Commonwealth Disability Services Census: 2000

Abstract

[Excerpt] The Commonwealth Minister for Family and Community Services, through the Department of Family and Community Services, funds disability services in each State and Territory. This funding provides access for people with a disability to vocational programs and employment opportunities thereby promoting economic and social participation and choice for people with disabilities in work and the community.

This report presents national data on services for people with a disability, and consumers accessing employment services funded under the Commonwealth/State Disability Agreement in 1999–2000. The data was collected as part of the annual Commonwealth Disability Services Census conducted on 30 June 2000.

Keywords

disability service, vocational program, economic, employment, social participation, choice, work, community life, advocacy, information service, Australia

Acknowledgments

The successful completion of the 2000 Census was made possible by the participation of disability service providers and industry peak bodies.

Special thanks are due to the following disability service providers who generously provided time and resources to the development of the 2000 Census collection tools:

ADACAS

Birra Enterprises

Career Systems

Endeavour Industries

Groundwork Employment Service

NADRASCA/NADAVOC

SensWide Services

Introduction

The Commonwealth Minister for Family and Community Services, through the Department of Family and Community Services, funds disability services in each State and Territory. This funding provides access for people with a disability to vocational programs and employment opportunities thereby promoting economic and social participation and choice for people with disabilities in work and the community.

This report presents national data on services for people with a disability, and consumers accessing employment services funded under the Commonwealth/State Disability Agreement in 1999–2000. The data was collected as part of the annual Commonwealth Disability Services Census conducted on 30 June 2000.

The aim of the report is to provide information to:

- Commonwealth funded disability services participating in the Census collection;
- consumers of employment services, Commonwealth and State departments, peak industry and consumer bodies; and
- the general community.

This report is the sixth in the series. In previous years, data was only collected for those consumers who were ‘on the books’, that is, registered with a service on census day. This year, data has been collected for all consumers who accessed disability services during the 1999–2000 financial year. This approach enables a more complete picture of employment service provision to be presented, and will facilitate comparison between years in future collections. Both consumers ‘on the books’ and full financial year data has been included in this report.

Where full financial year data has been used, the graph or table has the suffix ‘FY’ and should not be compared with previous census reports. All tables from the 1999 Census have been completed for the 2000 Census to enable comparison between years for Consumers ‘on the books’ on Census day.

Percentage calculations have been used extensively in the analysis of the report. It should be noted that in some instances, due to the effect of ‘rounding’ some items may only total to 99%.

A form and mailing address is provided in the back of this report for your feedback. The Department of Family and Community Services appreciates your comments on how it can make the presentation of the information from the Commonwealth Disability Services Census more relevant and accessible to you.

Data Summary – Consumers ‘on the Books’

- **Service Outlets**

	2000	1999	1998

> \$ 400	9.6	8.0	7.4

NOTE: Data summary figures may vary slightly from text due to rounding.

1 Summary of Findings

1.1 Introduction

The Census surveyed all Commonwealth funded disability service outlets operational on 30 June 2000, including employment, print disability, information, advocacy and respite care services.

Basic information about service outlet operations was collected from all service outlets. Employment service outlets were also required to complete a survey for each consumer that they had supported during the financial year. In previous years, data was only collected for Consumers 'on the books' (registered as receiving assistance from a service outlet on Census Day).

Detailed tables of data and further graphs are listed in the 'List of Figures and Tables' and located throughout this publication.

Service Outlets

1.2 Service Outlet Profile

There were 1,004 Commonwealth funded disability support service outlets operational on 30 June 2000. For detailed information on services and service types, please refer to Section 2 – Service Information.

Figure 1.2.1 Service Outlet by Type

Figure 1.2.1 shows most Commonwealth funded disability service outlets are employment service outlets. See Table 1.

There was a 4% increase in service outlets compared to 1999. This is largely due to the inclusion of respite services for the first time.

Figure 1.2.2 Employment Service Outlet Type by Census Year

Figure 1.2.2 shows the total number of employment agencies has declined slightly since 1999, largely due to amalgamations.

The majority of Commonwealth funded disability employment services continue to be supported employment service outlets. See Table 4.

1.3 Staffing Profile

A total of 238,039 staff hours were spent on service operations during the Census Week ending 30 June 2000.

Using a 38-hour week as a full-time equivalent (FTE) basis this equates to approximately 6,264 FTE staff nationally. 57% of service outlets had fewer than 6 FTE staff. Almost all staff hours (97%) were worked by paid staff. See Table 50 (Appendix).

Consumers

1.4 Consumer Profile

A total of 53,427 consumers were assisted by Commonwealth funded employment service outlets during the 1999/2000 financial year. 86% of these consumers (45,950) were 'on the books' – registered as receiving assistance from a service outlet – on Census Day. See Table 6 (Appendix).

All consumer data refers exclusively to the consumers of employment service outlets. Data is either reported for all consumers assisted during the 1999/2000 financial year (labelled table or figure number 'FY'), or Consumers 'on the books' on 30 June 2000.

Figure 1.4.1 Consumers on the Books on Census Day by Census Year

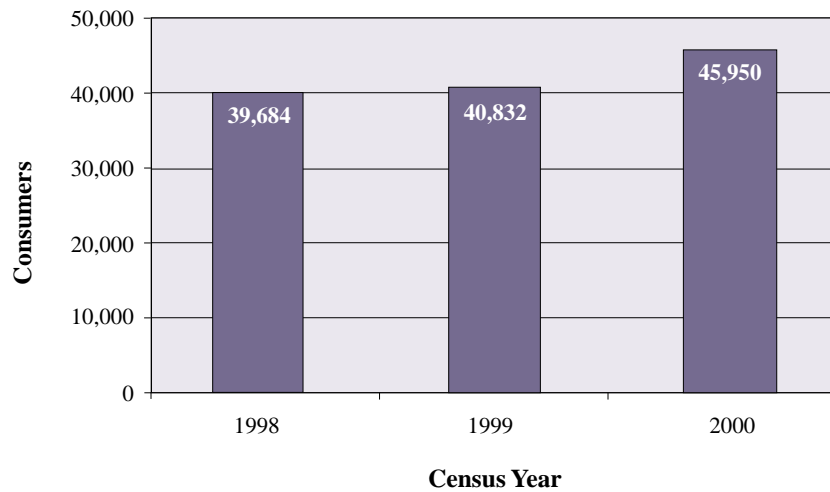

Figure 1.4.1 shows the number of Consumers 'on the books' of employment service outlets on 30 June 2000 was 45,950, up 12% from 40,832 in 1999. See Table 6 (Appendix).

Figure 1.4.2FY All Consumers: Employment Service Outlet Consumers by Service Outlet Type

Figure 1.4.2FY shows that throughout the financial year, Commonwealth funded disability employment service outlets assisted 53,427 consumers. Open employment service outlets assisted 61% of consumers, supported employment service outlets assisted 31% of consumers and dual open/supported employment service outlets assisted 8% of consumers. See Table 6FY.

Figure 1.4.3FY All Consumers: Proportion of Employment Service Outlet Types by Consumer Numbers by State/Territory

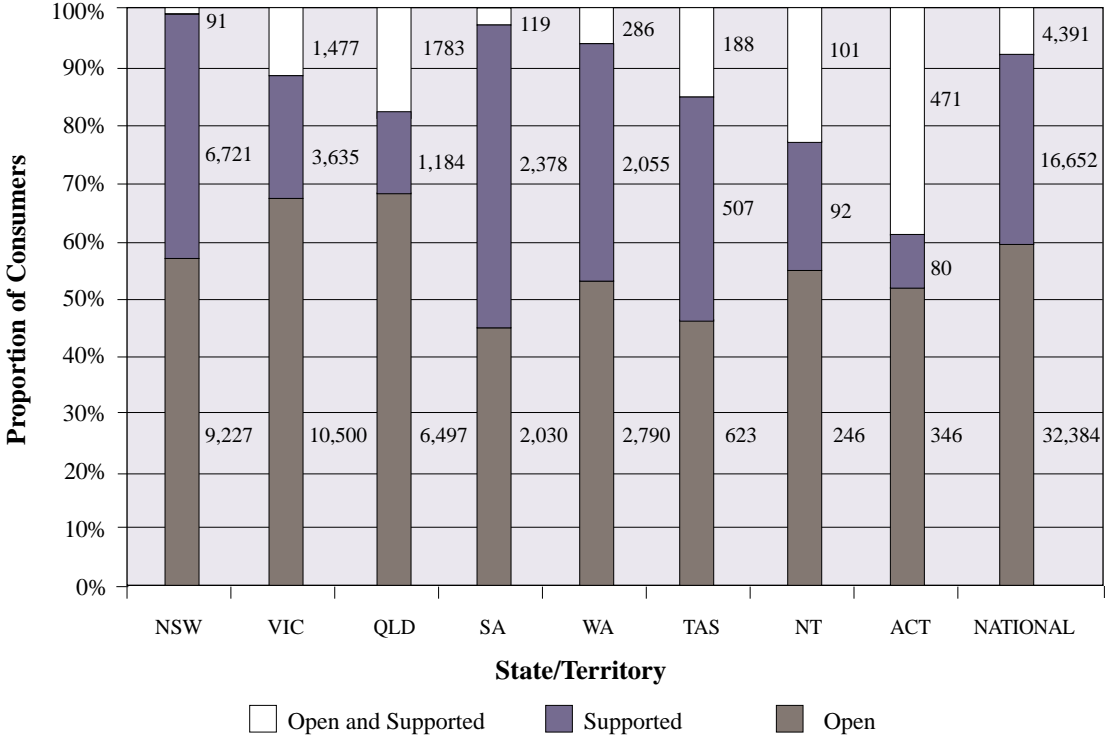

Figure 1.4.3FY shows the proportion of people accessing each type of employment service outlet throughout the 1999/2000 financial year varies significantly by state. In South Australia more than 50% of consumers are assisted by supported employment service outlets whereas in Queensland and the ACT less than 15% of consumers are assisted by supported employment service outlets. See Table 6FY.

1.5 Consumer Demographic Information

Figure 1.5.1FY All Consumers: Consumers Accessing Employment Service Outlets by Sex

Figure 1.5.1FY shows only one third of consumers accessing employment service outlets during the financial year were female. See Tables 14FY, 16FY and 14, 15 (Appendix) for further information.

