Wages, Benefits and Overtime Compensation: Calculation Basis for Overtime Payments

WBOT.8 Employers shall compensate workers for all hours worked. For workers on a piece rate payment scheme or any other incentive scheme, payments for overtime hours worked shall be calculated by applying the premium rate required by law or this Code on the same payment scheme as is used for calculating wages for normal working hours, unless the payment scheme used leads to higher wages for workers. (S)

Noncompliance

Explanation: Overtime hours of piece rate workers are not compensated at premium rate, which is 2 times the regular hour rates according to law (as per The Factories Act, 1948, Section 59). There were no records maintained on piece rate workers' work hours and payments to verify any overtime compensation rates.

Plan Of Action: While audited factory was not in use at this time, nor would be used going forward, company has been working with vendor for initial clarification and corrective action plan to address each issue in order to ensure a responsible exit from this factory.

Deadline Date:

Supplier CAP: The audit happened in August, the month the factory got relocated. Due to dyeing problems, most factories in [District name] were closed temporarily; [Factory name] had very little work to do during that time. During relocation, most laborers left the job; factory was on fresh recruitment. The results of improvement can be documented only when production happens in full swing, which we expect by the end of January 2012. Will post developments then.

Wages, Benefits and Overtime Compensation: Overtime Compensation Awareness

WBOT.11 Workers shall be informed, orally and in writing, about overtime compensation rates prior to undertaking overtime. (P)

Noncompliance

Explanation: Interviews with management and workers revealed that overtime compensation is not communicated to workers either orally or in writing.

Plan Of Action: While audited factory was not in use at this time, nor would be used going forward, company has been working with vendor for initial clarification and corrective action plan to address each issue in order to ensure a responsible exit from this factory.

Wages, Benefits and Overtime Compensation: Accurate Calculation and Recording of Wage Compensation

WBOT.17 All payments to workers, including hourly wages, piecework, benefits, bonuses, and other incentives shall be calculated and recorded accurately. (S)

Uncorroborated Evidence of Noncompliance

Explanation: Factory does not maintain records pertaining to in and out times of workers. Records maintained by factory indicate the presence of workers, not their actual working hours. Also, no registers maintained with the payment calculation for piece rate workers and bonuses paid to all production workers. Wage calculation review for piece rate workers revealed that there were minor calculation mistakes in the range of INR 1 to INR 20 when weekly payment was done for workers.

WBOT.21 Employers shall ensure that all legally required payroll documents, journals and reports are available, complete, accurate and up-to-date. (P)

Noncompliance

Explanation: Factory does not maintain a payroll system, i.e., no wage registers or payment documents have been maintained. Production supervisors' registers are used to keep a track of workers' presence each day and of payments made.

Plan Of Action: While audited factory was not in use at this time, nor would be used going forward, company has been working with vendor for initial clarification and corrective action plan to address each issue in order to ensure a responsible exit from this factory.

Freedom of Association: Grievance Procedure

FOA.26 Employer shall have in place written grievance procedures that allow first an attempt to settle grievances directly between the worker and the immediate supervisor but that, where this is inappropriate or has failed, it is possible for the worker to have the grievance considered at one or more steps, depending on the nature of the grievance and the structure and size of the enterprise. Employers shall ensure that the grievance procedures and applicable rules are known to workers. (P)

Noncompliance

Explanation: Employer does not have a written grievance procedure in place. Currently, informal methods are used, including communicating grievance to supervisors, production manager or factory owner.

Child Labor: Proof of Age Documentation

CL.3 Employers shall collect and maintain all documentation necessary to confirm and verify date of birth of all workers, such as birth certificates. In addition, the employers shall take reasonable measures to ensure such documentation is complete and accurate. (P)

Noncompliance

Explanation: Age verification system is not robust. Age verification documents for workers are not maintained. Factory management demands an age proof document, like copy of marksheet, school leaving certificate, and ration card for young-looking workers.

Plan Of Action: While audited factory was not in use at this time, nor would be used going forward, company has been working with vendor for initial clarification and corrective action plan to address each issue in order to ensure a responsible exit from this factory.

Health and Safety: Evacuation Requirements and Procedure

H&S.9 All applicable legally required or recommended elements of safe evacuation (such as posting of evacuation plans, the installation and maintenance of an employee alarm and emergency lighting systems, ensuring aisles/exits are not blocked and that workers are not blocked within their workstations, employee education, evacuation procedures, etc.) shall be complied with. Workers shall be trained in evacuation procedures. Alarm systems shall be regularly tested and evacuation drills shall be undertaken at least annually. (S)

Noncompliance

Explanation: According to visual inspection, no evacuation plan displayed in factory. Aisles are clearly marked, but blocked in cutting and stitching sections. Exits are clearly marked but, emergency exit for cutting section is blocked with a recently shifted screen printing machine. Also, no evacuation drills have been conducted in the factory's current location since October 2010.

H&S.10 All safety and medical equipment (such as fire fighting equipment, first aid kits, etc.) shall be available in sufficient numbers throughout the factory, maintained and stocked as prescribed and easily accessible to workers. A sufficient number of workers shall be trained in first aid and fire fighting techniques. (S)

Noncompliance

Explanation: Emergency lights are not installed and the number of fire extinguishers is not appropriate for factory. Also, first aid boxes are not well equipped, as one of them had only cotton stored in it. No records for first aid or fire fighting training were available on date of audit. Factory Rules, Rule 66, specifies that the number of first aid fire fighting appliances need to meet requirements of relevant IS code. IS 2190 specifies type and number of fire extinguishers based on hazards and mediums used in the extinguisher. E.g., water-type extinguishers, 2 per 100 square meters.

(S)

Uncorroborated Evidence of Noncompliance

Explanation: Management interview revealed that workers used personal protective equipments (PPE), but worker discussions revealed they were unaware of PPE. This could not be corroborated further as no workers were found working in cutting or stitching sections.

Noncompliance

Explanation: Drinking water available on first floor has lot of dirt and dust accumulated around it. The other source is in an open area on the ground floor, where water is stored in a plastic drum. Water did not seem to be safe for drinking. Please refer to picture labeled "drinking water source."

HOW.6 Time worked by all workers, regardless of compensation system, shall be fully documented by time cards or other accurate and reliable recording systems such as electronic swipe cards. Employers are prohibited from maintaining multiple time-keeping systems and/or false records for any fraudulent reason, such as to falsely demonstrate working hours. Time records maintained shall be authentic and accurate. (P)

Noncompliance

Explanation: There are no accurate or reliable time recording systems in factory. Records maintained by factory indicate the presence of workers, not their actual work hours. Present records maintained in terms of shifts, where the symbol "x" is used to indicate regular hours worked in a day; "x1" is used to indicate 1 and a half day worked, i.e., 2 to 2.5 hours of overtime.
