In an effort to ensure that these investigations are conducted in a manner which is conducive to good order and discipline, the following rules are hereby adopted:

1. The interrogation of a member of the Fire Department will be at a reasonable hour, preferably when the member of the Fire Department is on duty, unless the exigencies of the investigation dictate otherwise, in which event the reassignment of the member of the Fire Department should be employed. If any time is lost, the member of the Fire Department will be compensated.

2. The interrogation will take place at a location designated by the investigating officer. Usually, it will be at Fire Headquarters or at the location where the incident allegedly occurred or at the office of the Corporation.

6. No employee shall be required to submit to a polygraph test as part of any investigation.

7. A member of the Department who is under arrest or who is a suspect in a criminal investigation or whose arrest may be occasioned as a consequence of his interrogation or who may thereby be placed in jeopardy of personal freedom or employment shall be afforded all constitutional rights prior to and throughout the investigation. Any such rights shall include, but without limitation, the right to remain silent and the right to Association Counsel and/or private counsel or both at any stage of the interrogation.

8. Stenographic transcripts of interrogations shall be the property of the City, but a free copy will be made available to the Association or individual upon request.

9. In all cases, the City shall afford an opportunity for a member of the Department, if he so requests, to consult with counsel and/or his Association representative before being questioned concerning a violation of law or the Rules and Regulations of the Department. The Local will also receive transcripts, recommendations and decisions without charge.

1. The hearing officer shall be mutually selected and agreed upon by the parties. If unable to agree, the matter shall be referred to PERB and the PERB rules for selection of the arbitrator shall be followed.

2. The costs of the hearing officer will be shared equally by the parties with the rate of compensation to be set in advance by the hearing officer.

3. In the event that the hearing officer selected is unwilling or unable to serve, a new list will be requested by the parties and a hearing officer selected as provided herein.

ARTICLE X

GRIEVANCE PROCEDURE

A. A grievance shall mean a claimed violation, misinterpretation or inequitable application of the existing rules, procedures or regulations covering terms and/or working
conditions applicable to the members of the Department and shall include all provisions of this Agreement.

B. Any grievance arising between the parties shall be settled in accordance with the following procedures (wherein the term working days shall mean the City Hall schedule (Monday through Friday excluding holidays):

5. There will be no appeal from the decision of the Arbitrator if made in accordance with his/her jurisdiction and authority under this Agreement. The decision will be binding and final on the Grievant and City.

6. The cost (time and expense) of the impartial Arbitrator will be borne equally between the parties.

C. The parties recognize and agree that the Association’s responsibility to proceed to arbitration is limited to issues brought by the Association either in its representative capacity or in joiner with an individual grievant.

D. If the Grievance Committee does not concur with the request of an employee to arbitrate, such employee may independently proceed with any remedies which may be available in law or in equity, in which event the Association is exempted from the payment of any costs, fees and expenses attendant thereto.

C. Officers, Officer Replacement and Out-of-Grade Assignments:

1. There shall be one Captain and one Lieutenant on each platoon.

2. One Captain and one Lieutenant shall be assigned to each platoon. The present practice of having a Captain on duty at all times is discontinued. In the absence of the regularly scheduled Captain, the Lieutenant shall be the officer in charge of the shift and the City shall not be obligated to call in another Captain. In the absence of the regularly scheduled Lieutenant, the Captain shall be the sole officer and the City shall not be obligated to call in another Lieutenant. In the absence of both the regularly assigned Captain and Lieutenant, a Captain and/or Lieutenant will be called in to be the officer in charge of the shift. All Captains and Lieutenants shall be on the same “overtime wheel” and all such overtime opportunities shall be distributed equitably and in the same manner as overtime is presently distributed among firefighters.

3. The present practice of calling in a Captain when the Fire Chief and Deputy Chief are unavailable is hereby discontinued.

4. Captains, Lieutenants and Firefighters shall be offered the first opportunity to work overtime on their Kelly Day in accordance with present practice. However, the present practice of allowing Captains to always work their Kelly Days shall be discontinued. Officers will choose their Kelly Days along with the firefighters in order of seniority.

6. In the event that a Captain and Lieutenant are not available for duty on a given platoon, the Chief may recall to duty a Captain or Lieutenant. In the event there is no available Captain or Lieutenant, the Chief shall place the senior man on the platoon to be in charge of the platoon.
7. The provision above which provides that the senior firefighter may be assigned in lieu of a Captain and Lieutenant (C.6 above) will not be applicable unless there are 8 men on duty (which shall include firefighters permanently assigned to that shift, firefighters on duty because of an “exchange” of shifts, and no more than 1 firefighter on overtime) on the day that the City seeks to assign the senior man in lieu of the Captain, i.e., the 8 members assigned shall not include more than one member assigned on an overtime basis. The “senior man” shall be selected for assignment as the out of title Captain, on a seniority basis, only from among the members permanently assigned to the Platoon on duty that day, provided, however, that no member shall be ordered to perform the assignment unless all senior members have refused it.

8. When the senior man on the platoon is placed in charge of the platoon as provided for herein, he shall be paid at the current rate of pay for a Captain and be entitled to all the rights, privileges and benefits of the Captain while so employed.