Figure 1.5.2FY All Consumers: Age by Employment Service Outlet Type

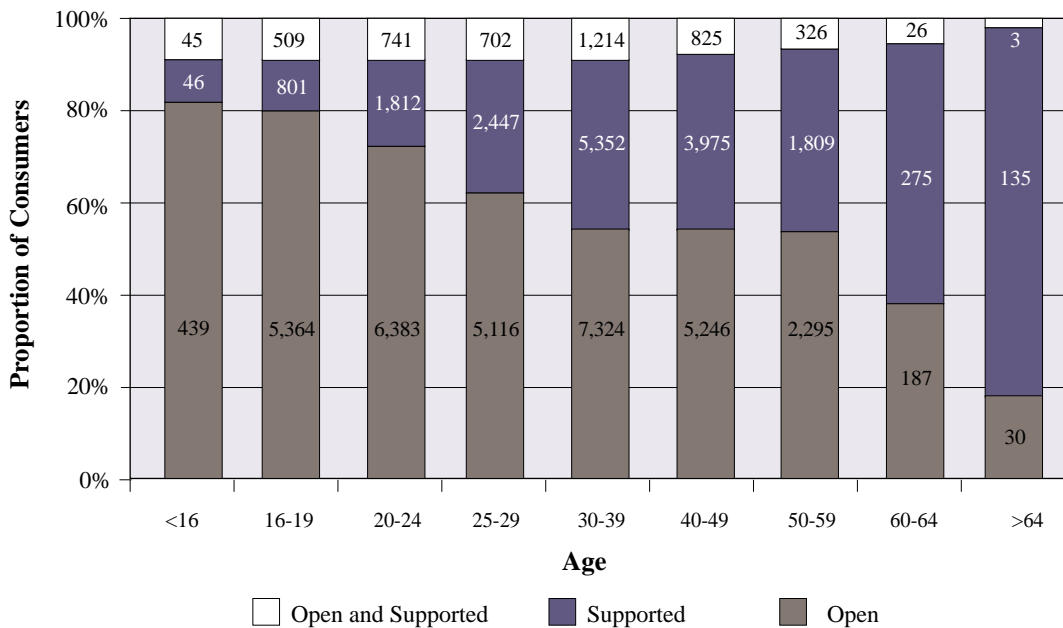

Figure 1.5.2FY shows that the proportion of consumers using open employment services decreases with age. A minority of younger consumers and a majority of older consumers are assisted by supported employment services.

Figure 1.5.3FY All Consumers: Consumers Accessing Employment Service Outlets by Country of Birth

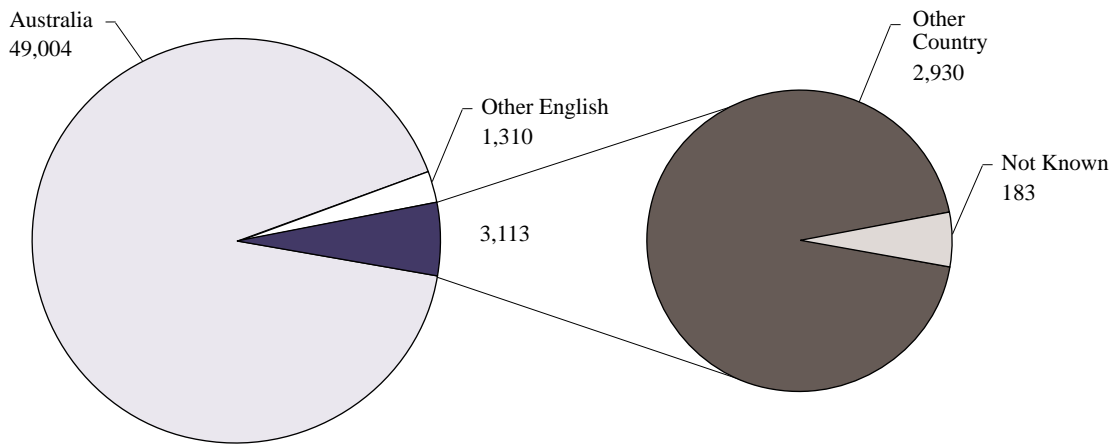

Figure 1.5.3FY shows 92% of consumers assisted during the financial year by disability employment service outlets were born in Australia. See Table 17FY.

Figure 1.5.4FY All Consumers: Indigenous Consumers Accessing Employment Service Outlets

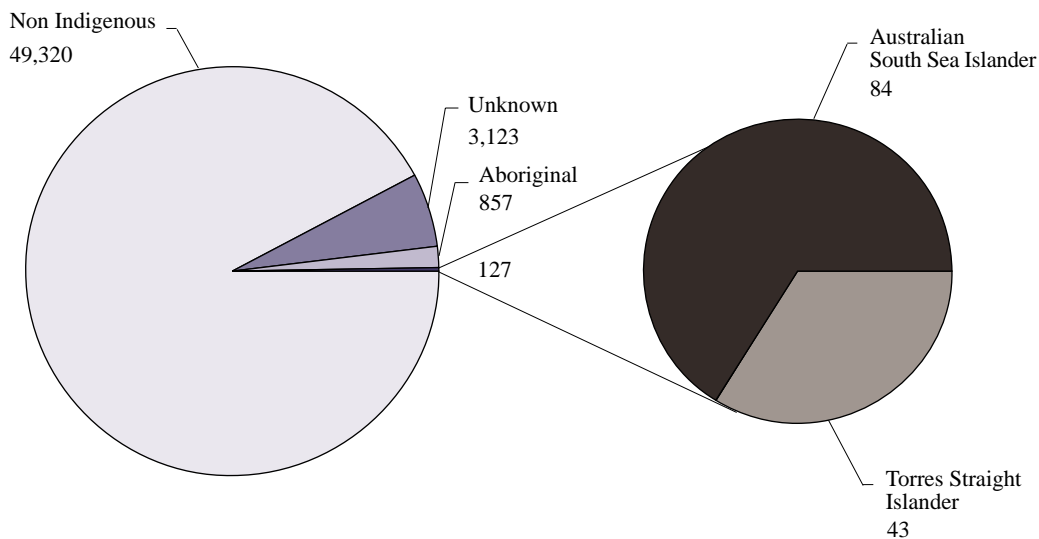

Figure 1.5.4FY shows 2% of consumers of employment service outlets self-identified as being of Aboriginal or Torres Strait Islander origin. This is in proportion with the wider population; the 1996 National Census of Population and Housing reported that approximately 2% of Australians identified themselves as indigenous. (Australian Bureau of Statistics, Special Article – Aboriginal and Torres Strait Islander Australians: A statistical profile from the 1996 Census (Year Book Australia 1999), Cat no. 1301.01, ABS, Canberra). See Table 19FY.

Figure 1.5.5FY All Consumers: Consumers Accessing Employment Service Outlets by Language Spoken at Home

Figure 1.5.5FY shows 94% of employment service outlet consumers speak English at home. No language, other than English, was spoken by more than 1% of consumers.

1.6 Disability Information

Figure 1.6.1FY All Consumers: Consumer Primary Disability for Open Employment Service Outlets

Figure 1.6.2FY All Consumers: Consumer Primary Disability for Supported Employment Service Outlets

Figure 1.6.3FY All Consumers: Consumer Primary Disability for Dual Open and Supported Employment Service Outlets

Figures 1.6.1FY, 1.6.2FY, 1.6.3FY show the three predominant primary disability groups were intellectual, physical and psychiatric disability.

Combined, these groups accounted for 81% of all consumers. (48% of consumers had an intellectual disability, 18% had a psychiatric disability and 15% had a physical disability as their primary disability).

The majority of consumers with physical and psychiatric disabilities were assisted by open employment service outlets whereas consumers with intellectual disabilities were more evenly split between open and supported service outlets. See Table 20FY and Tables 20 and 21 (Appendix).

1.7 Consumer Need for Support/Assistance

Less than 50% of consumers accessing employment service outlets require assistance in selfcare or mobility and less than 10% require frequent or continual assistance with these activities.

The majority of consumers accessing employment service outlets require occasional to frequent assistance with social skills, self-direction, learning and working. Further details are listed in Table 23 (Appendix) and 23FY. See also Tables 24FY, 25, 26 and Table 24 (Appendix).

Figure 1.7.1FY All Consumers: Consumer Living Arrangements

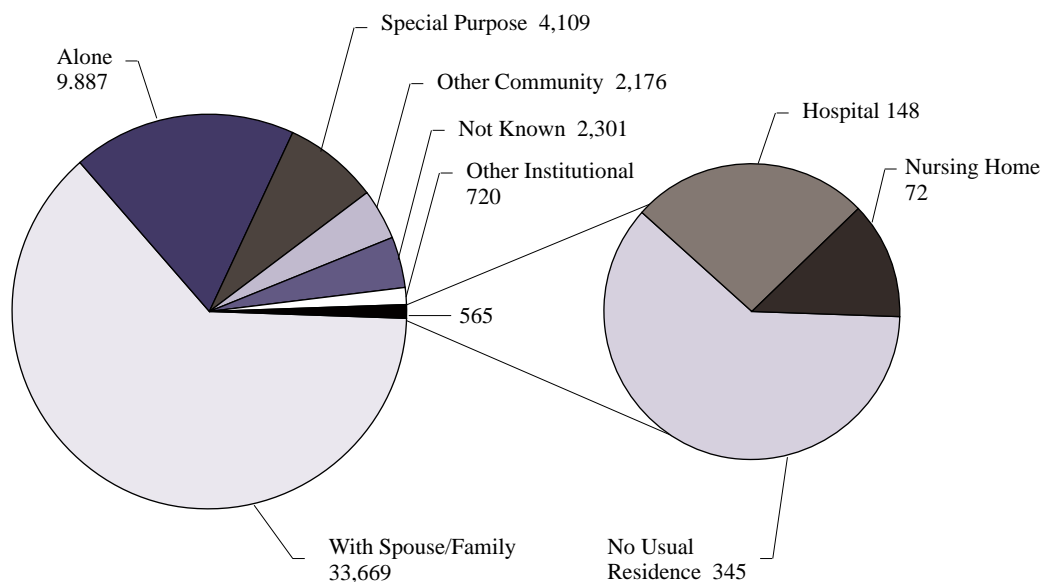

Figure 1.7.1FY shows 63% of employment service consumers were living with family or a spouse, 19% were living alone and 12% were living in special purpose or community accommodation. See Table 27FY and Tables 27 and 28 (Appendix).

