ILR Faculty Publications 2012-13

Keywords
Cornell University, ILR School, faculty publications, research

Comments
The production of scholarly research continues to be one of the primary missions of the ILR School. During a typical academic year, ILR faculty members published or had accepted for publication over 25 books, edited volumes, and monographs, 170 articles and chapters in edited volumes, numerous book reviews. In addition, a large number of manuscripts were submitted for publication, presented at professional association meetings, or circulated in working paper form. Our faculty’s research continues to find its way into the very best industrial relations, social science and statistics journals.