9. A member of the Department who is assigned to perform the duties of a higher rank will be paid the wage or salary and be entitled to all of the rights, privileges and benefits of the higher rank while so employed.

10. If a member is assigned to perform the duties of the Fire Chief, he will not be paid the wages or salary of the Chief.

11. Captains, including a senior man on the platoon in charge of the platoon as provided for herein, shall not be assigned as drivers, tillermen or pump operators, but may be used as hosemen, if necessary. The Captain, including a senior man on the platoon in charge of the platoon as provided for herein, is the officer in charge of the platoon.

D. Overtime and Call-back:

1. The City and the Local agree that the basic work week will be 40 hours during the term of this Agreement. The parties further agree that said 40-hour work week will be drawn in a manner that will implement the firefighters’ work schedule. That work schedule will consist of
24 hours on duty and 72 hours off duty.

2. Any firefighter who works in excess of 24 hours or who is called back as provided for herein will be paid therefore at the rate of time and one-half (1-1/2) or will receive compensatory time off equivalent to time and one-half (1-1/2). Such overtime and call back pay will be computed by dividing the firefighter's annual wage or salary by 2,080 hours during the term of this agreement.

3. The parties agree that equal compensatory time off may be substituted for overtime pay as provided herein in a fair and equitable manner and that such compensatory time off, upon three calendar days prior notice (which shall be waived for personal emergencies), and will be scheduled by mutual agreement of the Chief and the firefighter involved, consistent with shift work schedules. At any one time, only one employee per platoon shall be allowed comp. time (on a first come/first serve basis), with a maximum of 5 comp. days off per employee per year. All employees shall have the right to carry over 48 hours of unused comp. time from year to year and to cash in any excess over 48 hours on an annual basis.

4. A firefighter who is called back to duty will be compensated for at least two (2) hours of overtime in the event that he is called back for a lesser period of time. A firefighter who is held over will be compensated for at least one (1) hour of overtime in the event he is held over for a lesser period of time, except when he is replacing a firefighter who is tardy, in which event the firefighter who is filling in will receive overtime in accordance with the provisions of Article XVII, Section "M" of the Agreement.

5. a. Call back to duty will mean not only a recall to active duty with the Department, but a requirement of the firefighter to appear or give testimony before a Grand Jury, any court, or any departmental or agency hearing which may compel his attendance either by subpoena or by direction of his superior officer. Provided, however, that in order to receive compensation, a firefighter's appearance or requirement to give testimony must be connected with said firefighter's employment as a firefighter.
b. The following types of callback overtime will be
done by seniority and is non-chargeable to the overtime
wheel:

1. All multiple alarms of fire;
2. Mutual Aid to other communities;
3. Recall increasing staffing due to emergency as
deemed by the Chief of the Department and/or
officer in charge, i.e., snow, water, flooding,

2. If arrival is within thirty (30) minutes of the
   transmission of the greater alarm the member will receive
   pay from the time of the greater alarm transmission.

3. If arrival is after thirty (30) minutes of the
   transmission of the greater alarm the member will receive
   pay from the time he/she arrives.

   a. It is agreed that the Fire Investigation Team members
   asked to investigate the fire cause and members being
   held to wet-down or maintain fire scene chain of custody,
   shall be charged using the following system;

   Firefighters - At the point in the fire when emergency
   call-back Firefighters are released and wet-down crews are
   being established, Firefighters shall be asked by seniority
   to staff stated crews. Firefighters declining to work the
   stated overtime shall not be charged on the Overtime Wheel.
   Firefighter’s accepting stated overtime shall be charged on
   the Overtime Wheel.

   Fire Investigators - Fire investigators assigned to
   investigate will have the right to decline participation in
   the investigation and will not be charged on the Overtime
   Wheel. Fire investigators accepting the Fire Investigation
   position shall be charged on the Overtime Wheel at the
   point when emergency call-back crews are being released and
   wet-down crews are being held and charged.
All overtime not expressed herein will be considered chargeable and selected by low hours on the overtime wheel and added thereto.

7. A firefighter, but not including a Captain and Lieutenant, who is called back to duty to work on his Kelly Day/Birthday as provided herein, will be assigned to his normal duty assignment, if available; if not, he will be assigned to the open position, if qualified.

8. A Captain or Lieutenant who is called back to duty to work on his Kelly Day/Birthday, as provided for herein, will be assigned to his normal duty assignment, if available, and if a senior man on the platoon has been placed in charge of the platoon as provided herein, he will be returned to his normal duty assignment.

9. When any member of the Department refuses to accept overtime on his Kelly Day/Birthday, that overtime will not be counted as overtime worked.

10. Bargaining unit members on vacation shall be afforded the same opportunity as all other members to respond to and be utilized at any call back in the City of Cohoes. This shall be in accordance with Article XI, Section D, 1-8 Overtime and Call-back and Articles XVII, Section H. Primary Rights of Firefighters.

11. Bargaining unit members who report to a call back shall not receive any additional vacation time to cover the hours worked. Any vacation hours worked as a result of the call back shall be forfeited.