Income and Employment

1.8 Consumer Income

Figure 1.8.1FY All Consumers: Consumers Receiving DSP or Newstart/Youth Allowance

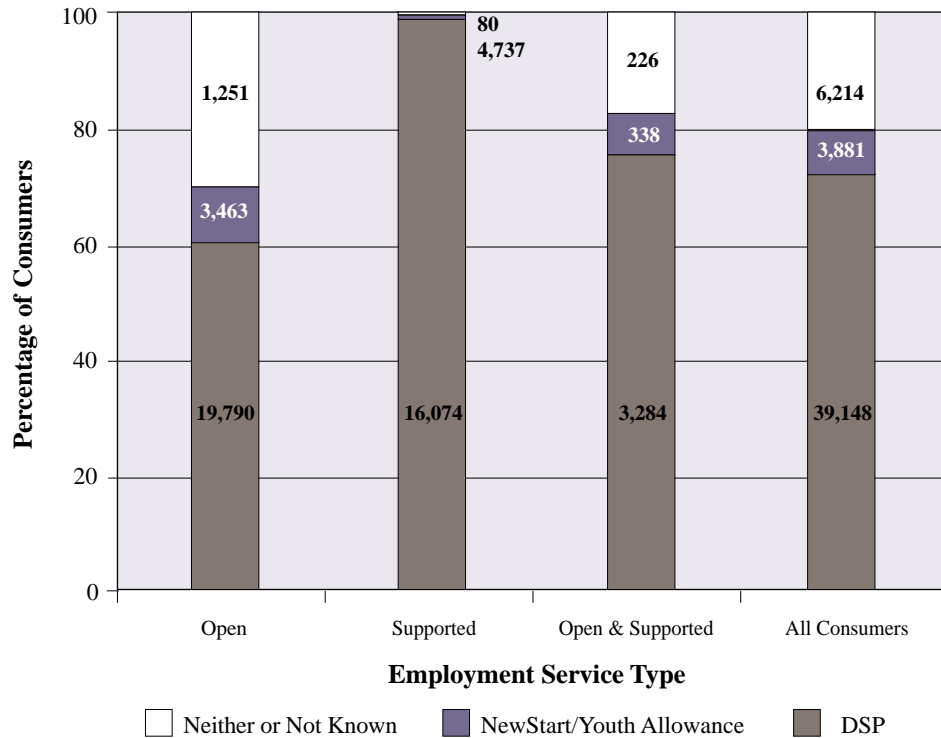

Figure 1.8.1FY shows 97% of consumers of supported employment service outlets received the Disability Support Pension (DSP) while 61% of consumers of open employment service outlets received the DSP. See Tables 29FY, 30FY and 6FY and Tables 29 and 30 for Consumers 'on the books' figures (Appendix).

92% of all consumers received some form of Commonwealth Government pension or allowance.

Figure 1.8.2FY All Consumers: Consumer Main Income Source

Figure 1.8.2FY shows the Disability Support Pension was the main source of income for 63% of consumers, followed by paid employment 21% and Newstart/Youth Allowance 6%. See Table 25, 31 (Appendix) and 31FY.

1.9 Employment Characteristics

There were 31,380 consumers recorded as being employed (ie. Workers or Independent Workers) on Census Day 30 June 2000. A further 13,910 consumers were registered as Job Seekers, 176 consumers were undertaking Work Experience and 484 were performing other employment activities.

1.10 Hours of Employment

The majority of employed consumers worked 31-40 hours per week irrespective of the employment service outlet type. See Table 38.

Male consumers averaged 28.34 hours per week at work. Female consumers averaged 10% fewer hours at work with 25.48 hours per week. See Table 41.

1.11 Wage Levels

Figure 1.11.1 Employed Consumers: Wages per Week by Employment Service Outlet Type

Figure 1.11.1 shows consumers assisted by an open employment service outlet received higher wages than consumers assisted by other employment service outlets, with approximately 82% earning more than \$100 per week compared with 9% of supported employment service outlet consumers and 39% of employed consumers of dual open/supported employment service outlets. Across the three employment service outlet types, the most common wage range was \$41-\$60 per week with 17% of employed consumers in this wage bracket. See Tables 36, 39, 40, 41, 42, 60, and Tables 35, 62 and 63 (Appendix).

Figure 1.11.2 Employed Consumers: Wage Type

Figure 1.11.2 shows 39% of consumers receive full award wages. See Table 60.

The most common wage for consumers on a full award was over \$400 per week. The most common wage for those consumers on an SWS productivity based wage was \$41-\$60 per week.

1.12 Permanency of Employment

Figure 1.12.1 Employed Consumers: Employment Service Outlet Type by Basis of Employment

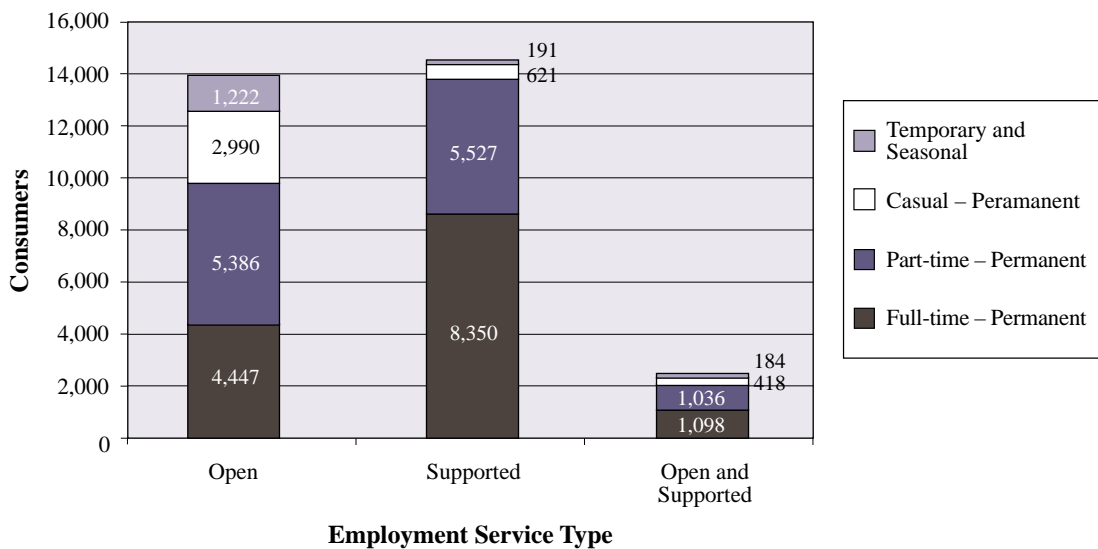

Figure 1.12.1 shows 95% of all employed consumers were employed on a permanent basis and 44% were working full-time – more than 30 hours per week. 32% of open employment service consumers were working full time compared to 57% of supported employment service consumers working full time. See Table 48.

1.13 Employment Setting

Employed consumers were reported as being employed in an open employment setting (ie. in the open labour market), a supported employment setting (that is, the service outlet provider is generally the employer) or ‘other’ employment setting (including self-employment or contract work).

53% of consumers were working in a supported employment setting while 46% were working in an open employment setting. See Table 48.

Consumers with an intellectual disability were more likely to be working in a supported employment setting. Consumers with a psychiatric or physical disability were more likely to be working in the open labour market (Table 46). See Tables 37, 45, 49 and Table 47 (Appendix).

Disability

1.14 Intellectual Disability

48% of consumers assisted in the 1999/2000 financial year and 50% of Consumers 'on the books' on Census Day had an intellectual primary disability. The following information refers to consumers with an intellectual disability 'on the books' on 30 June 2000.

Employment Service Type

- 41% received assistance from an open employment service outlet.
- 50% received assistance from a supported employment service outlet.
- 9% received assistance from a dual employment service outlet.

State

1.20 New South Wales

Service outlets and staff hours

- 37% of all Commonwealth funded disability service outlets were located in New South Wales, including:
 - 38% of employment service outlets
 - 27% of respite care services
 - 31% of print disability services
 - 28% of advocacy services
 - 67% of information service outlets (2 out of 3).
- Staff in New South Wales worked:
 - 32% of total staff hours across all service types
 - 32% of total staff hours in employment service outlets.

Consumer Information

16,039 consumers in New South Wales were assisted by an employment service outlet during the 1999/2000 financial year. This represents 30% of total consumers assisted in Australia. Of this group –

- 58% were assisted by an open employment service.
- 42% were assisted by a supported employment service.
- <1% were assisted by a dual open and supported employment service.
- 94% were born in Australia or another English speaking country.
- 2% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 64% Disability Support Pension
- 21% paid employment
- 5% the Newstart/Youth Allowance

- 31% of all Disability Support Pension recipients, 26% of Newstart/Youth Allowance recipients and 22% of Mobility Allowance recipients were located in New South Wales.

Living Arrangements

- 16% live alone
- 60% live with family or a spouse
- 19% live in special purpose or community accommodation
- 3% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 57% of consumers had an intellectual disability
- 16% had a psychiatric disability
- 11% had a physical disability
- 6% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 4% had a specific learning/ADD disability or autism
- 6% had an acquired brain injury or neurological disability.

Employment Information

- 72% of the 13,668 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$41-\$60 per week.
- 15% worked 8-15 hours/week; 28% worked 16-30 hours/week and 56% worked 31-40 hours per week.

1.21 Victoria

Service outlets and staff hours

- 23% of all Commonwealth funded disability service outlets were located in Victoria, including:
 - 23% of employment service outlets
 - 15% of respite care services
 - 23% of print disability services
 - 30% of advocacy services
 - There are no information service outlets in Victoria.
- Staff in Victoria worked:
 - 25% of total staff hours across all service types
 - 23% of total staff hours in employment service outlets.

