<tr>
<td>Overtime Limitations</td>
<td>According to Section 64 (4) of Factories Act, 1948, In making rules under this section, State Government shall not exceed, except in respect of exemption under clause (a) of subsection (2) the following limits of work inclusive of OT: (i) total number of hours of work in any day shall not exceed 10, (ii) the spread over, inclusive of intervals for rest, shall not exceed 12 hours in any 1 day, (iii) total numbers of hours in a week, including OT, shall not exceed 60, (iv) total number of hours of OT shall not exceed 50 for any 1 quarter.</td>
</tr>
</tbody>
</table>
### Overtime Limitations

According to Section 52(1) of Factories Act, 1948, No adult worker shall be required or allowed to work in factory on first day of week (hereinafter referred to as the said day), unless: (a) he has or will have holiday for whole day on 1 of 3 days immediately before or after said day, and (b) manager of factory has, before said day or substituted day under clause (a), whichever is earlier, (i) delivered notice at office of Inspector of his intention to require worker to work on said day and of day which is to be substituted, and (ii) displayed notice to that effect in factory.

### Overtime Limitations

According to Section 13A(1) of The Payment of Wages Act, 1936, Every employer shall maintain such register and records giving such particulars of persons employed by him, work performed by them, wages paid to them, deductions made from their wages, receipts given by them and such other particulars and in such form as may be prescribed.

### 10. Overtime Compensation

In addition to their compensation for regular hours of work, employees will be compensated for overtime hours at such premium rate as is legally required in the country of manufacture or, in those countries where such laws will not exist, at a rate at least equal to their regular hourly compensation rate.

### OT Compensation

According to Section 13A(1) of The Payment of Wages Act, 1936, Every employer shall maintain such register and records giving such particulars of persons employed by him, work performed by them, wages paid to them, deductions made from their wages, receipts given by them and such other particulars and in such form as may be prescribed.
FLA Benchmark

1. Code Awareness

Employers will maintain proof of age documentation for all workers, such as a birth certificate, which verifies date of birth.

2. Forced Labor

There will not be any use of forced labor, whether in the form of prison labor, indentured labor, bonded labor or otherwise.

3. Child Labor

No person will be employed at an age younger than 15 (or 14 where the law of the country of manufacture allows) or younger than the age for completing compulsory education in the country of manufacture where such age is higher than 15.

4. Harassment or Abuse

Every employee will be treated with respect and dignity. No employee will be subject to any physical, sexual, psychological or verbal harassment or abuse.

5. Nondiscrimination

No person will be subject to any discrimination in employment, including hiring, salary, benefits, advancement, discipline, termination or retirement, on the basis of gender, race, religion, age, disability, sexual orientation, nationality, political opinion, or social or ethnic origin.

6. Health and Safety

Employers will provide a safe and healthy working environment to prevent accidents and injury to health arising out of, linked with, or occurring in the course of work or as a result of the operation of employer facilities.

Employer will comply with applicable health and safety laws and regulations. In any case where laws and code of conduct are contradictory, the higher standards will apply. The factory will possess all legally required permits.
All applicable legally required or recommended elements of safe evacuation (posting of evacuation plans, unblocked aisles/exits, employee education, evacuation procedures, etc.) shall be complied with and workers shall be trained in proper safety, first aid, and evacuation procedures.

All safety and medical equipment (such as fire fighting equipment, first aid kits, etc.) shall be in place, maintained as prescribed and accessible to the employees.
All safety and medical equipment (fire fighting equipment, first aid kits, etc.) shall be in place, maintained as prescribed and accessible to the employees.

All chemicals and hazardous substances should be properly labeled and stored in accordance with applicable laws. Workers should receive training, appropriate to their job responsibilities, in safe use of chemicals and other hazardous substances.

All hourly wages, piecework, bonuses, and other incentives will be calculated and recorded accurately.
All legally required payroll documents, journals and reports will be available complete, accurate and up-to-date. (In the United States terms this would include W-4s, I-9s, green cards, 941s and supporting material.)

All wages, including overtime compensation shall be paid within legally defined time limits. When no time limits are defined by law, compensation shall be paid at least once a month. Minimum Wage: Employers shall pay workers at least the legal minimum wage or the prevailing industry wage, whichever is higher.

