PROF. CLARK TO STUDY IN EUROPE

Prof. Gardner Clark, with the aid of a Guggenheim grant, will spend a six-months' leave of absence in Europe studying labor productivity in the iron and steel industries. He plans to visit research centers and plants in both eastern and western Europe. In particular, he will study Soviet iron and steel productivity.

Prof. Clark, with his wife and three children, will make their headquarters at Geneva, Switzerland.

Prof. Clark has visited Russia and eastern Europe twice previously, once in 1957 and again in 1958.

PROF. SMITH TO SPEND SABBATICAL IN HAWAI'I

Prof. Alpheus Smith, the School's Director of Extension, is spending a six-months' sabbatical leave in Hawaii. He will teach a course in employment interviewing at the University of Hawaii's College of Business Administration. He says that whenever possible, he plans to observe labor-management relations in that paradise of the Pacific.

Prof. and Mrs. Smith will travel to Hawaii by plane, leaving sometime the first week in February.

VISITING PROFESSOR APPOINTED

It is expected that James Hill, Assistant Executive Director of the New York State Board of Mediation, will be appointed Visiting Professor during the spring semester. He will teach two courses in Collective Bargaining--ILR 500 and ILR 501. He will be at the School on Mondays and Tuesdays.

FACULTY MEMBER ATTENDS ICFTU CONFERENCE

Professor John Windmuller attended the tenth anniversary congress of the International Confederation of Free Trade Unions in Brussels, Belgium last December.

He flew via jet both ways and his comment on the trip was "absolutely marvelous." Flying time New York to Paris was six-and-a-half hours.

Prof. Windmuller has written an article on the Congress which appeared in the January 11 issue of New Leader. He reports that the editors changed the rather innocuous title which he had supplied to "ICFTU Do-Nothing Congress."

RESEARCH ASSOCIATE APPOINTED

Rodney Erickson, MILR candidate, (Feb. 1960) has been named research associate to work on hospitals under the direction of Prof. Robert Risley. A graduate of Utah State, Erickson did interviewing last summer for the Department of Rural Sociology.
PROF. RISLEY VISITS CHILE

Prof. Robert Risley spent a month in Chile prior to Christmas helping to launch an ICA-sponsored project to develop a program of labor relations for the University of Chile. In Santiago Professor Risley worked with Professor James Morris who, as the School's project representative, has been in Chile since last October.

When Risley arrived the Morrises were still living out of their suitcases, awaiting the arrival of their luggage and furniture which had been shipped months earlier, but which didn't arrive until just before Christmas. Since it takes about two weeks to get through customs, the Morris children had their Christmas after the first of the year. The youngest Morris girl was born while the Morrises were in Chile last year.

Of one fact Risley is certain—a working knowledge of Spanish would have helped smooth his way—and this know-how he didn't have. When confronted with a language impasse in the restaurant he frequented, he would say, "Okay" and the waitress would say, "I take care."

In the course of his Chilean visit, Prof. Risley met many professional and businessmen. He was invited to lunch and a barbecue at the University Club of Chile. He was a guest of the father of ILR freshman Alfredo Daniels at the opening of the first blending plant in Chile. He spent several days at San Antonio (a port city) and at Valparaiso. And he attended the annual American colony Thanksgiving picnic (held the Sunday following the holiday). Instead of the traditional turkey, a sausage-like hot dog was served.

To illustrate the problem of inflation in Chile, Risley cites the dilemma of the taxi driver. Taxi meters can't be set to run rapidly enough, consequently during the daytime a passenger pays twice what the meter reads; and after 11:00 p.m. he pays three times the amount on the meter. One American dollar is equal to 1,000 pesos.

Santiago is a city of many nationalities, many Chileans being second or third generation, Irish, German, etc. One of the main streets is O'Higgins Avenue—Irish to us, but considered to be an old Chilean name by the natives.

On his return to the States, Professor Risley stopped off for a day at Panama and had lunch with Dan Paolucci, Ph.D.'54, who works for the Canal Zone.

WINTER "ILR REVIEW" APPEARS

ILR faculty members Alice Cook, Rudolph Corvini, Fred Slavick and graduate student Charles Hulin contributed book reviews. Prof. James Morris' study, Conflict within the A.F.L., is reviewed by Foster Rhea Dulles.