Consumer Information

15,612 consumers in Victoria were assisted by an employment service outlet during the 1999/2000 financial year. This represents 29% of total consumers assisted in Australia. Of this group –

- 67% were assisted by an open employment service
- 23% were assisted by a supported employment service
- 9% were assisted by a dual open and supported employment service
- 91% were born in Australia or another English speaking country
- 1% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 57% Disability Support Pension
- 22% paid employment
- 9% the Newstart/Youth Allowance
- 27% of all Disability Support Pension recipients, 45% of Newstart/Youth Allowance recipients and 61% of

Mobility Allowance recipients were located in Victoria.

Living Arrangements

- 20% live alone
- 60% live with family or a spouse
- 15% live in special purpose or community accommodation
- 1% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 34% of consumers had an intellectual disability
- 26% had a psychiatric disability
- 19% had a physical disability
- 9% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 6% had a specific learning/ADD disability or autism
- 6% had an acquired brain injury or neurological disability.

Employment Information

- 62% of the 13,459 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$41-\$60 per week.
- 24% worked 8-15 hours/week; 30% worked 16-30 hours/week and 42% worked 31-40 hours per week.

1.22 Queensland

Service outlets and staff hours

- 15% of all Commonwealth funded disability service outlets were located in Queensland, including:
 - 15% of employment service outlets
 - 21% of respite care services
 - 8% of print disability services
 - 8% of advocacy services
 - There are no information service outlets in Queensland.
- Staff in Queensland worked:
 - 14% of total staff hours across all service types
 - 14% of total staff hours in employment service outlets.

Consumer Information

9,464 consumers in Queensland were assisted by an employment service outlet during the 1999/2000 financial year. This represents 18% of total consumers assisted in Australia. Of this group –

- 69% were assisted by an open employment service.
- 13% were assisted by a supported employment service.
- 19% were assisted by a dual open and supported employment service.
- 97% were born in Australia or another English speaking country.
- 3% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 59% Disability Support Pension
- 24% paid employment
- 5% the Newstart/Youth Allowance
- 17% of all Disability Support Pension recipients, 16% of Newstart/Youth Allowance recipients and 10% of

Mobility Allowance recipients were located in Queensland.

Living Arrangements

- 20% live alone
- 63% live with family or a spouse
- 14% live in special purpose or community accommodation
- 1% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 45% of consumers had an intellectual disability.
- 15% had a psychiatric disability.
- 18% had a physical disability.
- 8% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 7% had a specific learning/ADD disability or autism
- 7% had an acquired brain injury or neurological disability.

Employment Information

- 63% of the 8,061 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$1-\$20 per week.
- 23% worked 8-15 hours/week; 27% worked 16-30 hours/week and 47% worked 31-40 hours per week.

1.23 South Australia

Service outlets and staff hours

- 10% of all Commonwealth funded disability service outlets were located in South Australia, including:
 - 10% of employment service outlets
 - 6% of respite care services
 - 8% of print disability services
 - 9% of advocacy services
 - There are no information service outlets in South Australia.
- Staff in South Australia worked:
 - 10% of total staff hours across all service types
 - 10% of total staff hours in employment service outlets.

Consumer Information

4,527 consumers in South Australia were assisted by an employment service outlet during the 1999/2000 financial year. This represents 8% of total consumers assisted in Australia. Of this group –

- 45% were assisted by an open employment service
- 53% were assisted by a supported employment service
- 3% were assisted by a dual open and supported employment service
- 97% were born in Australia or another English speaking country
- 1% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 76% Disability Support Pension
- 15% paid employment
- 3% the Newstart/Youth Allowance
- 10% of all Disability Support Pension recipients, 5% of Newstart/Youth Allowance recipients and no Mobility

Allowance recipients were located in South Australia.

Living Arrangements

- 23% live alone
- 51% live with family or a spouse
- 17% live in special purpose or community accommodation
- 8% live in an institutional facility (ie: nursing home or hospital).

- 58% of consumers had an intellectual disability
- 13% had a psychiatric disability
- 12% had a physical disability
- 7% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 5% had a specific learning/ADD disability or autism
- 5% had an acquired brain injury or neurological disability.

Employment Information

- 78% of the 4,039 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$41-\$60 per week.
- 12% worked 8-15 hours/week; 29% worked 16-30 hours/week and 57% worked 31-40 hours per week.

1.24 Western Australia

Service outlets and staff hours

- 8% of all Commonwealth funded disability service outlets were located in Western Australia, including:
 - 7% of employment service outlets
 - 18% of respite care services
 - 15% of print disability services
 - 11% of advocacy services
 - There are no information service outlets in Western Australia.
- Staff in Western Australia worked:
 - 13% of total staff hours across all service types
 - 14% of total staff hours in employment service outlets.

Consumer Information

5,131 consumers in Western Australia were assisted by an employment service outlet during the 1999/2000 financial year. This represents 10% of total consumers assisted in Australia. Of this group –

- 54% were assisted by an open employment service
- 40% were assisted by a supported employment service
- 6% were assisted by a dual open and supported employment service
- 95% were born in Australia or another English speaking country
- 2% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 69% Disability Support Pension
- 21% paid employment
- 3% the Newstart/Youth Allowance
- 11% of all Disability Support Pension recipients, 5% of Newstart/Youth Allowance recipients and 4% of Mobility

Allowance recipients were located in Western Australia.

Living Arrangements

- 17% live alone
- 60% live with family or a spouse
- 16% live in special purpose or community accommodation
- 2% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 54% of consumers had an intellectual disability
- 13% had a psychiatric disability
- 12% had a physical disability
- 7% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 7% had a specific learning/ADD disability or autism
- 8% had an acquired brain injury or neurological disability.

Employment Information

- 79% of the 4,461 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$21-\$40 per week.
- 19% worked 8-15 hours/week; 30% worked 16-30 hours/week and 48% worked 31-40 hours per week.

1.25 Tasmania

Service outlets and staff hours

- 4% of all Commonwealth funded disability service outlets were located in Tasmania, including:
 - 4% of employment service outlets
 - 5% of respite care services
 - 8% of print disability services
 - 4% of advocacy services
 - There are no information service outlets in Tasmania.
- Staff in Tasmania worked:
 - 4% of total staff hours across all service types
 - 4% of total staff hours in employment service outlets.

Consumer Information

1,318 consumers in Tasmania were assisted by an employment service outlet during the 1999/2000 financial year. This represents 2% of total consumers assisted in Australia. Of this group –

- 47% were assisted by an open employment service
- 38% were assisted by a supported employment service
- 14% were assisted by a dual open and supported employment service
- 99% were born in Australia or another English speaking country
- 2% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 77% Disability Support Pension
- 15% paid employment
- 4% the Newstart/Youth Allowance
- 3% of all Disability Support Pension recipients, 2% of Newstart/Youth Allowance recipients and 2% of Mobility

Allowance recipients were located in Tasmania.

Living Arrangements

- 20% live alone
- 64% live with family or a spouse
- 11% live in special purpose or community accommodation
- 5% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 58% of consumers had an intellectual disability
- 10% had a psychiatric disability
- 14% had a physical disability
- 5% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 7% had a specific learning/ADD disability or autism
- 6% had an acquired brain injury or neurological disability.

Employment Information

- 70% of the 1,143 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$21-\$40 per week.
- 23% worked 8-15 hours/week; 27% worked 16-30 hours/week and 48% worked 31-40 hours per week.

1.26 Northern Territory

Service outlets and staff hours

- 2% of all Commonwealth funded disability service outlets were located in the Northern Territory, including:
 - 1% of employment service outlets
 - 6% of respite care services
 - 4% of advocacy services
 - There are no print or information service outlets in the Northern Territory.
- Staff in the Northern Territory worked:
 - 1% of total staff hours across all service types
 - 1% of total staff hours in employment service outlets.

Consumer Information

439 consumers in the Northern Territory were assisted by an employment service outlet during the 1999/2000 financial year. This represents 1% of total consumers assisted in Australia. Of this group –

- 56% were assisted by an open employment service
- 21% were assisted by a supported employment service
- 23% were assisted by a dual open and supported employment service
- 91% were born in Australia or another English speaking country
- 20% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 44% Disability Support Pension
- 24% paid employment
- 4% the Newstart/Youth Allowance
- <1% of all Disability Support Pension recipients, <1% of Newstart/Youth Allowance recipients and no Mobility

Allowance recipients were located in the Northern Territory.

Living Arrangements

- 17% live alone
- 66% live with family or a spouse
- 12% live in special purpose or community accommodation
- 1% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 38% of consumers had an intellectual disability
- 29% had a psychiatric disability
- 11% had a physical disability
- 4% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 5% had a specific learning/ADD disability or autism
- 13% had an acquired brain injury or neurological disability.

Employment Information

- 58% of the 340 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$41-\$60 per week.
- 23% worked 8-15 hours/week; 32% worked 16-30 hours/week and 43% worked 31-40 hours per week.

1.27 Australian Capital Territory

Service outlets and staff hours

- 2% of all Commonwealth funded disability service outlets were located in the Australian Capital Territory, including:
 - 2% of employment service outlets
 - 2% of respite care services
 - 8% of print disability services
 - 7% of advocacy services
 - 33% of information service outlets.
- Staff in the Australian Capital Territory worked:
 - 2% of total staff hours across all service types
 - 1% of total staff hours in employment service outlets.

Consumer Information

897 consumers in Australian Capital Territory were assisted by an employment service outlet during the 1999/2000 financial year. This represents 2% of total consumers assisted in Australia. Of this group –

- 53% were assisted by an open employment service
- 9% were assisted by a supported employment service
- 39% were assisted by a dual open and supported employment service
- 96% were born in Australia or another English speaking country
- 1% self-identified as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin.

Main Source of Income

- 56% Disability Support Pension
- 15% paid employment
- 3% the Newstart/Youth Allowance

- 1% of all Disability Support Pension recipients, 1% of Newstart/Youth Allowance recipients and no Mobility Allowance recipients were located in New South Wales.

Living Arrangements

- 16% live alone
- 60% live with family or a spouse
- 19% live in special purpose or community accommodation
- 3% live in an institutional facility (ie: nursing home or hospital).

Primary Disability

- 46% of consumers had an intellectual disability
- 23% had a psychiatric disability
- 11% had a physical disability
- 6% had a sensory disability (ie: deaf/blind, vision, hearing or speech)
- 7% had a specific learning/ADD disability or autism
- 7% had an acquired brain injury or neurological disability.

