Wages, Benefits and Overtime Compensation: General Compliance Wages, Benefits and **Overtime Compensation**

WBOT.1 Growers shall comply with all local laws, regulations and procedures concerning the payment of wages and benefits, including overtime compensation. In any case where laws and the FLA Workplace Code of Conduct are contradictory, the standard providing the greatest protection for workers shall apply. Where provisions are lacking, growers shall take measures to reasonably accommodate matters concerning payments of wages and benefits, including overtime compensation.

Noncompliance

Explanation: Wages paid for certain operations are below legal minimum wages. Minimum daily wage prescribed for agricultural labor as per the local law varies between Rs 100-120. E.g., operations like transplantation, weeding, cross pollination and harvesting, which are carried out mostly by women, earn workers Rs 60-100, which is less than legal minimum wage.

Sources: worker and grower interviews

Legal Reference: The Minimum Wages Act 1948

Plan Of Action:

Syngenta is consistently trying to convince growers to pay as per local law. In internal monitoring, we have noticed there is a greater degree of improvement in daily wage rates. Wages are certainly improved over past years. In some villages, wage rates are crossed, as are the minimum wage limits.

- 1. Bringing more awareness in this area.
- 2. Close monitoring of wages.
- 3. Involving local government and stakeholders in addressing this issue.

Wages, Benefits and Overtime Compensation: Minimum Wage

WBOT.2 Growers shall pay workers the legal minimum wage or the prevailing regional wage, whichever is higher.

Noncompliance

Explanation: Wages paid for certain operations are below legal minimum wages. Minimum daily wage prescribed for agricultural labor as per the local law varies between Rs 100-120. E.g., operations like transplantation, weeding, cross pollination and harvesting, which are carried out mostly by women, earn workers Rs 60-100, which is less than legal minimum wage.

Sources: farm visits; record review; worker and grower interviews

Legal Reference: The Minimum Wages Act 1948

Plan Of Action:

Syngenta is consistently trying to convince growers to pay as per local law. In internal monitoring, we have noticed there is a greater degree of improvement in daily wage rates. Wages are certainly improved over past years. In some villages, wage rates are crossed, as are the minimum wage limits.

Wages, Benefits and Overtime Compensation: Worker Wage Awareness

WBOT.6 Growers/Organizers/Company shall make an effort to educate workers so that terms of employment, wages, benefits and deductions shall be clearly understood and acceptable by workers.

Noncompliance

Explanation: Workers are not aware of their legally entitled wages and benefits. Grower or company

has not made attempts.

Sources: worker and grower interviews

Plan Of Action:

Syngenta is consistently trying to convince growers to pay as per local law. In internal monitoring, we have noticed there is a greater degree of improvement in daily wage rates. Wages are certainly improved over past years. In some villages, wage rates are crossed, as are the minimum wage limits.

Plan Complete	

Wages, Benefits and Overtime Compensation: Record Maintenance

WBOT.7 Company shall make efforts to educate and assist growers in maintaining records of wages provided to the worker in cash or in-kind or both; these records shall be acknowledged by the worker.

Noncompliance

Explanation: Most growers are not maintaining any wage records.

Sources: worker and grower interviews

Plan Of Action:

Though maintaining documents at farms is difficult, it is important. Company has designed and provided a simple, uniform documentation system (attendance register) for growers, which can help them maintain records of employment; wages and advances; hours of work, etc. Incentives can be a way to promote record maintenance. Awareness building needs to happen around record maintenance, as this can lead to growers' and workers' own good. We believe that documentation over the last few years has been improved.

Actions:

More awareness will be generated among growers to maintain documents like attendance registers; age verification documents of all the workers; contracts between the growers and annual workers, etc.

Wages, Benefits and Overtime Compensation: Payment for Overtime

WBOT.10 The additional payment for overtime (OT) hours will be prescribed by local law. In cases of countries where there is no law regarding OT, workers shall be paid a premium rate for these hours.

Noncompliance

Explanation: Most workers reported they are not paid any additional money for overtime work.

Workers are not awareness of their legal entitlements.

Sources: worker and grower interviews

Plan Of	<u>Actions</u>
---------	----------------

Action: Awareness about hours of work to be created among workers and growers. It is a fact

that currently, without being paid an additional amount for additional work, there are no workers who will work on the farm. However, some mechanism to record hours of

work will be created.