12. Bargaining unit members on vacation will be the first of the Cohoes Firefighters’ Union members released from the fire scene.

13. In the event that the Officer in Charge is unable to fill regular overtime after attempting to contact all eligible Firefighters and Officers they will attempt to fill the vacancy with members that are on vacation. The Officer in Charge shall follow the current overtime policy starting with the off-going shift and working backwards through all Firefighters on vacation then moving to the Officers on vacation.
14. Members on vacation shall not be charged on the overtime wheel for refusing overtime while on vacation but will be charged if they work. If the member accepts and works the overtime they shall not receive any additional vacation time to cover the hours worked. Any vacation hours worked shall be forfeited.

15. Overtime Procedure:

Holdover: In the event overtime is required, Firefighters, Lieutenants and Captains will be held over from the platoon going off duty. Firefighter, as used herein in Section 9, shall be defined as a firefighter who is certified as having completed the New York State mandatory training for new firefighters.

a. Firefighters will be asked according to their place on an overtime rotation list whereby the firefighter with the least amount of overtime worked (defined as the lowest number of hours on the overtime wheel, which shall include all compensatory time earned) will be given the first opportunity to work overtime provided that he is qualified for the position to be filled as determined by the Chief or the officer in charge. Provided, however, that on January 1st of each year, the rotation shall commence in accordance with seniority, by platoon (that is, all members shall be deemed to have zero hours on the overtime wheel effective January 1st of each year).

b. A firefighter passed over because of non-qualification will not lose his place on the list should a vacancy occur in a position in which he is qualified.

c. Members of the same platoon who have the same amount of overtime shall be called in accordance with seniority.

d. A refusal to accept pre-offered overtime will be counted as overtime worked for the sole purpose of establishing the firefighter's new place on the rotation list except that a refusal to work after 48 hours on duty shall not be counted as overtime worked.

e. Members who are transferred from one platoon to another shall be placed on the rotation list in the same position they held on the platoon from which they were
transferred (and assigned the same number of hours for overtime purposes as the individual on his new platoon has; Example: a firefighter with 800 hours in third position transferred to another platoon will be third in the new platoon and be assigned the same number of hours the third firefighter in the new platoon has).

f. Members who are disabled from working for over 30 calendar days, or an officer who returns to the rank of firefighter, upon their return to duty, or rank of firefighter, shall be placed on the rotation list in the same position as the member who has worked the least amount of overtime.

g. In the event that a firefighter may be held over or called back to duty due to a position being vacant, the firefighter will be assigned to that vacant position, and in so doing, will not upset the normal platoon assignment.

h. If a firefighter is improperly denied overtime due to an error or omission on the rotation list, his remedy shall be the right to the next available opportunity to work overtime. The City shall not be made liable through any process or award for the payment of overtime to any firefighter due to such an error or omission on the rotation list.

i. Captains shall make the calls for overtime and shall be provided with an office and telephone.

j. Officer reports:

1. If an Officer (Captain or Lieutenant) is out on any call and returns within 5 minutes before the end of their shift, that officer will stay and complete all required paperwork. That officer will be compensated at a rate of time and one half in 15 minute increments.

16. Members who are called to fill 24 hour vacancies on an overtime basis shall have the option of accepting 12 hours only at the time of the call.
E. Clothing Allowance and Uniform Dress Code:

1. Every firefighter will receive an annual allowance for clothing in the sum of Nine Hundred ($900.00) Dollars which shall be paid by the City no later than March 31st each year. In addition and without chargeback to the annual clothing allowance, a newly appointed member of the Fire Department will be equipped with OSHA-approved helmet, coat, boots, and gloves at the expense of the City, and will receive a clothing allowance as above-stated, pro-rated for the period of his first year of employment. It is further agreed the employee's fire gear (coat, boots, helmet, and gloves) will be replaced as needed at the expense of the City. All clothing and gear will be purchased by voucher. In addition, and without chargeback to the clothing allowance, all firefighters shall be provided with a complete change of protective clothing as needed.

2. The Uniform Dress Code is attached hereto as Exhibit "E" and incorporated by reference into this Agreement. In addition, the following modification shall apply:

G. Severability Clause: If any article or section of this Agreement, or any supplement or appendix thereto, should be held invalid by operation of law or by any tribunal or competent jurisdiction, or if compliance with and enforcement of any article or section should be restrained by such tribunal, the remainder of this Agreement and its supplements and appendices will not be affected thereby, and the parties will enter into immediate collective bargaining negotiations for the purposes of arriving at a mutually acceptable replacement for such article or section.

H. Primary Rights of Firefighters: The members of the Fire Department have the primary right and responsibility to
perform all firefighting duties in the City. However, the City shall, without calling all Cohoes firefighters to return to duty, be permitted to utilize the fully manned apparatus of another department(s) for the every nine (9) Cohoes firefighters called in on overtime who commit to appear. The City shall not be restricted from utilizing any other personnel, apparatus or mutual aid when, in its determination, same is necessary after all members have been called to return to duty.

