regularly scheduled work shift, but for no less than 24 hours.
10. In the event of a verified, confirmed positive test for drugs or a confirmed positive BAC test of 0.04 or greater, the tested Employee will be suspended without pay and referred to a substance abuse professional ("SAP"). Strict adherence to the treatment program requirements specified by the SAP will, for a first violation, be considered grounds to avoid severe discipline or termination, provided the Employee was not found to be responsible for, or a contributing factor in, an accident involving an injury, or damage to property; nor was involved in the theft of, or damage to, property of the Contractor or the Contractor's customer.
11. If an Employee who tested positive for substance abuse enters and completes any required or recommended aftercare program, they will be eligible for reinstatement provided the employer has work available, and the Employee has entered and successfully participates in any aftercare program recommended under the terms of this Policy.
12. All individual employee test results will be considered confidential, with the results of all individual drug and alcohol tests kept in a secure location with controlled access. The release of an employee's

test results will only be granted in accordance with that person's written authorization; or as otherwise required by law.

III. COUNSELING AND REHABILITATION

- A. The WTEC and the Union shall develop and maintain a list of appropriate alcohol and other drug abuse treatment centers, counseling centers, and medical assistance centers.
- B. If the Employee is qualified and eligible, a portion of the expenses the Employer incurs in consultations and treatment required under this Policy, shall be borne by the applicable fringe benefit fund referred to in the Agreement pursuant to and to the extent provided in *schedules, terms and requirements as the trustees of said fund shall prepare and have available*. Employee's activities, or conduct engaged in, pursuant to this Policy.

- C. A contact list of agencies and individuals that an Employee may contact with questions regarding this Policy is attached as Exhibit C.
- D. The Contractor will bear the costs of all testing procedures except that the Employee will pay the cost of any test requested by the Employee and any follow-up testing required as part of: any rehabilitation program, law, or by any owner or contracting agent's substance abuse program.

V. CONCLUSION