Deadline Date:			
Action			
Taken:			
Plan			
Complete:			
Plan			
Complete			
Date:			

Forced Labor: Employment Terms/Voluntary Agreement

F.3 Employment terms shall be those to which the worker has voluntarily agreed, in as far as those terms do not fall below provisions of local laws, freely negotiated and valid collective bargaining agreements, or the FLA Workplace Code of Conduct.

Noncompliance

Explanation: Prevailing market wage rates constitute the basis for the verbal agreement terms between the grower and seasonal workers who take advances against their wage payments. Though workers voluntarily enter these agreements, the prevailing wage rates for most agricultural operations in this region are below legal minimum wages.

Sources: record review; worker and grower interviews

Legal Reference: The Minimum Wages Act 1948

Plan Of Action:

In some cases, growers engage annual and seasonal workers to conduct farm operations smoothly. This type of engagement is always verbal and a verbal contract is made between growers and laborers. This requires attention, as we have planned a remediation plan.

- 1. We will educate growers on various aspects of law related with annual and seasonal labor contracts.
- 2. Syngenta would encourage growers to have written contract between growers and laborers, with clearly specified employment terms and conditions. Document should be maintained.

Freedom of Association: Other

Other

Noncompliance

Explanation: There is no formal grievance system in place for workers to raise their concerns.

Sources: worker and grower interviews

Legal Reference: The Minimum Wages Act 1948

Plan Of Action:

Syngenta to create awareness through training programs for all concerned stakeholders on noncompliance, develop a culture of transparent work environment and establish strong communication among the team.

- 1. Syngenta has started engaging opinion leaders, teachers and women at the village level to form a committee to serve as a channel for information dissemination and worker grievances. At least 50% of these Grievance Committee members will be women. Company will take appropriate steps to publicize this grievance channel among growers and workers. Contact information of village committee members, organizers and company supervisors will be made available to growers and workers. Village committee will contact company in case of grievances.
- 2. One day per month will be assigned to the company representative to deal with worker grievances at the field level. All grievances from the workers will be documented for analysis.
- 3. In the long term, an internal system within the monitoring program will be developed to award growers with zero grievances.
- 4. Supervisors will be equipped with visiting cards on which contact numbers of

	respective regional project manager (RPM) and project coordinator will be mentioned; workers will be educated to contact these numbers on noncompliances they observe. 5. Leaflets with information on emergency numbers will be distributed among workers.

Harassment or Abuse: Grievance Procedure

H&A.12 Company shall have in place grievance procedures that first allow an attempt to settle grievances directly between the worker and the grower; however, where this is inappropriate or has failed, it should be possible for the worker to have the grievance considered at one or more steps, depending on the grievance's nature and the enterprise's structure and size. Company shall ensure that workers know the grievance procedures and applicable rules.

Noncompliance

Explanation: No proper grievance policy and procedures are in place.

Sources: worker and grower interviews

Plan Of Action:

Syngenta to create awareness through training programs for all concerned stakeholders on noncompliance, develop a culture of transparent work environment and establish strong communication among the team.

- 1. Syngenta has started engaging opinion leaders, teachers and women at the village level to form a committee to serve as a channel for information dissemination and worker grievances. Child Labor:	Proof of Age Documentation
take precaution	where proof of age documentation is not readily available or is unreliable, growers will ons to ensure all workers are at least the minimum working age, including using medical, hool records or other means considered reliable in the local context.
	Noncompliance
Explanation:	None of the farms visited maintained any age proof verification documents for young workers.
	Sources: grower interviews, record review
Plan Of Action:	Actions: 1. Syngenta already has a wage verification process in place, but it needs to be strengthened in the next season. 2. Syngenta has planned to establish a village level committee for some key villages involving opinion leader, panchayat and school. This committee will help in identifying the age of the labor in the group.

Child Labor: Education of Young Workers

CL.8 The grower will ensure that children (all children, including those residing on the farm) will not have access to areas such as those of machine/electric operation, pesticide/fertilizer application, storage, or other areas where there are activities that could cause harm to children.

Noncompliance

Explanation: None of the young workers interviewed are attending school/college. The nature of the

work demands a minimum of 7-8 hours a day, making it difficult to attend both school

and work simultaneously.

Source: worker interviews

Plan Of <u>Actions</u>:

Action: Syngenta is collaborating with local schools. Team is finding difficulty, as there are no

special schools to admit aged children into higher classes. Though this is not for all cases, we are working on this direction and exploring involving local stakeholders, NGOs and CSOs for such cases. Village level committee consisting of opinion leaders, school and panchayat will be established in major villages to discuss and remediate this issue.