This amendment to this clause shall be void and of no further effect in the event the City creates and implements a Table of Organization containing less than nine (9) firefighters per platoon, including officers.

I. Duration: This Agreement shall become effective January 1, 2015 and shall remain in effect until December 31, 2018. If the parties hereto fail to, agree upon a new contract on or before December 31, 2018, all of the terms and conditions set forth in this Agreement, and any supplement and modification thereof, shall continue in full force and effect until the date of execution of a new Agreement.

J. Personal Property Replacement: The City hereby covenants and agrees to repair or replace eye glasses and dentures damaged in the performance of assigned duties, if reported to the Officer in Charge prior to that person's leaving the tour of duty during which his property was lost or destroyed. Provided, however, this notice provision is not applicable if the man is hospitalized.

K. Firefighter Replacement: In the event a firefighter must be held over or called back to duty due to a position being vacant, the firefighter will be assigned that vacant position and, in so doing, will not upset the normal platoon assignments.

L. Exchange of Working Days: Members of the Department will be permitted to exchange working days upon the condition that the day is repaid within forty-five (45) days. In the event the day is not repaid within forty-five (45) days, then it will be considered repaid. The Fire Chief will have the authority to nullify the exchange of a working day, unless the member who is to replace a member is qualified to perform the duties involved. In the event that an exchange of working days is agreed upon and the person who is
scheduled to work as a substitute on the particular day does not appear, the City shall have the right to charge this person with the amount of time that he was scheduled to work.

M. Tardiness:

1. A member of the Department who is late for duty will have monies deducted from his pay based upon 1/4 hour intervals. A member late will have a 1/4 hour pay deducted for any part of each 15-minute interval he is late.

2. In the event that the tardiness of a member will cause a piece of equipment to be taken out of service, a member of the Department will be held over and will be paid at the rate of time and one-half (1-1/2) based on 1/4 hour intervals of time worked.

3. A member being held over due to the tardiness of another will remain on duty until completion of that 1/4 hour interval for which he is being paid. The member reporting late for duty will remain at his duty station but will not be compelled to work until such time that he is placed back on the payroll.

N. Assignments:

1. The City will furnish the Local with a Table of Organization containing the duty assignments of all Department members.

2. Departmental duty assignments consist of assignments to named positions of driver, hoseman and tillerman.

   a. A system has been instituted, by agreement during 1981, wherein all positions are considered open and available for bid, pursuant to seniority and qualification, as established by the Chief within the existing platoons only. This bidding has been concluded in 1981.

   b. The annual open period for bidding shall coincide with the period when vacations must be selected. Vacation calendars and bid sheets shall be distributed prior to the last week in November. The annual bidding period shall commence on December 1st and end on December 15th.
Members shall state their bid preference at the time they are asked or they shall be assigned at the discretion of the Chief to any position not filled by bid.

b. If a permanent vacancy occurs in a named position due to death, disability in excess of 30 days, retirement or termination, the position shall be considered open for bidding for a period of two weeks or until all platoon members have been contacted, whichever is less, and if it has not been bid, the Chief shall fill same by assignment.

d. Temporary vacancy is one which is expected to last no longer than 30 days. For the entire 30 days, the temporary vacancy will be filled with on-duty personnel if available, otherwise it shall be filled with overtime.

e. If a firefighter entitled to the benefits under the General Municipal Law Section 207-a policy returns to work, either full duty or light duty within thirty (30) calendar days of the injury, the injured firefighter’s position will not be put up for bid. However, if the firefighter does not return to duty within thirty (30) days, the firefighter position will be put up for bid in accordance with the contract. Immediately upon a firefighter being required to work an eight (8) hour day, that firefighter’s position will be put up for bid. A firefighter that returns to full duty shall be returned to his last bid position. All firefighters on light duty pursuant to the General Municipal Law 207-a policy and working twenty-four (24) hour shifts will be permitted to bid their full-duty position.

f. The following procedure shall be used to fill temporary vacancies with on-duty personnel:

1. All open positions within the daily roster shall be filled with on duty personnel if available; otherwise they shall be filled with overtime.

Open positions will occur within a platoon due to Vacations, Kelly Days, Birthdays, Personal Time, Compensatory Time, Sick Time, Bereavement Time and all other time off allotted by the Labor Relations Agreement.
2. Firefighters who bid the following job assignments shall be deemed as the only on duty personnel who shall be temporarily assigned. No other firefighter shall be temporary assigned or removed from their bid position to fill any vacancies.

A-Tower Hoseman  
B-Tower Hoseman/Tillerman  
C-Engine Two Hoseman

3. A vacancy shall only arise when a piece of fire apparatus falls below two firefighters.

4. Once a vacancy occurs within a platoon, the officer in charge shall call the senior firefighter from the three named positions and offer them the opportunity to fill any opening that may exist. Should he refuse the officer in charge shall call the next senior firefighter with the same offer.

Example: Should there be more the one opening, the senior firefighter will have first option, the next senior firefighter shall have the next option and the third firefighter shall be assigned.

Should an opening or openings occur after 10 p.m., the officer in charge shall assign the junior firefighter(s) to fill all the openings using the reverse order of seniority.