Employment Information

- 69% of the 779 Consumers 'on the books' on Census day were classified as employed (ie: workers or independent workers).
- The most common wage range for employed consumers was \$101-\$150 per week.
- 30% worked 8-15 hours/week; 40% worked 16-30 hours/week and 30% worked 31-40 hours per week.

2 Service Information

There are five service types that received Commonwealth disability service funding during the 1999-2000 financial year and have been recorded in the 2000 Commonwealth Disability Services Census. The following list defines each service type:

Employment: service outlets that provide employment assistance to people with a disability to obtain and/or retain employment.

Respite: FaCS funded respite care is aimed at increasing the provision of immediate and short-term respite to carers of young people with severe or profound disabilities.

Print Disability: service outlets that provide alternative formats of communication for people, who by reason of their disabilities, are unable to access information provided in a print medium.

Advocacy: service outlets that enable people with a disability to increase the control they have over their lives through the representation of their interests and views in the community.

Information/referral (Caption and Translation services): service outlets that provide accessible information to people with disabilities, their carers, families and related professionals. Information services provide specific information about disabilities, specific and generic services, equipment and promotes the development of community awareness.

Disability Service Outlets

2.1 Distribution of Services

For further graphs please refer to Summary of Findings, section 1.2.

Table 1: Service Outlets: Service Outlet Type by State/Territory

<i>State/Territory</i>	<i>Service Outlet Type</i>					<i>Total</i>
	<i>Employment</i>	<i>Respite</i>	<i>Print Disability</i>	<i>Advocacy</i>	<i>Information</i>	
NSW	323	17	4	21	2	367
VIC	192	9	3	23	0	227
QLD	130	13	1	6	0	150
SA	85	4	1	7	0	97
WA	63	11	2	8	0	84
TAS	34	3	1	3	0	41
ACT	13	1	1	5	1	21
NT	10	4	0	3	0	17
Australia	850	62	13	76	3	1,004

Table 1 shows employment services represent the largest proportion of Commonwealth funded disability services (85%). Of the total 1004 Commonwealth funded disability services, 850 were classified as employment, a slight reduction from 1999. (Table 2).

Table 2: Service Outlets: Year by Service Outlet Type

<i>Service Outlet Type</i>	<i>Census Year</i>		
	<i>2000</i>	<i>1999</i>	<i>1998</i>
Advocacy	76	76	76
Information	3	3	3
Print Disability	13	13	13
Respite	62	N/A	N/A
Employment			
Open	309	309	319
Supported	482	510	506
Open and Supported	59	56	58
Total	1,004 *	967	975

* (942 + 62 Respite)

Table 2 shows there were 1,004 Commonwealth funded disability services operational on Census Day, 30 June 2000. This represents a net increase of 37 service outlets since the 1999 Census collection which is due to the net effect of the inclusion of respite care for the first time, and the decrease of 25 employment service outlets through amalgamations during 1999/2000.

Table 3: Service Outlets: Number of Service Outlets by Accessibility/Remoteness Index of Australia (ARIA) Rating by Service Outlet Type

<i>Service Outlet Type</i>	<i>ARIA Category</i>					<i>Total</i>
	<i>Highly Accessible</i>	<i>Accessible</i>	<i>Moderately Accessible</i>	<i>Remote</i>	<i>Very Remote</i>	
Advocacy	69	3	1	1	2	76
Information	3	0	0	0	0	3
Print Disability	13	0	0	0	0	13
Respite	41	11	2	1	7	62
Employment	615	163	45	19	8	850
Total	741	177	48	21	17	1,004

Table 3 outlines the distribution of services within ARIA classifications by service outlet type. 74% of all service types are found in highly accessible areas, 18% are in accessible areas, 4% in moderately accessible areas, 2% in remote areas and 2% in very remote areas. Please refer to the explanation of ARIA in the Appendix.

Advocacy, respite and employment service outlets were available in every ARIA category. 90% of advocacy services, 66% of respite care services and 72% of employment service outlets were located in highly accessible areas.

2.2 Service Staff Profile

In total, disability service staff worked 239,039 hours during Census Week 2000. The number of staff was derived by dividing total staff hours during Census Week by 38 – a standard working week. Using that calculation, it is estimated that of the 1004 service outlets:

- 26% have 0-2 full time staff;
- 35% have 3-5 full time staff;
- 24% have 6-10 full time staff;
- 15% have over 11 full time staff.

Of the 15% of service outlets that have in excess of 11 full-time equivalent staff, 92% are employment service outlets.

Tables 50 and 51 (Appendix) show the breakdown of Full-Time Equivalent (FTE) staff based on a 38-hour week for all service outlet types.

2.3 Support Hours

Hours worked by staff in disability service outlets are measured in terms of direct and indirect support hours (included in those categories are paid and unpaid staff hours).

- **Direct Support Staff Hours** - staff who have direct contact with consumers in a support role. This includes coordinators and other staff who spend a major portion of their time in direct consumer contact.
- **Indirect Support Staff Hours** - staff who have no, or only minimal, direct contact with consumers eg: clerical staff, training personnel, board members etc.

Table 11: Staff Hours: Service Outlet Type by State/Territory by Type of Hours

Total	9,613	226	7,432	11,656	209,112	238,039

Direct support staff hours account for 68.5% of total staff hours.

Indirect support staff hours account for 31.5% of total staff hours.

Table 11 shows in total 238,039 direct and indirect support staff hours were worked during the week ending 30 June 2000.

The majority of staff hours are performed by employment services (88%), followed by respite care (5%), advocacy (4%), print disability (3%), and information services with less than (1%) of staff hours.

Total staff hours recorded in the 2000 Census have risen by 4% from those recorded in the 1999 Census; the number of service outlets has also risen by 4%.

Total	61,712	130,855	16,545	209,112

Table 12 shows a total of 209,112 staff hours were performed in employment service outlets during the Census Week ending 30 June 2000. 70% of total staff hours in employment services were recorded in direct support staff hours and 30% in indirect support staff hours.

The greatest number of staff hours were worked in New South Wales with 32% followed by Victoria with 23%. These States also have the largest number of consumers and employment service outlets across Australia.

Within the employment service outlet categories, the largest proportion of staff hours was worked in supported employment service outlets with 63% of total hours.

Employment Service Outlets

2.4 Distribution of Employment Services

Employment service outlets provide assistance to people with a disability (consumers) to gain and retain paid employment in a range of workplace types. As shown in Table 1 and Figure 1.2.1, these service outlets constitute the largest group of service outlets funded by the Commonwealth.

Employment services are broken down into three service types according to the type of services they provide.

- **Open Employment Service Outlets** - Services which provide employment assistance to people with a disability in obtaining and/or retaining paid employment in the open labour market.
- **Supported Employment Service Outlets** (business services) - Services which provide support and employment to people with a disability.
- **Open and Supported Employment Service Outlets** - Services which provide both open and supported employment assistance to people with a disability.

Table 4: Service Outlets: Employment Service Outlet Type by State/Territory by Year

<i>State/Territory</i>	<i>Employment Service Outlet Type</i>			<i>Total</i>
	<i>Open</i>	<i>Supported</i>	<i>Open & Supported</i>	
<i>2000</i>

VIC	64	119	14	197
QLD	67	42	23	132
SA	27	56	3	86
WA	30	30	5	65
TAS	16	17	1	34
NT	4	4	3	11
ACT	4	6	4	14
Total	309	510	56	875
<i>1998</i>				
NSW	97	239	3	339
VIC	66	120	12	198
QLD	67	35	30	132
SA	30	56	3	89
WA	33	30	2	65
TAS	16	18	1	35
NT	5	2	4	11
ACT	5	6	3	14
Total	319	506	58	883

Table 4 shows 57% of service outlets are supported employment service outlets, 36% are open employment service outlets and dual open/supported employment service outlets account for just 7% of total services outlets.

The number of disability employment services funded by the Commonwealth remains relatively stable. The 3% decline in employment service outlets is largely attributed to service amalgamations. See Figure 1.2.2.

Table 5: Service Outlets: ARIA by Employment Service Outlet Type

<i>Employment Service Outlet Type</i>	<i>ARIA Category</i>					<i>Total</i>
	<i>Highly Accessible</i>	<i>Accessible</i>	<i>Moderately Accessible</i>	<i>Remote</i>	<i>Very Remote</i>	
Open	220	58	18	9	4	309
Supported	354	95	24	7	2	482
Open & Supported	41	10	3	3	2	59
Total	615	163	45	19	8	850

Table 5 shows the majority of employment service outlets (72%) were located in highly accessible areas. Of these outlets, 36% were open employment service outlets, 57% were supported employment service outlets and 7% were dual open/supported employment service outlets.

3% of employment service outlets were located in remote or very remote areas.

Within each specific employment service type, the majority of service outlets were located in highly accessible areas – 71% of open employment service outlets, 73% of supported employment service outlets and 69% of dual open/supported employment service outlets, were located in highly accessible areas.

2.5 Consumers of Employment Services

The 2000 Commonwealth Disability Services Census is the first annual collection in which service outlets have reported consumer information for each of the consumers they assisted during the entire 1999/2000 financial year.

In prior years, only information for Consumers ‘on the books’ on Census Day was collected. To enable comparisons with prior years’ data, all tables from the 1999 Census Report have been completed for the 2000 Census Report to enable comparison between years for Consumers ‘on the books’ on Census Day. Some full financial year data tables have also been provided and are marked FY.

For graphical representation of the data tables provided, please refer to Figures 1.4.1, 1.4.2FY and 1.4.3FY in the Summary of Findings section.

WA	1,423	1,814	195	3,432
Australia	11,920	14,337	2,623	28,880

Table 13 shows there were 45,950 Consumers 'on the books' on Census Day 30 June 2000. This figure includes the 17,615 consumers who actually received support on Census Day as well as the 28,335 consumers who were registered but did not actually receive support on Census Day.

Service outlets estimate that on a typical day they would have assisted 20,242 consumers. Services reported 28,880 consumers were assisted during the Census Week.

More than half the Consumers 'on the books' on Census Day were registered as receiving assistance from open employment services, one third were registered with supported employment services and less than ten percent were registered as receiving assistance from dual open and supported employment services.