Deadline Date:	
Action Taken:	
Plan Complete:	
Plan Complete	

Date:

Child Labor: Removal and Rehabilitation of Child Laborers

CL.10 If a child laborer is found working on the farms, the grower and the company shall ensure that the child is immediately removed from the farm, rehabilitated and brought into the mainstream school system. The grower and company will make efforts to make this rehabilitation sustainable.

Noncompliance

Explanation: In the past when children were found on farms, they were removed from work.

However, there was no evidence to suggest they were all rehabilitated and brought into the mainstream school system. Lack of special schools for aged children who have never been to school is one of the reasons for the non-rehabilitation of all child

laborers.

Sources: grower and management interviews

D.1 All employment decisions shall be made solely on the basis of a person's qualifications, in terms of education, training, experience, demonstrated skills and/or abilities, as they relate to the inherent requirements of a particular job.

	Noncompliance
	Noncompliance
Explanation:	Local legal procedures and regulations concerning non-discrimination of workers in wage payments and work allocation are not followed.
	Sources: worker and grower interviews
	Legal References: The Equal Remuneration Act 1976, The Minimum Wages Act 1948
Plan Of Action:	Actions: Training programs would be conducted to create awareness of regulations and procedures regarding wage discrimination amongst men and women.
Deadline Date:	
Action Taken:	
Plan Complete:	
Plan Complete	

Non-Discrimination: Employment Decisions

D.2 There shall be no differences in remuneration between male and female workers for work of equal value. Remuneration (wages, compensation) includes the basic minimum or prevailing industry wage, along with any additional payments to be made directly or indirectly, whether in cash or in kind, by the grower to the worker arising out of the worker's employment. Such additional payments include wage differentials or increments based on seniority or marital status; cost of living allowances; housing or residential allowances; family allowances; benefits in-kind, such as the allotment and cleaning of work clothes or the provision of fire wood, spices, raw material for food, equipment; and other benefits.

Noncompliance

Explanation: Gender discrimination in wages and work allocation is widely prevalent in all visited

farms. Dividing labor along gender lines and paying male and female workers different

wages are common practices in this region and observed in all crops.

Sources: worker and grower interviews

Plan Of Actions:

Action: Both males and females will be provided equal wages for equal work. Syngenta will

create awareness in production regions on this and shall monitor this under internal monitoring. In some cases, where male laborers are engaged in some additional work other than pollination, which includes hard work like plowing, spraying, digging, etc.,

male laborers are paid higher than female laborers.

Deadline

Non-Discrimination: Sex-Based Wage Discrimination

Date:

D.3 Growers shall not discriminate on the basis of marital status. Growers shall not threaten female workers with dismissal or any other employment decision negatively affecting their employment status, in order to prevent them from becoming pregnant or getting married.

	Noncompliance
Explanation:	Gender discrimination in wages and work allocation is widely prevalent in all visited farms. Dividing labor along gender lines and paying male and female workers different wages are common practices in this region and observed in all crops.
	Sources: worker and grower interviews
	Legal References: The Equal Remuneration Act 1976, The Minimum Wages Act 1948
Plan Of Action:	Actions: Training programs would be conducted to create awareness of regulations and procedures regarding wage discrimination amongst men and women.
Deadline Date:	
Action Taken:	
Plan Complete:	
Plan Complete	

Code Awareness:

GEN. 2 Ensure that all company growers, as well as seed organizers, inform their workers about the workplace standards orally and through the posting of standards in a prominent place (in the local languages spoken by workers) and undertake other efforts to educate workers about the standards on a regular basis.

Noncompliance

Explanation: Growers have not informed workers about workplace standards.

Sources: farm visits; record review; grower, worker and management interviews

Plan Of Action:

Syngenta has undertaken eggplant production with some new growers and will insist growers train workers on code of conduct (COC). During COC training, Syngenta will also insist growers in inviting workers.

- 1. COC will be not posted at each farm, but rather, relevant messages posted or disseminated in village schools, temples, common meeting places, and offices of local administration body (panchayat), organizers and companies as prescribed by stakeholders.
- 2. Trainings will be customized for family labor farms. The grower, who is generally the head of the family, can be trained as an educator. Women members (mothers/elder women) of family will be involved in awareness programs. Communication strategy for each target audience within program: organizers, growers, family laborers and hired laborers will be developed.
- 3. Peer-to-peer awareness building model (worker-to-worker, grower-to-grower, supervisor-to- supervisor, women-to-women) and self-help groups will be established. A separate meeting will be held for women, keeping cultural sensitivities in mind.
- 4. Women community mobilizers are appointed, as there is a need to increase women mobilizers to work closely with growers' families and workers.