5. All other sections of this Article as well as any other agreements in regard to this issue are and will be in full force and effect until otherwise agreed.

g. A vacancy will no longer be temporary after it has existed for thirty (30) days, and shall be subject to bid by departmental seniority. The bid sheet shall be posted on the 15th day of the vacancy, commencing from the date the vacancy
first occurred. If no one bids the position, then on the 30th day the Chief may assign the junior man from the “heavy” platoon. If two or more platoons are equally “heavy”, the most junior man must be assigned to the vacant position. The parties also agree that if any platoon shall have less than nine (9) firefighters and shall have at least two firefighters less than any other platoon, the City shall be permitted to transfer the least senior firefighter from the platoon with the most firefighters to the platoon with the least number of firefighters. If the City thereafter hires firefighters to fill any vacancies, the newly hired firefighter(s) shall be assigned to the previously undermanned platoon(s) after successful completion of any training and, the transferred firefighter(s) shall be returned to their previous platoon.

h. All trainees will be assigned by the Chief or his designee for an eight-hour day, on a five day a week basis, Monday through Friday.

i. After completion of State mandatory training, new firefighters will be assigned to a Platoon.

3. The Chief will provide the Local with a list of the assignments for which each employee is in his (the Chief’s) discretion qualified in terms of job capability and performance. The list will be updated as members gain experience through training and actual job performance.

4. In the event any position in the table of organization becomes vacant in the future, and the table of organization falls below nine (9) members per platoon, the City shall have until the next regularly scheduled training school session to hire any firefighters as long as the City receives reasonable notice of said vacancy. In the event the City hires firefighters by the beginning of said regularly scheduled training school session, the parties agree that the City shall not be deemed to have changed the table of organization to less than nine (9) firefighters per platoon.

5. The parties agree that the City has and retains the right to change the table of organization and, in that event, the Union will have the option to conduct new bidding upon reasonable notice.

O. Sub-Contracting Clause: If at any time within the period of this contract, subcontracting is planned by the City of
duties or services now performed by the members of the Cohoes Fire Department, the City agrees to meet and discuss such subcontract proposals with the leadership of the Union. (This subcontracting clause shall neither enlarge nor diminish any right that the Association or the City has with regard to subcontracting under the Taylor Law [Civil Service Law Section 200 et seq.].)

P. **General Health and Safety Committee:** The parties agree that a General Health and Safety Committee be set up made up of equal membership between Union and City representatives.

Q. **Favored Nations Clause:** The City and the Union agree to reopen negotiations in the event any other City unit should receive percentage increases in wages or benefits in excess of percentage increases granted to the Union under this agreement.

R. **Disability Benefits:** See 207-a Procedure, attached hereto as Appendix "E".

S. **Book of Rules:** The Book of Rules attached hereto as Appendix "F", shall be enforceable immediately, except that Rule 20 shall be replaced with the attached Rule 20 (See Appendix "G"). Except for Rule 20, if there is inconsistency between the Book of Rules and the Collective Bargaining Agreement, the Collective Bargaining Agreement shall prevail. All discipline under the Book of Rules will be removed two years after the discipline is placed in the file as long as there are no further violations within the two-year period. The progressive discipline schedule will apply even if the rules that were violated are different.

T. **EMT Certification:**

a. Any member who at the time of commencement of employment was required to be EMT certified shall, if he fails to be recertified, be maintained in his regular assignment. He shall be granted the opportunity to continue to attempt to recertify until he attains such recertification. Following a failure to recertify after three attempts, the member will be dropped to the next pay step until recertification is achieved.

    b. All members who attend certification or
recertification classes for the purpose of obtaining or maintaining EMT certification shall be released from duty with pay and without chargeback to leave credits. Members who attend certification or recertification classes and examinations during non-duty hours shall be paid for all such time at the overtime rate of time and one half. Members who are required to maintain EMT status and attend certification or recertification classes and examinations during non-duty hours shall be paid for all such time at the overtime rate of time and one half.

c. All EMS chart reports will be done as soon as possible upon returning to quarters from a call. All notes taken on a call will be placed in the boxes provided at each station to be shredded by the Fire Chief’s office. Any signed RMA forms will be put with the daily paperwork to the Fire Chief’s office. If a company returns from an EMS call within five (5) minutes of the end of their shift, one man from the crew (rotating among the crew) will stay and complete the required charts. That member will be compensated at a rate of time and one half in fifteen (15) minute increments. If the company gets back after the end of their shift, per the current CBA all crew members will be compensated at time and one half for one (1) hour. Both parties agree to meet periodically to discuss any issues that arise.

President asks for unanimous consent for the introduction and passage of the following ordinance local law.

A LOCAL LAW AMENDING THE CHARTER OF THE CITY OF COHOES IN RELATION TO INDEMNIFICATION OF OFFICERS AND EMPLOYEES

BE IT ENACTED by the Common Council of the City of Cohoes as follows:

Section 1. ARTICLE V of Chapter 130 of the Laws of 1915, as amended, entitled "An Act to Revise the Charter of the City of Cohoes" is hereby amended by adding a new section to be known as Section 69 to read as follows:

"$69. DEFENSE AND INDEMNIFICATION OF OFFICERS AND EMPLOYEES.