Supported employment service outlets assisted almost three times as many consumers on Census Day 11,570 and on a typical day 13,492, compared with open employment service outlets who assisted 4,319 consumers on Census Day and 4,936 on a typical day.

Table 6FY: All Consumers: Employment Service Outlet Type by State/Territory

<i>State/Territory</i>	<i>Employment Service Outlet Type</i>			<i>Total</i>
	<i>Open</i>	<i>Supported</i>	<i>Open & Supported</i>	
NSW	9,227	6,721	91	16,039

NT	246	92	101	439
Total	32,384	16,652	4,391	53,427

Table 6FY shows the majority of consumers in every State/Territory, with the exception of South Australia, received assistance from open employment service outlets. In South Australia the majority of consumers received assistance from supported employment service outlets. See Table 6 (Appendix) for Consumers 'on the books' figures.

Open employment service outlets comprise 36% of total employment service outlets, catering for 61% of consumers assisted during the 1999/2000 financial year.

Supported employment service outlets comprise 57% of total employment service outlets, catering for 31% of consumers assisted during the 1999/2000 financial year.

Open/Supported employment service outlets comprise 7% of total employment service outlets, for 8% of consumers assisted during the 1999/2000 financial year.

Table 7 shows that Victoria has the largest average number of consumers per open employment service outlet while Western Australia has the largest average consumer numbers per supported employment service outlet. South Australia is the only other state whose average numbers of consumers per supported employment service outlet exceeds the national average of 35. See also Figure 2.3.1.

Table 8 allows comparison between the average number of consumers in different ARIA (accessibility) classifications across years. Table 8 shows the average number of consumers in moderately to highly accessible areas increased for all employment service types.

Table 9FY: All Consumers: Employment Service ARIA by Consumer ARIA

<i>Consumer ARIA</i>	<i>Employment Service Outlet ARIA</i>					<i>Total</i>
	<i>Highly Accessible</i>	<i>Accessible</i>	<i>Moderately Accessible</i>	<i>Remote</i>	<i>Very Remote</i>	
Highly Accessible	42,638	137	15	15	2	42,807
Accessible	1,007	5,929	329	3	0	7,268
Moderately Accessible	169	317	1,627	32	0	2,145
Remote	26	19	23	427	15	510
Very Remote	15	54	9	133	220	431
Unmatched	225	26	4	11	0	266
Total	44,080	6,482	2,007	621	237	53,427

Table 9FY shows how many consumers are accessing services within the same ARIA classification.

80% of consumers are located in highly accessible areas, 14% are in accessible areas, 4% are in moderately accessible areas, 1% are in remote areas and 1% are in very remote areas.

99% of consumers living in a highly accessible area utilised services within a highly accessible area. 82% of consumers residing in accessible areas utilised services in similarly classified areas. 84% of consumers within remote areas access services within a remote area.

76% of consumers residing in moderately accessible areas accessed services in moderately accessible areas. For services in a very remote area, 51% of consumers within these areas accessed services received within a very remote area.

See Table 9 (Appendix) for Consumers ‘on the books’ figures.

3 Consumer Information

All Consumers The 2000 Commonwealth Disability Services Census collected information about 53,427 who received assistance from Commonwealth disability employment services between 1 July 1999 and 30 June 2000. These are referred to as 'All Consumers' and Tables and Figures referring to all consumers have the suffix 'FY' (financial year).

Consumers 'on the Books' Data about consumers employment situation was collected for the 45,950 Consumers 'on the books' of a service on 30 June 2000. These consumers are referred to as Consumers 'on the books'.

Demographics

3.1 Sex

Table 14FY: All Consumers: Sex by Age

<i>Age</i>	<i>Census Year 2000</i>		<i>Total</i>
	<i>Male</i>	<i>Female</i>	
<16	413	117	530
16-19	4,471	2,203	6,674
20-24	5,659	3,277	8,936
25-29	5,217	3,048	8,265
30-39	8,960	4,930	13,890
40-49	6,235	3,811	10,046
50-59	2,868	1,562	4,430
60-64	381	107	488
>64	122	46	168
Total	34,326	19,101	53,427

Table 14FY shows 64% of consumers assisted during the 1999/2000 financial year were male and 36% were female.

See Table 14 (Appendix) for a comparison of Consumers 'on the books' across years.

WA	2,790	2,055	286	5,131
Australia	32,384	16,652	4,391	53,427

The proportion of male consumers as a percentage of total consumers per State/Territory ranged between 60% in the ACT and 67% in Tasmania.

The distribution of males and females between employment service outlet types was equal in proportion to total numbers. That is:

- 61% of males and 60% of females were assisted by an open employment service outlet;
- 31% of males and 32% of females were assisted by a supported employment service outlet; and
- 8% of males and 8% of females were assisted by a dual open/supported employment service outlet.

See Table 16 (Appendix) for Consumers ‘on the books’ figures.

3.2 Age

Table 15FY: All Consumers: Age by Employment Service Outlet Type by Sex

Total	530	6,674	8,936	8,265	13,890	10,046	4,430	488	168	53,427

The majority of consumers of Commonwealth funded disability services are in their twenties and thirties. 13% of consumers are less than 20 years old. 32% of consumers are aged 20-29 years. 10% of consumers are over 50 years old.

See Table 15 (Appendix) for Consumers ‘on the books’ figures.

3.3 State/Territory and ARIA

New South Wales and Victoria assisted the largest number of consumers with 16,039 and 15,612 consumers respectively, accounting for 59% of total consumers. These States were followed by Queensland 18%, Western Australia 10%, South Australia 8%, Tasmania 2%, Australian Capital Territory 2% and the Northern Territory with less than 1%. See Table 6FY. See also Tables 6, 7, 13, 16, 16FY, 17, 17FY.

80% of consumers are located in highly accessible areas, 14% are in accessible areas, 4% are in moderately accessible areas, 1% are in remote and 1% are in very remote areas. See Table 9FY. For an explanation of ARIA, the Accessibility/Remoteness Index of Australia, refer to the appendix.

3.4 Country of Birth

Australia	49,004	1,310	183	2,930	53,427

Table 17FY shows 94% of consumers were either born in Australia or another English speaking country and of this group 60% were assisted by an open employment service outlet.

Of the 6% of consumers born in a non-English speaking country, 64% were assisted by an open employment service outlet.

See Table 17 (Appendix) for Consumers 'on the books' figures.

3.5 Language Spoken at Home

Table 18FY: All Consumers: Main Language Spoken at Home by State/Territory

<i>State/ Territory</i>	<i>Main Language Spoken at Home</i>										<i>Total</i>
	<i>English</i>	<i>Italian</i>	<i>Greek</i>	<i>Vietnamese</i>	<i>Chinese</i>	<i>Arabic/ Lebanese</i>	<i>German</i>	<i>Spanish</i>	<i>Other Language</i>	<i>Not Known</i>

Australia	50,387	357	291	222	122	206	24	103	1,475	240	53,427

Table 18FY shows 94% of consumers reported English as the main language spoken at home. In New South Wales and Victoria 93% and 92% (respectively) of consumers spoke English at home. In the Northern Territory only 83% of consumers spoke English at home. For more than 95% of consumers in all other States/Territories English was the main language spoken at home.

See Table 18 (Appendix) for Consumers 'on the books' figures.

Table 54 in the appendix details the method of communication for Consumers 'on the books' by employment service outlet by State/Territory. In summary, 93% of consumers had effective verbal communication skills. 4% had little or no communication skills and 3% used sign language. 87% of those consumers who had little or no communication skills were assisted by a supported employment service outlet. 96% of open employment service consumers had effective verbal communication skills and 83% of supported employment services had effective verbal communication skills.

3.6 Aboriginal and Torres Strait Islander Origin

Australia	49,320	857	43	84	3,123	53,427

Table 19FY shows 2% of all consumers self-identified as being of Aboriginal or Torres Strait Islander origin.

Of these consumers, 64% received assistance from an open employment service outlet, 29% from a supported employment service outlet and 7% from a dual open/supported employment service outlet.

See Table 19 (Appendix) for Consumers ‘on the books’ figures.

Disability Group

3.7 Disability

Disability groups categorise disabilities in terms of the underlying impairment, condition or cause, and reflect those disabilities/impairments identified as significant in the Commonwealth Disability Services Act (1986).

Data for the purpose of this Census has been collected for 11 disability groups: intellectual, specific learning/ADD, autism, physical, deafblind, vision, hearing, speech, psychiatric, neurological and acquired brain injury.

The primary disability group is that disability, impairment or condition causing most difficulty to the consumer in their daily life. (Note: for more detailed information on individual disability classifications refer to the Census 2000 Data Guide in Appendix.).

Figure 3.7.1FY: All Consumers: Primary Disability Group

Figure 3.7.1FY shows that for almost half of the consumers accessing disability employment services during the financial year intellectual disability was reported as the impairment or condition that caused them the most difficulty. See Table 20FY.

See also Figures 1.6.1FY, 1.6.2FY and 1.6.3FY for break down by employment service type.

Table 20FY: All Consumers: Employment Service Outlet Type by Primary Disability Group

<i>Primary Disability</i>	<i>Employment Service Outlet Type</i>			<i>Total</i>
	<i>Open</i>	<i>Supported</i>	<i>Open & Supported</i>	
Acquired Brain Injury	1,262	420	132	1,814
Autism	323	208	58	589
DeafBlind	113	41	4	158
Hearing	1,558	162	76	1,796
Intellectual	10,786	12,368	2,280	25,434
Neurological	1,126	308	114	1,548
Physical	6,058	1,233	670	7,961
Psychiatric	7,561	1,455	753	9,769
Specific Learning/ADD	2,004	134	223	2,361
Speech	109	27	11	147
Vision	1,484	296	70	1,850
Total	32,384	16,652	4,391	53,427

48% of consumers have a primary intellectual disability.
 18% of consumers have a primary psychiatric disability.
 15% of consumers have a primary physical disability.
 These groups are the predominant primary disability groups, accounting for 81% of total consumers.

Table 20FY shows 49% of consumers with an intellectual disability received assistance from a supported employment service outlet and 42% from an open employment service outlet. 76% of consumers with a physical disability and 77% of consumers with a psychiatric disability received assistance from an open employment service outlet. Table 20 (Appendix) displays this data for Consumers ‘on the books’ across years. See also Table 55 (Appendix).