Except in extraordinary business circumstances, employees will (i) not be required to work more than the lesser of (a) 48 hours per week and 12 hours overtime or (b) the limits on regular and overtime hours allowed by law of the country of manufacture or, where the laws of such country will not limit hours of work, the regular workweek in such country plus 12 hours overtime; and (ii) be entitled to at least 1 day off in every 7 day period. An extraordinary business circumstance is a temporary period of extra work that could not have been anticipated or alleviated by other reasonable efforts.
Except in extraordinary business circumstances, employees will (i) not be required to work more than the lesser of (a) 48 hours per week and 12 hours overtime or (b) the limits on regular and overtime hours allowed by law of the country of manufacture or, where the laws of such country will not limit hours of work, the regular workweek in such country plus 12 hours overtime; and (ii) be entitled to at least 1 day off in every 7 day period. An extraordinary business circumstance is a temporary period of extra work that could not have been anticipated or alleviated by other reasonable efforts.

In addition to their compensation for regular hours of work, employees will be compensated for overtime hours at such premium rate as is legally required in the country of manufacture or, in those countries where such laws will not exist, at a rate at least equal to their regular hourly compensation rate.

The factory shall comply with applicable law for premium rates for overtime compensation.

</tr>
<tr>
<td>Photos of trained medical attendants have been posted at all first aid boxes. A list of regular contents in medical box has been posted at each unit and will be inspected by compliance factory manager weekly.</td>
</tr>
</tbody>
</table>
Diesel cans have been labeled and safety instructions in local language posted in room. Door has also been installed, which did not exist prior. As no MSDS received from diesel supplier, factory developed instructions regarding handling, safety and disposal for diesel and posted in local language.

Proper pathway has been provided so as to reach generator room safely. Once construction is complete at factory, pathway will be replaced with concrete.

As per recommendation given by PC auditor regarding calculation of monthly wages, same has been implemented from month of November 2005 onwards. Arrears of November paid separately. Date completed: 20/12/05
PC auditors found packing department workers had performed work on August 12 and September 23, 2005 but were not paid. Factory provided back wages to workers and updated their records. Management has strengthened internal control systems and trained all staff and workers on need for accurate recording of all working hours. All workers retrained to use electronic timekeeping at time of entry and exit.

Date completed: 1/2/06

Regular security agency matters are still under negotiation to appoint new security agency, but due to lack of available good quality security agencies operating in [Town name], matter still remains unresolved. However; guards are compensated with premium OT pay. Company is in process of installing new security agency, as existing one is not ready to carry out required changes. If they agree to changes, the same will be continued.
Factory is still looking for new security agency that will agree to comply with local law, PC and FLA standards. There is a lack of availability of good quality security agencies operating in this region. Further follow up required.

During visit to factory it is observed that machine operators/technicians work 12 hours on daily basis and are paid fixed wages. However, no OT premiums paid for 4 hours extra work. Factory also should restrict OT hours to 2 hours a day and 12 hours a week. Management should make sure that work on rest days is reflected in both salary registers and work hour records, based on which actual salary, including OT premiums, to be calculated.

Facility conducted evacuation drills every 2 months as observed in drill records maintained. Records have date, number of workers participating, description of evacuation drill and time taken to evacuate. Photos maintained and were provided for review. Employees in interviews confirmed that they participated in evacuation drills on a regular basis.

There are no chemicals stored in generator room or in any other room for that matter. Factory, as observed in current audit, does not have any chemicals stored on premises. In addition, per meeting between PCs and factory management, it was noted that factory is using diesel and softener. MSDS for both substances have been submitted to PC and posted in storage area.

During audit, various documents and records relating to monthly wages requested and reviewed. Wages calculated in accordance with relevant laws, Payment of Wages Act (legal requirements on payment date), Minimum Wages Act (legal requirements on minimum wage) and Factories Act (OT calculation legal requirement). Relevant state rules pertaining to wages also followed. OT computed as mandated and paid at premium rate. Employees did not report any inconsistency from records provided and reviewed. Factory is computing monthly wages in proper manner as required by Minimum Wages Act. Finally, back wages paid for rest day work performed August 12 and September 23, 2005 in February 2006. Factory management also submitted payment registry for back wages paid.
Contract employees never conduct OT work either on weekdays or on rest days. Some permanent employees, approximately 5%, conducted work on rest days (approximately 1 rest day a month). This was clearly reflected in time records. These employees provided with compensatory day off, which is also clearly reflected in time records. There was no instance of rest day work, which was not reflected in time records. Employees reported that when worked OT, they punched their time cards. OT has come down drastically in last 3-6 months. Finally, factory has made back payments for work performed on rest days on August 12 and September 23, 2005 and has submitted payment record as evidence.