1. As used in this section, unless the context otherwise requires, the term "employee" shall mean any person holding a position by election, appointment or employment in the service of the City of Cohoes, whether or not compensated or a volunteer expressly authorized to participate in a City-sponsored volunteer program, but shall not include an independent contractor. The term "employee": shall include a former employee, his estate or judicially appointed personal representative, if applicable.

2. (a) Upon compliance by the employee with the provisions of subdivision 4 of this section, the City of Cohoes shall provide for the defense of the employee in any civil action or proceeding in any State or Federal Court arising out of any alleged act or omission which occurred or is alleged in the complaint to have occurred while the employee was acting in the scope of his public employment or duties, or which is brought to enforce a provision of Section 1981 or 1983 of Title 42 of the United States Code. (42 USCA 1981 or 1983). This duty to provide for a defense shall not arise where such civil action or proceeding is brought by or on behalf of the State of New York or the City of Cohoes.

(b) Subject to the conditions set forth in paragraph (a) of this subdivision, the employee shall be entitled to
be represented by the Corporation Counsel, provided, however, that the employee shall be entitled to representation by a private counsel of his choice in any civil judicial proceeding whenever the Corporation Counsel determines, based upon his investigation and review of the facts and circumstances of the case, that representation by the Corporation Counsel would be inappropriate, or whenever a court of competent jurisdiction, upon appropriate motion or by a special proceeding, determines that a conflict of interest exists and that the employee is entitled to be represented by private counsel of his choice. The Corporation Counsel shall notify the employee in writing of such determination that the employee is entitled to be represented by a private counsel. The Corporation Counsel may require, as a condition to payment of the fees and expenses of such representation, that appropriate groups of such employees be represented by the same counsel. If the employee or group of employees is entitled to representation by a private counsel under the provisions of this section, the Corporation Counsel shall so certify to the Comptroller. Reasonable attorney’s fees and litigation expenses shall be paid by the City to such private counsel from time to time during the pendency of the civil action or proceeding subject to certification that the employee is entitled to representation under the terms and conditions of this section by the head of the department, commission, office or agency in which such employee is employed and upon the audit and warrant of the Comptroller. Any dispute with respect to representation of multiple employees by a single counsel or the amount of litigation expenses or the reasonableness of attorney’s fees shall be resolved by the court upon motion or by way of a special proceeding.

(c) Where the employee delivers process and a request for a defense to the Corporation Counsel as required by subdivision 4 of this section, the Corporation Counsel shall take the necessary steps including the retention of private counsel under the terms and conditions provided in paragraph (b) of subdivision 2 of this section on behalf of the employee to avoid entry of a default judgment pending resolution of any questions pertaining to the obligation to provide for a defense.

3. (a) The City of Cohoes shall indemnify and save harmless its employees in the amount of any judgment obtained against such employees in any State or Federal
Court, or in the amount of any settlement of a claim, provided that the act or omission from which such judgment or settlement arose, occurred while the employee was acting within the scope of his public employment or duties; the duty to indemnify and save harmless prescribed by this subdivision shall not arise where the injury or damage resulted from intentional wrongdoing or recklessness on the part of the employee.

(b) An employee represented by private counsel shall cause to be submitted to the head of the department, commission, office or agency in which he is employed any proposed settlement which may be subject to indemnification by the City and if not inconsistent with the provisions of this section, such head of the department, commission, office or agency in which he is employed shall certify such settlement, and submit such settlement and certification to the Corporation Counsel. The Corporation Counsel shall review such proposed settlement as to form and amount and shall give his approval if in his judgment the settlement is in the best interests of the City. Nothing in this subdivision shall be construed to authorize the City of Cohoes to indemnify or save harmless any employee with respect to a settlement not so reviewed and approved by the Corporation Counsel.

(c) Nothing in this subdivision shall authorize the City of Cohoes to indemnify or save harmless an employee with respect to punitive or exemplary damages, fines or penalties, or money recovered from an employee pursuant to §51 of the General Municipal Law of the State of New York.

(d) Upon entry of a final judgment against the employee, or upon the settlement of the claim, the employee shall cause to be served a copy of such judgment or settlement, personally or by certified or registered mail within 30 days of the date of entry or settlement, upon the head of the department, commission, office or agency in which he is employed; and if not inconsistent with the provisions of this section, such judgment or settlement shall be certified for payment by such head of the department, commission, office or agency. If the Corporation Counsel concurs in such certification, the judgment or settlement shall be paid upon the audit and warrant of the Comptroller.
4. The duty to defend or indemnify and save harmless prescribed by this section shall be conditioned upon

(a) delivery to the Corporation counsel or his designee, at the office of the Corporation Counsel in the City of Cohoes, by the employee of the original or a copy of any summons, complaint, process, notice, demand or pleading within five working days after he is served with such document, and

(b) the full cooperation of the employee in the defense of such action or proceeding and in defense of any action or proceeding against the City based upon the same act or omission, and in the prosecution of any appeal. Such delivery shall be deemed a request by the employee that the City provided his defense pursuant to this section.