Table 21FY shows the ARIA classification of consumers within each disability group. The majority of consumers within each disability group live in highly accessible areas, ranging from 69% of consumers with a speech disability to 88% of consumers with a visual disability.

Supported employment service outlets had 84% of consumers living in highly accessible areas. This was higher than dual open/supported employment service outlets with 82% of consumers and open employment service outlets with 78% of consumers located in highly accessible areas. Each of the employment service type outlets had only 1% of consumers living in either remote or very remote areas.

For more information on ARIA, refer to the appendix.

See Table 21 (Appendix) for Consumers 'on the books' figures.

Table 22FY outlines the total instances of a secondary disability by employment service outlet type. More than half the consumers with a secondary disability had an intellectual disability as their primary disability. The most common combination of disabilities was intellectual as primary and physical as secondary, followed by intellectual as primary and speech as secondary. For Consumers 'on the books' figures see Table 22 (Appendix)

Note: Table 22FY counts instances. The total will not match the total number of consumers with a secondary disability as a consumer may have more than one secondary disability.

3.8 Support Requirements

All employment service outlets reported the frequency of support/assistance needed for each of their consumers in ten core areas of activity: self care, mobility, communication, home living, social skills, self direction, managing emotions, learning, working and other day activity. The frequency of support/assistance for consumers in these ten core areas of activity was recorded on five levels: none, occasional, frequent, continual and not known.

The combination of self-care, mobility and communication are commonly known as 'activities of daily living'.

Table 23FY shows most consumers required some assistance in working, whereas more than 60% of consumers do not require any assistance with mobility.

Consumers requiring a high degree of assistance were more likely to be assisted by supported employment services. Consumers who required less assistance were more likely to be assisted by open employment services.

See Table 23 (Appendix) for Consumers 'on the books' figures.

Most consumers with an intellectual, psychiatric or physical disability required minimal support in the activities of daily living but required some degree of assistance in working.

See Table 24 (Appendix) for Consumers 'on the books' figures. See also Tables 25 and 26.

3.9 Living Arrangements

Information was collected on consumers living arrangements. Living arrangements/ accommodation refers to the type of physical accommodation in which the consumer usually resides. The categories are based on ABS definitions –

- **Community** – which includes living alone, with family or a spouse or special purpose disability community accommodation (eg: group homes, disability hostels, community residential units).
- **Institutional** – includes nursing home and hospital accommodation.
- **No usual residence** – homeless or crisis/transitional accommodation.
- **Not known.**

63% of consumers live at home with family or a spouse.
19% live alone.
12% live in special purpose or community accommodation.
2% live in institutional accommodation.
1% reported no usual residence.
4% not known.

Table 27FY shows most consumers live at home with a spouse or family members or live alone. Less than 15% of consumers live in special purpose or community accommodation. The ratios for females and males are very similar. 62% of females and 63% of males live with a spouse or family member whilst 18% of both females and males live alone. 12% of females and 11% of males live in special purpose or community accommodation.

See Table 27 (Appendix) for Consumers 'on the books' figures.

Table 28FY: All Consumers: Living Arrangement/Accommodation Type by Primary Disability Group

Total	9,887	33,669	4,109	2,176	72	148	720	345	2,301			53,427

Table 28FY shows of those consumers who **live at home** with family or a spouse –

- 49% have a primary intellectual disability;
- 16% have a primary physical disability;
- 14% have a primary psychiatric disability.

In relation to consumers who **live alone** –

- 31% have a primary intellectual disability;
- 31% have a primary psychiatric disability;
- 18% have a primary physical disability.

Of those consumers living in **special purpose accommodation** –

- 76% have a primary intellectual disability.

Consumers with a psychiatric disability are more likely to be living alone (32%) compared to consumers with an intellectual disability (12%) or physical disability (22.5%).

Furthermore, consumers with a psychiatric disability are less likely to be living with family or a spouse (48%) compared with 65% of consumers with an intellectual disability and 66% of consumers with a physical disability.

See Table 28 (Appendix) for Consumers ‘on the books’ figures. See also Tables 56, 57, 59 (Appendix) for more information on consumer living arrangements.

4 Consumer Income and Employment

Consumer Income

4.1 Main Source of Income for Consumers

Figure 4.1.1FY: All Consumers: Main Income Source by State/Territory

Figure 4.1.1 shows the Disability Support Pension (DSP) is the main source of income for the majority of consumers in all States and Territories. See Table 31FY.

The Disability Support Pension was the predominant source of income for 63% (33,410) of consumers, followed by paid employment 21% (11,195) and Newstart/Youth Allowance 6% (3,115).

Table 31FY shows the **Disability Support Pension** was the main source of income for –

- 46% of consumers being assisted by an open employment service outlet;
- 94% of consumers receiving assistance from a supported employment service outlet;
- 64% of consumers being assisted by a dual open/supported employment service outlet.

Paid employment was the main source of income for –

- 31% of consumers being assisted by an open employment service outlet;
- 3% of consumers receiving assistance from a supported employment service outlet;
- 17% of consumers receiving assistance from a dual open/supported employment service outlet.

In all States/Territories the Disability Support Pension was the main source of income for consumers. Tasmania and South Australia had the highest proportion of consumers for whom the Disability Support Pension was their main source of income, with 77% and 76% respectively. Closely followed by Western Australia 69%, New South Wales 64%, Queensland 59%, Victoria 57% and the Australian Capital Territory 56%. The Northern Territory had the lowest proportion with 44%.

The Northern Territory and Queensland had the highest proportion of consumers whose main source of income was paid employment with 24% each, followed by Victoria 22%, Western Australia 21% and New South Wales 21%. The Australian Capital Territory, Tasmania and South Australia each recorded only 15% of consumers whose main source of income was paid employment.

Newstart/Youth Allowance was the main source of income for 9% of consumers in Victoria. In the other States and Territories Newstart/Youth Allowance was the main source of income for equal to or less than 5% of consumers.

See Table 31 (Appendix) for Consumers ‘on the books’ figures.

See Figure 1.8.2FY.

Table 58FY shows 57% of consumers whose main source of income is the Disability Support Pension, had a primary intellectual disability, 17% had a psychiatric disability and 12% had a physical disability.

33% of those consumers whose main source of income was Newstart/Youth Allowance, had a primary psychiatric disability, 29% had a physical disability and 17% had an intellectual disability.

Among consumers whose main source of income was paid employment, those with an intellectual disability were the largest group at 37%, followed by consumers with a physical disability 18% and consumers with a psychiatric disability 17%.

See Table 58 (Appendix) for Consumers ‘on the books’ figures.

4.2 Pensions & Allowances

Table 29FY: All Consumers: Employment Service Outlet Type by Pension/Benefit

<i>Pension/Benefit</i>	<i>Employment Service Outlet Type</i>						<i>Total</i>	<i>% of Full FY Population</i>
	<i>Open</i>	<i>% of consumers in Open</i>	<i>Supported</i>	<i>% of consumers in Supported</i>	<i>Open & Supported</i>	<i>% of consumers in Open and Supported</i>		
DSP	19,790	61%	16,074	97%	3,284	75%	39,148	73.27%
NewStart/ Youth Allowance	3,463	11%	80	1%	338	7%	3,881	7.26%
Mobility Allowance	1,251	4%	4,737	28%	226	5%	6,214	11.63%

Note: Consumers may only receive one pension or allowance plus the mobility allowance

Table 29FY shows 43,029 consumers assisted during the 1999/2000 financial year received the Disability Support Pension or Newstart/Youth Allowance. 6,214 consumers received Mobility Allowance which may be in addition to the Disability Support Pension or Newstart/Youth Allowance.

Approximately 50% of consumers receiving the Disability Support Pension were supported by open employment services. The majority of consumers receiving Newstart/Youth Allowance were also assisted by an open employment service outlet (89%). The majority of consumers receiving the Mobility Allowance, were assisted by a supported employment service outlet (76%). See Figure 1.8.1FY.

See also Table 29 (Appendix) for Consumers ‘on the books’ figures.

Table 30FY: All Consumers: Pension/Benefit by State/Territory

State/ Territory	<i>Pension/Benefit</i>						<i>Total Consumers</i>

Total	39,148	73%	3,881	7%	6,214	12%	53,427

Note: Consumers may only receive one pension or allowance plus the mobility allowance

Table 30FY shows the proportion of consumers receiving the DSP ranged from 51% in the Northern Territory, to 86% in Tasmania. Western Australia and South Australia had more than 80% of consumers receiving the DSP. The national average was 73% of consumers receiving the DSP.

See also Table 30 (Appendix) for Consumers 'on the books' figures.

4.3 Employment Phase

This section of the report provides a snapshot of the employment situation (phase) of Consumers on the books on Census Day.

Four main categories were used to collect data on employment phase:

- **Worker** - a consumer who has been offered a contract of employment and has accepted that contract with an employer in open or supported employment.
- **Work Experience** - a consumer who is undertaking paid or unpaid work experience or work trial.
- **Job Seeker** - a consumer who receives support from a service to prepare them for employment and/or to help place them in employment.
- **Independent Worker** - a consumer who the service assisted to obtain employment during the previous funding year, who continues to work but received no employment assistance from the service outlet during the current funding year.

Table 26: Consumers on the Books: Support/Assistance Needed by Employment Phase

Total	4,800	3,340	3,133	6,433	3,500	3,546	3,275	3,106	8,163

The majority of workers required minimal assistance in the activities of daily living. However, 88% required some degree of assistance with working. Similarly, 81% of job seekers required some degree of support in working.

Workers and job seekers were most likely to require support in the areas of working, self-direction, managing emotions and behaviour and learning.

Table 32 shows 59% of workers in 2000 had an intellectual disability and 12% had either a physical or psychiatric disability.

81% of consumers with a primary intellectual disability were workers, and 18% were job seekers.

57% of consumers with a primary physical disability were workers and 41% were job seekers.

50% of consumers with a primary psychiatric disability were workers and 48% were job seekers.

Table 33 shows 66% of Consumers 'on the books' were classified as Workers and 30% as Job Seekers on 30 June 2001.

48% of open employment service consumers were workers on Census Day, 46% were job seekers and 4% were independent workers. The remaining 2% were on work experience or 'other' (including volunteer workers).