| documentation review, employee interviews | Completed |
Management could not provide records such as time and payroll records for security guards. Therefore, work hours and compensation for security guards could not be verified. Verification was required in order to verify previous concerns relating to work hours of security employees.

During current audit, time and payroll records reviewed. Factory compensates OT hours worked on weekdays at 200% of basic wage rate as mandated. However, OT hours per day continue to be excessive for most permanent employees up to 4 hours. Also, machine operators/technicians work 12 hours on daily basis and are paid fixed wages; however, no OT premiums paid for 4 hours extra work. 5 out of 250 workers work 12 hours shift. OT hours on rest days recorded in time records. Employees confirmed being paid 200% for all weekday OT work. adidas SEA and Nike compliance staff in Bangalore had teleconference with factory July 16, 2010 and factory agreed to change 12 hours shift to 8 hours shift per day from August 1, 2010. Such change will be during next visit.

Wages calculated in accordance with relevant laws such as Payment of Wages Act (legal requirements on payment date) and Minimum Wages Act (legal requirements on minimum wage). Though OT payment computed and paid double wages, factory not found to be including HRA (House Rent Allowance) component for calculation of OT payments as required by Section 59 of Indian Factories Act 1948. Factory has agreed to include HRA (House Rent Allowance) also for computation of OT wages for immediate implementation.

| record review, management interview | Pending |
Manual OT records maintained by factory for OT worked after 2 hours of OT and for rest day work, confirmed that out of approximately 235 workers employed by factory, 11 workers worked 8 hours OT December 25, 2010; 10 workers worked 4 hours OT December 24, 2010, which was rest day. This OT work not recorded in time recording electronic system. Also, factory did not submit manual OT records for all months; hence, actual work hours, including all OT and wages paid in lieu of all OT work, could not be verified. Factory should record all work hours, including all OT hours, in 1 record through time recording electronic system; also all wages, including all OT wages, need to be calculated and paid. Finally, records of all work hours and wages need to be made available for review at time of audit.

| record review, worker interviews | Pending |
Management could not provide time and payroll records for security guards; hence, actual work hours and compensation for security guards could not be verified. Verification required in order to verify previous concerns relating to work hours of security employees. However, manual attendance record maintained at security gates confirmed that 6 out of 7 security guards found to have worked on their respective weekly rest days in month of December 2010. For example, 1 security guard found to have worked December 16, 23, 30, 2010 respectively, which were his rest days. Factory should make sure that all security guards are provided 1 rest day followed by 6 consecutive work days.

Manual OT records maintained by factory for OT worked after 2 hours of OT and for rest day work, confirmed that out of approximately 235 workers, 11 found working 8 hours OT December 25, 2010; 10 workers found working 4 hours OT December 24, 2010, which was a rest day. This OT work not recorded in time recording electronic system. Additionally, factory did not submit manual OT records for all months; hence, actual work hours, including all OT and wages paid in lieu of all OT work, could not be verified. Factory should record all work hours, including all OT hours in 1 record through time recording electronic system; also, all wages, including all OT wages, need to be calculated and paid. Finally, records of all work hours and wages need to be made available for review at time of audit.

Factory changed work hours of 5 machine operators/technicians who were working 12 hours a shift to 8 hours a shift from August 2010. However, manual OT record maintained by factory for OT worked after 2 hours of OT and for rest day, confirmed that out of around 235 workers employed in factory, 11 workers found working 8 hours OT December 25, 2010; 10 workers found working 4 hours OT December 24, 2010, which was a rest day. Also, factory did not submit manual OT records for all months; hence, actual work hours, including all OT and wages paid in lieu of all OT work, could not be verified. Factory should record all work hours, including all OT hours in 1 record through electronic time record system. Also, all wages, including all OT wages, need to be calculated and paid. Finally, records of all work hours and wages need to be made available for review at time of audit.