5. The benefits of this section shall inure only to employees as defined herein and shall not enlarge or diminish the rights of any other party nor shall any provisions of this section be construed to affect, alter or repeal any provisions of the Workers Compensation Law.

PROCEDURE FOR THE ADMINISTRATION OF
GENERAL MUNICIPAL LAW SECTION 207-a BENEFITS

1. A firefighter claiming a right to benefits pursuant to General Municipal Law Section 207-a (hereinafter "Section 207-a") shall file a written application with the Chief, or his/her designee, within ten (10) days of the event giving rise to the need for benefits or the firefighter's reasonable knowledge thereof. If the firefighter is incapacitated, the Union or the firefighter's family may file the application on behalf of the firefighter. In the discretion of the City, the ten (10) day application time limit may be waived. Such discretion shall not be unreasonably denied. The application shall include a description of the incident and medical report casually connecting the incident to the claimed injury (See Appendix A).

2. The firefighter shall provide a medical release, a copy of which is attached hereto, and made a part hereof, to allow the City to obtain copies of medical records pertaining to the injury or illness for which he/she claims entitlement to benefits and any other previous injury or illness which, in the reasonable opinion of the City doctor, could be associated with the injury for which
benefits are sought. If a firefighter objects to production of records which may or may not be related to the injury or illness, such records will not be produced pending a final resolution of the issue if the firefighter produces a medical opinion which states that the previous injury or illness is not associated with the injury or illness for which benefits are sought. In the case of such disagreement, a third doctor will be selected by mutual consent and that doctor will render a final and binding opinion on the relevancy of the records. The cost for the third doctor's opinion will be shared equally by the parties. The third doctor's opinion shall not be subject to arbitration. A copy of all medical records received by the City shall be provided to the applicant at no cost.

3. Upon submission of a full and complete application, including the initial medical report mentioned in paragraph 1, the firefighter shall be entitled to full compensation including all contractual benefits until the City makes its initial determination.

4. The City shall issue its initial determination of
eligibility for benefits within a reasonable time after receipt of the full and complete application by the Chief. The City may take statements from witnesses and may have the applicant examined by a physician(s) of its own choosing in order to make its determination. The City may also request a supplemental statement from the applicant providing more detail than that contained in the application for Section 207-a benefits. The determination of the City shall be rendered in writing and, in the event the application is denied, a copy of all records and documentation received and/or relied upon in making the determination shall be provided to the firefighter.

5. (a) Except as set forth below, if the City approves the 207-a application, the City shall pay the firefighter all contractual benefits including his/her salary, longevity, health insurance, pension, cash-out time, dues deduction, and seniority. Eligible firefighters shall not receive holiday pay. In addition, those firefighters injured subsequent to the execution of this policy shall not accrue sick leave pursuant to Article XIA (B)(1). If the City desires the injured firefighter to work light duty, then the City may do so pursuant to the provisions of paragraph 8. Firefighters receiving 207-a benefits
and performing light duty shall receive all contractual benefits, including holiday pay.

(b) If the City denies the 207-a application, the firefighter shall use his/her accumulated sick leave until it is exhausted. Once exhausted, the City shall extend additional sick leave as necessary until the determination becomes final.

(c) If the firefighter, after arbitration (See Para. 9), is denied 207-a benefits but has been extended additional sick leave by the City, the City shall be allowed to recoup such sick leave as permitted by the contract. If the firefighter does not return to duty and/or otherwise fails to fully reimburse the City, then a cause of action shall accrue in favor of the City for such reimbursement.

6. A firefighter disputing the City’s determination shall be permitted to dispute same in accordance with paragraph 9 of this Procedure.
benefits of a firefighter previously granted Section 207-a benefits, the City shall provide written notice of same to the firefighter. The firefighter shall have thirty (30) days from the receipt of the City’s notice to come forward with medical proof from a physician that he is incapable of performing his duties as a firefighter as a result of an injury or illness resulting from the performance of his/her duties. In the event that the City does not agree with the determination of the member’s physician, the City shall notify the member within fifteen (15) days of receipt of the report from the physician, in writing of its determination. In such event, the firefighter’s capability of performing his regular firefighter duties shall be submitted to an arbitrator in accordance with paragraph 9 of this Procedure. The burden of proof shall be on the City to show that the member is capable of returning to duty. The City shall not discontinue payment of said benefits until an arbitrator renders an award in which it is determined that the firefighter is capable of performing his regular duties. If the firefighter fails to come forward with medical proof from a physician that he is incapable of returning to his regular firefighting duties because of an illness or injury resulting from the performance of his/her duties within the above-referenced time frame, he shall return to full duty. The City shall be permitted to have any firefighter receiving
Section 207-a benefits examined by a physician(s) of its choosing at its discretion. Should any firefighter refuse to attend such an examination after at least 15 days after delivery of written notice, he/she shall be subject to disciplinary charges. All notices served under this policy shall be served on the firefighter by certified mail, return receipt requested at the firefighter's permanent address on file with the fire department.

