Freedom of Association: Right to Freely Associate

FOA.2 Workers, without distinction whatsoever, shall have the right to establish and, subject only to the rules of the organization concerned, to join organizations of their own choosing without previous authorization. The right to freedom of association begins at the time that a worker seeks employment, and continues through the course of employment, including eventual termination of employment, and is applicable as well to unemployed and retired workers. (S)

Noncompliance

Explanation: **FLA Comment:** The Chinese constitution guarantees Freedom of Association (FOA); however, the Trade Union Act prevents the establishment of trade unions independent of the sole official trade union - the All China Federation of Trade Unions (ACFTU). According to the ILO, many provisions of the Trade Union Act are contrary to the fundamental principles of FOA, including the non-recognition of the right to strike. As a consequence, all factories in China fall short of the ILO standards on the right to organize and bargain collectively. However, the government has introduced new regulations that could improve the functioning of the labor relations mechanisms. The Amended Trade Union Act of Oct. 2001 stipulates that union committees have to be democratically elected at members' assemblies and trade unions must be accountable to their members. The trade union has the responsibility to consult with management on key issues of importance to their members and to sign collective agreements. Trade unions also have an enhanced role in dispute resolution. In Dec. 2003, the Collective Contracts Decree introduced the obligation for representative trade unions and employers to negotiate collective agreements, in contrast to the previous system of non-negotiated administrative agreements.

Monitor's Findings: No trade union in factory. Factory had set up worker representative mechanism. 2 worker representatives elected by workers, and they have meetings with management periodically.

Hours of Work: Time Recording System

HOW.6 Time worked by all workers, regardless of compensation system, shall be fully documented by time cards or other accurate and reliable recording systems such as electronic swipe cards. Employers are prohibited from maintaining multiple time-keeping systems and/or false records for any fraudulent reason, such as to falsely demonstrate working hours. Time records maintained shall be authentic and accurate. (P)

Noncompliance

Explanation: Confirmed that time records were incomplete/inaccurate:

1. Handwritten OT statistics kept in box-gluing workshop for 28 workers from March – June 2011, and for 3 workers from July – November 2010 indicated that those workers worked 3.5 – 4.5 hours overtime per day on most weekdays. Time records factory provided showed those workers only had 2 hours OT on weekdays less than 3 times per month.
2. OT statistics indicated 2 workers took personal leave March 1 – 14 and June 1 – 9, 2011, respectively. Facts also confirmed with related workers' interviews. However, the time records factory provided showed these 2 workers worked normally as others in those periods.
3. About 80% of interviewed workers mentioned that they worked OT on weekdays 3 – 4 times per week (more than 12 times per month) from June – August 2011. 20% of workers reported they worked sometimes on Sundays. Time records showed workers had OT on weekdays less than 3 times per month and never worked on Sundays.
4. 3 workers applied personal leave on July 24, 2011 (Sunday), although there was no work hours record for Sunday. Factory management said workers never worked on Sundays.
