The factual information set forth on the Tracking Charts was submitted to the FLA by each Independent External Monitor and Participating Company and reviewed by FLA staff. It is being made available to the public pursuant to the FLA Charter in order to strengthen the monitoring process. The FLA Charter provides for regular public disclosure of the factual results of independent monitoring and the resulting specific actions taken by Participating Companies.

What is a Tracking Chart?

Compliance is a process, not an event. A Tracking Chart outlines the process involved in FLA independent external monitoring and remediation. It is used by the accredited independent external monitor, the participating company and the FLA staff to do the following:

- **Record Findings:** The independent external monitor uses the Tracking Chart to report noncompliance with FLA Code standards. The monitor should also cite the specific Code benchmark or national/local law that was used to measure compliance.
- **Report on Remediation:** The FLA participating company uses the Tracking Chart to report on the remediation program that was implemented in order to resolve the noncompliance and prevent any future violations.
- **Evaluate Progress:** The FLA uses the Tracking Chart for purposes of collecting and analyzing information on the compliance situation of a particular factory and for publication on our website. This information is updated on an ongoing basis.

What a Tracking Chart is NOT -

- An exhaustive assessment of factory conditions

  Working conditions - in any type of workplace - are **dynamic**. Each Tracking Chart represents a survey of the factory’s conditions on a specific day. Over time, a fuller picture emerges as we compile information from various sources to track the compliance progress of a factory.

- A pass or fail evaluation

  The Tracking Charts do not certify whether or not factories are in compliance with the FLA Code. Monitoring is a measurement tool. The discovery of noncompliance issues is therefore not an indication that the participating company should withdraw from a factory. Instead, the results of monitoring visits are used to prioritize capacity building activities that will lead to sustainable improvements in the factory’s working conditions.

- A one-time event

  Each monitoring visit is followed by a remediation program, further monitoring and remediation in an ongoing process. The Tracking Charts are updated accordingly.
Note on Language
Please be advised that because FLA independent external monitors are locally-based and English is generally not their native language, the language presented may at times appear unclear to a reader who is a native English speaker. In order to preserve the integrity of the transparency process and the information we receive, our policy is to publish the original text from the monitor and participating company. However, the reader will note that we have taken the precaution to remove any identifying information about the factory that was monitored or the workers interviewed.

For example, in cases where monitors and/or participating companies have cited the actual number of workers in reference to a noncompliance issue, in order to protect the workers' identities, we have replaced the numbers with generic wording in brackets (i.e. “[some]”, “[worker interviews revealed that]”, etc.).

We do not disclose the name of the factory that was monitored in order to ensure that the FLA’s efforts to encourage and reward transparency do not have detrimental consequences for the factory and the workers.

Instructions for Printing
The information contained in the Tracking Charts is organized by columns and rows in a table format. Due to the number and width of the columns, the charts have been formatted for legal size (8.5 x 14in.) paper. To print the charts, please make sure to select “legal” size paper from Print properties.
## FLA Audit Profile

**Country**: BRAZIL  
**Factory name**: 10000971CIEM COTECNA  
**Date of audit**: 25/26 OCTOBER 2004  
**Days in the facility**: 2  
**PC(s)**: Phillips-Van Heusen  
**Number of workers**: 340  
**Product(s)**: Shoes, Footwear  
**Production processes**: Cutting, preparation, machine sewing, hand sewing, assembly, finishing and dispatch

| b. Age Documentation | Employers will maintain proof of age documentation for all workers, such as a birth certificate, which verifies date of birth. | Auditors were presented with personnel files which were very simple and did not contain practically any documentation. Brazilian law does not demand employers to keep copies of documents and auditors verified that during the hiring process appropriate age documentation and other personal certificates are revised, verified and given back to workers. [Factory] has a certificate issued by the O Instituto Pro-Crianca de Franca, dated August 2003 certifying that the facility is respectful of the prohibition of child labor. | Records review | Keep on file in the personnel records for each employee’s proof of age documentation, application form, work contracts, along with any other legally mandated required documents. | 1/31/2005 | All personnel records will be updated with the appropriate documents | Factory has kept on file the copies of documentation - proof of age, as well as application forms, work contracts and other legally mandated documentation. This was confirmed during the follow up performed on March 23, 05 |

### Remediation

| 4. Harassment or Abuse | Every employee will be treated with respect and dignity. No employees will be subject to any physical, sexual, psychological or verbal harassment of abuse. |

| 5. Nondiscrimination | No person will be subject to any discrimination in employment, including hiring, salary, benefits, advancement, discipline, termination or retirement, on the basis of gender, race, religion, age, disability, sexual orientation, nationality, political opinion, or social or ethnic origin. |
### 6. Health and Safety

Employers will provide a safe and healthy working environment to prevent accidents and injury to health arising out of, linked with, or occurring in the course of work or as a result of the operation of employer facilities.

</tbody>
</table>

**Notes:** Photos of the improvement are maintained on file at the PC regional office.

### 7. Freedom of Association and Collective Bargaining

Employers will recognize and respect the right of employees to freedom of association and collective bargaining.

### 8. Wages and Benefits

Employers recognize that wages are essential to meeting employees’ basic needs. Employers will pay employees, as a base, at least the minimum wage required by local law or the prevailing industry wage, whichever is higher, and will provide legally mandated benefits.

### 9. Hours of Work

Except in extraordinary business circumstances, employees will (i) not be required to work more than the lesser of (a) 48 hours per week and 12 hours overtime or (b) the limits on regular and overtime hours allowed by the law of the country of manufacture or, where the laws of such country will not limit the hours of work, the regular work week in such country plus 12 hours overtime; and (ii) be entitled to at least one day off in every seven day period.

### 10. Overtime Compensation

In addition to their compensation for regular hours of work, employees will be compensated for overtime hours at such premium rate as is legally required in the country of manufacture or, in those countries where such laws will not exist, at a rate at least equal to their regular hourly compensation rate.
