## B.

# ROSTER OF DEANS AND FACULTY

This listing of ILR deans and faculty has been compiled from a combination of human resource records kept at the school since 1946, ILR deans reports, and other university sources. Faculty listed include only those whose titles were Assistant, Associate, or Full Professor. They do not include "visiting" appointments unless those led directly into regular faculty positions; nor do they include extension associates or other titles. Those who were employed in a nonprofessional capacity prior to becoming regular faculty are listed only in the latter capacity. The data list the calendar year of resignation or retirement from full-time teaching, although some faculty continued to teach either part-time or without salary for many years after their formal retirement. Emeritus status is listed as of the year it was granted by the Board of Trustees. Although we attempted to verify information, this list is compiled from a variety of incomplete sources, which sometimes contained conflicting information. We regret any errors.

## Deans