	0 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 - 1 -
Deadline Date:	
Action Taken:	
Plan Complete:	

Plan Complete Date:

Code Awareness: Other (Company Internal Grievance Policy and Procedures)

Other

Noncompliance

Explanation: There is some mechanism to address growers' grievances, but there is no means by which workers can report their grievances directly to the company. Company has a number mentioned on the attendance register; however, this is not properly maintained by most growers and workers do not have access to the same.

Sources: record review; worker and grower interviews

Plan Of Action:

Syngenta to create awareness through training programs for all concerned stakeholders on noncompliance, develop a culture of transparent work environment and establish strong communication among the team.

- 1. Syngenta has started engaging opinion leaders, teachers and women at the village level to form a committee to serve as a channel for information dissemination and worker grievances. At least 50% of these Grievance Committee members will be women. Company will take appropriate steps to publicize this grievance channel among growers and workers. Contact information of village committee members, organizers and company supervisors will be made available to growers and workers. Village committee will contact company in case of grievances.
- 2. One day per month will be assigned to the company representative to deal with worker grievances at the field level. All grievances from the workers will be documented for analysis.
- 3. In the long term, an internal system within the monitoring program will be developed to award growers with zero grievances.
- 4. Supervisors will be equipped with visiting cards on which contact numbers of respective RPM and project coordinator will be mentioned; workers will be educated to contact these numbers about noncompliances they observe.
- 5. Leaflets with information on emergency numbers will be distributed among workers.

Health and Safety: General Compliance Health and Safety

H&S.1 Growers shall comply with all local laws, regulations, and procedures concerning health and safety. In any cases where local laws and the Workplace Code of Conduct are contradictory, the higher standards will apply. The grower will possess all legally required permits.

Noncompliance

Explanation: Local law stipulates employers provide training, personal protective equipment (PPE), and health checkups for workers employed in handling chemical pesticides. This is not completely followed. Not all workers involved in pesticide application are provided training on the safe handling of pesticides.

Sources: worker and grower interviews

Legal Reference: The Insecticides Act 1968

Plan Of Action:

As this is a new location, 100% of growers are not covered under the PPE scheme. In consultation with an agency, we have locally designed some sort of protection which is widely used during chemical spraying. Though it is not a formal PPE set, it serves the purpose of formal PPE.

- 1. Organize a greater number of these trainings to cover all growers, with the help of the Crop Protection (CP) team.
- 2. Engage one agency that will help the company address this issue at a greater level.
- 3. Explore the possibility of equipping all growers with PPE.

Deadline Date:

Date:

Health and Safety: Health and Safety Management System

H&S.4 The health and safety policy shall contain the framework for a comprehensive health and safety management system within which growers' responsibilities; workers' rights and duties; various responsibilities of designated personnel; procedures that enable workers to raise health and safety concerns; and procedures for reporting death, injury, illness, and other health and safety issues (for instance, near-miss accidents) are clearly and regularly tested and reviewed.

Noncompliance

Explanation: Policy does not clearly specify comprehensive health and safety management systems.

Sources: management interviews, record review

Plan Of Action:

Formal, disciplined working systems H&S policy is developed. This document explains company's stance on H&S. Document is available at all Internal Monitoring (IMS) centers. However, key points of this are included in the document "Best Seed Production Practices," which is explained and given to growers at the time of seed production.

Action:

Create more awareness on HSE aspects.

Health and Safety: Access to Safety Equipment and First Aid

H&S.6 Company should ensure that growers and workers have access to safety equipment and first aid.

Noncompliance

Explanation: First aid boxes are not maintained at farms.

Sources: grower and management interviews; record review

Plan Of Action:

First aid kits are kept with schools, farmers and workers. Being new locations, some places are missed, but trainings are in progress in this area. Practically, it is difficult to supply first aid kits to all growers.

- 1. Syngenta will provide first aid boxes to key villages and they will be kept at important junctions like schools, panchayat or with any responsible growers.
- 2. Additional requirements will be worked out and purchased.
- 3. Growers will be encouraged to keep first aid boxes on their own.
- 4. Growers will be sufficiently trained in the effective use of first aid.