8. The City may assign firefighters applying for or receiving 207-a benefits to a light duty assignment. Firefighters performing light duty shall be entitled to all contractual benefits. Light duty shall be consistent with their status as a firefighter. Prior to the assignment, the City shall provide the firefighter with a list of duties to be performed, which will be chosen from the light duty profile in Exhibit __. If any firefighter disputes his capability of performing the light duty assignment, he/she shall have thirty (30) days from receipt of the City's notice to come forward with a statement from his/her physician that he/she is incapable of performing the duties to be assigned. In such event, the issue of the firefighter's capability of performing the light duty assignment, shall be submitted to arbitration, in accordance with paragraph 9 of this
Procedure. The firefighter shall not be required to perform the light duty assignment and shall continue to receive section 207-a benefits until the thirty (30) day period expires without the firefighter coming forward with medical proof of his inability to perform the light duty assignment or the rendering of an award by the arbitrator. The City shall be permitted to amend or modify the original light duty assignment to comply with the medical statement obtained by the firefighter. Firefighters who are expected to be on light duty for nine (9) months or less, shall work their regular 24 hour shift out of Central Station. Otherwise, they shall be required to work a Monday through Friday schedule and, unless the medical proof suggests otherwise, shall work a forty-hour week. No firefighter shall work light duty on their regular 24-hour shift for more than 9 months. Any firefighter refusing to work light duty in violation of an arbitrator’s award, or after failing to come forward with a statement from his/her physician that he/she is incapable of performing the duties assigned, shall be subject to disciplinary charges and termination of benefits.

9. (a) Any denial of 207-a benefits by the City or light duty dispute under this Procedure shall be submitted to arbitration
in accordance with Article X of the Labor Agreement between the City and the Union, except as follows:

(i) The member of the Union shall file a Demand For Arbitration with the NYS Public Employment Relations Board within 30 days after the City’s determination is received.

(ii) Compliance with the earlier steps of the grievance procedure shall not be required.

(b). If the issue submitted to the arbitrator involves the firefighter’s initial eligibility for benefits, the arbitrator shall find for the City if the City’s initial determination was supported by substantial evidence. The arbitrator shall find for the firefighter if the City’s initial determination is not supported by substantial evidence. If the issue involves the discontinuance of 207-a benefits or eligibility for light duty, the burden of proof shall be on the City. In this case, the arbitrator shall find for the City if the City proves by a preponderance of the evidence that the firefighter is no longer eligible for benefits or can perform light duty.
(c). The decision of the arbitrator shall be final and binding on the parties.

(d). The fee of the arbitrator shall be shared equally by the City and the Union. In the event that the Union declines to proceed with the 207-a case, the firefighter may proceed on his/her own. In such case, all costs associated with the 207-a case shall be the sole responsibility of the member. In no event will the City be responsible for more than 1/2 the applicable fees.

10. Firefighters absent from duty for more than 30 days and receiving 207-a benefits and who are not performing light duty shall not be entitled to accrue sick leave during their absence. However, if a firefighter returns to full duty, for a period of six months without missing any work because of the disabling injury, he shall be credited with one half of the sick leave he would have accrued during his absence. Upon completion of one full consecutive year of duty without missing any work because of the disabling injury, he will be credited with the other half of the sick leave he would have accrued. Paragraph 10 shall not
apply to firefighters injured and receiving Section 207-a benefits prior to the execution of this Procedure.

11. The City and the Union acknowledge that Section 207-a prohibits active and retired firefighters receiving 207-a benefits from engaging in certain employment activities. A firefighter receiving Section 207-a benefits who is permanently disabled and retires shall be permitted to engage in the certain employment activities otherwise prohibited by Section 207-a under the following circumstances only:

(a). If prior to the commencement of said prohibited employment activities, the firefighter executes a waiver of his rights to receive the additional salary paid pursuant to subdivision 2 of Section 207-a until such time as he/she discontinues such prohibited employment activities, but in no event less than one year; and

(b). If offered or made available by any prospective employer at no cost to the firefighter (excluding co-pays of any type), he/she enrolls in the health insurance program of said employer.
12. An active firefighter who is receiving 207-a benefits and who at the time of injury is gainfully employed outside the Cohoes Fire Department will not be required to terminate his/her outside employment or lose 207-a benefits if he/she continues to work in such employment for a period not to exceed four (4) months. If a firefighter is capable of performing "light duty" as specified in the profile attached as Exhibit ___, and the City chooses not to utilize the firefighter for a light duty assignment, the firefighter may continue to work in such outside employment for an additional five (5) month period.

13. The City and Union acknowledge that 207-a benefits are not subject to state or federal tax withholdings. However, the firefighter receiving such benefits may elect to have said taxes withheld by notifying the City of the same in writing. Amended W-2s will be provided upon request

14. The term "days" as used herein shall mean calendar days.
15. Except as stated below, firefighters receiving 207-a benefits shall not accrue further sick leave pursuant to Article XIIA(B)(1) of the contract. This paragraph shall not apply to firefighters who are currently receiving 207-a benefits.