97% of supported employment service consumers were workers, 2% were job seekers and the remainder were independent workers, on work experience or 'other'.

The proportion of consumers of open employment services who were workers (including Independent Workers) on Census Day ranged from 37% in the Northern Territory to 64% in Western Australia. The average was 51%, and all other services ranged between 47% and 54%.

The proportion of consumers of supported employment services who were workers (including Independent Workers) on Census Day ranged between 82% in Queensland and 100% in Tasmania. The average was 95%.

Western Australia and South Australia had the highest proportion of consumers who were 'workers' on Census Day, with 77% and 76% respectively. The Northern Territory and Victoria had the lowest proportion with 56% and 58% respectively.

Employed Consumer Information

Employed consumer information is drawn entirely from Consumers 'on the books' data.

Employed Consumer A worker or independent worker on Census Day.

Please see the glossary for definitions of worker and independent worker.

4.4 Demographics

26% of employed consumers are under 25 years of age.
 44% of employed consumers are aged between 25-39 years.
 20% of employed consumers are aged between 40-49 years.
 10% are 50 years of age or above.

65% of employed consumers are male. 35% are female. This compares to 64% of total consumers who are male and 36% who are female. 44% of employed consumers were assisted by an open employment service outlet. 47% were assisted by a supported employment service outlet and 9% were assisted by a dual open/supported employment service outlet.

4.5 Primary Disability

Table 46: Employed Consumers: Employment Setting by Primary Disability Group

<i>Primary Disability Group</i>	<i>Employment Setting</i>			<i>Total</i>
	<i>Supported Employment Setting</i>	<i>Open Labour Market</i>	<i>Other Setting</i>

ABI	393	543	20	956
Total	16,634	14,328	418	31,380

Table 46 shows 59% of employed consumers have an intellectual disability as their primary disability. 12% of employed consumers have a physical disability and 12% had a psychiatric disability.

Employed consumers with an intellectual disability are more likely to be employed in a supported employment setting (68%) than consumers with a physical disability (34%) or psychiatric disability (32%).

Two thirds of consumers with a physical or psychiatric disability were working in the open labour market, whilst only 31% of employed consumers with an intellectual disability work in the open labour market.

Table 42 shows 55% of employed consumers with an intellectual disability, earned \$1-\$60 per week. Across other primary disability groups, the proportion of consumers earning \$1-\$60 per week was considerably less, ranging from 9% for hearing to 47% for autism.

45% and 46% of hearing and vision impaired consumers (respectively) earned over \$300 per week. 10% and 12% of employed consumers with intellectual disability or autism as their primary disability earned over \$300. Between 20% and 30% of consumers in the other disability groups earned more than \$300 per week. See Figure 4.6.2.

See Table 57 (Appendix) for the level of support/assistance required by employed consumers according to their living arrangements.

4.6 Weekly Wage

Figure 4.6.1: Employed Consumers: Weekly Wage by Sex

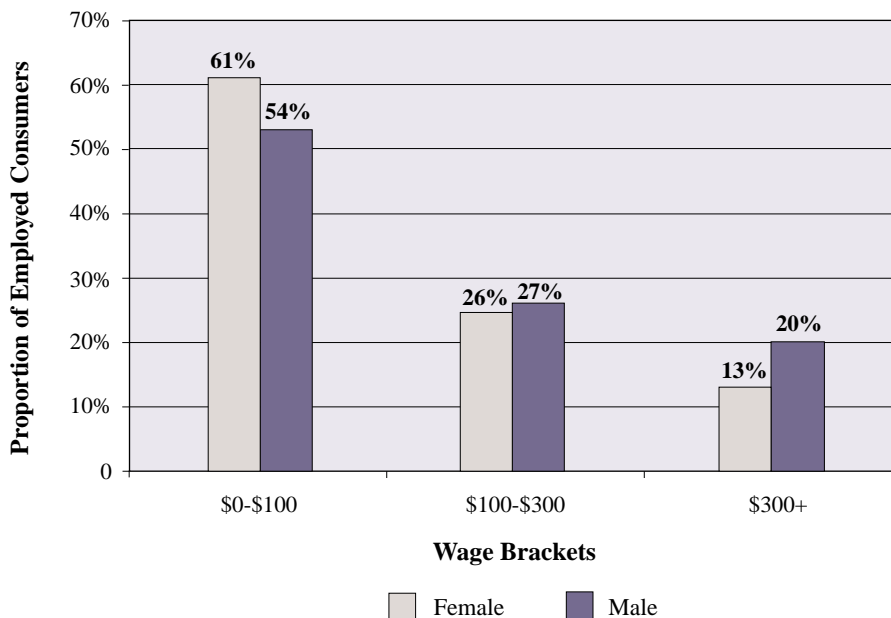

Figure 4.6.1 shows more than half of all employed consumers earned less than \$100 per week. 20% of males earned more than \$300 per week, while only 13% of females earned more than \$300 per week. See Table 40.

Table 36 shows for all employed consumers, the most common wage range was \$41-\$60 per week, with 17% of employed consumers in this bracket. See Figure 1.11.1 and 4.6.1.

46% of employed female consumers earned \$1-\$60 per week, compared with 38% of employed male consumers (these figures exclude No Wage consumers). See Tables 40 and 41.

Within the States/Territories the most common wage range varied. In New South Wales, Victoria, South Australia and Northern Territory the most common range was \$41-\$60 per week; Western Australia and Tasmania was lower at \$21-\$40 per week; and Queensland at \$1-\$20 per week. The Australian Capital Territory was the highest with the most common wage range being \$101-\$150 per week.

Within the group of employed consumers being assisted by an open employment service outlet –

- 18% earned \$1-\$100 per week;
- 46% earned \$101-\$300 per week;
- 36% earned more than \$300 per week.

Within the group of **employed consumers** being assisted by a **supported employment service outlet** –

- 41% earned \$1-\$40 per week;
- 44% earned \$41-\$80 per week;
- 14% earned \$81-\$300 per week.

Table 60 shows for employed consumers –

- 38.6% are paid under a full award wage;
- 8.5% are paid in accordance with the Supported Wage System (SWS) Productivity Based wage;
- 6.8% are paid some other pro-rata productivity wage; and
- 10.1% are paid under an enterprise or certified agreement;
- 4.2% are paid under an individual workplace agreement;
- 31.9% are paid a wage not based on an award.

The most common wage range for those consumers employed under a full award wage was over \$400 per week and for those consumers receiving a SWS Productivity based wage it was \$41-\$60 per week.

Figure 4.6.2: Employed Consumers: Wage Distribution by Primary Disability Group

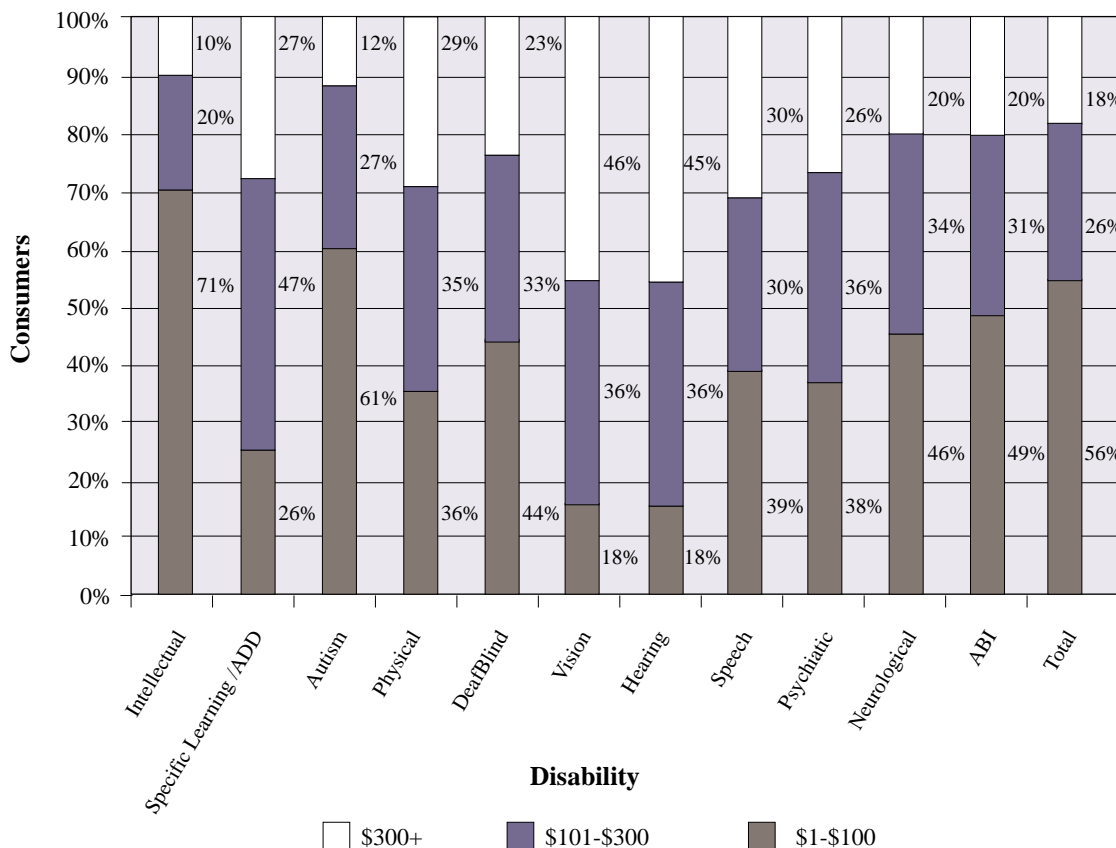

Figure 4.6.2 shows the proportion of employed consumers in each wage bracket differed according to primary disability. For example, 71% of consumers with an intellectual disability earned less than \$100 per week whereas only 18% of consumers with a hearing or vision primary disability earned less than \$100 per week.

4.7 Weekly Hours

Figure 4.7.1: Employed Consumers: Hours Worked per Week

Figure 4.7.1 shows a much higher proportion of male than female consumers worked 31-40 hours per week.

Total	475	6,014	9,119	15,487	285	31,380

Across all States and Territories, with the exception of the Australian Capital Territory, the largest proportion of consumers worked between 31-40 hours per week. This ranged from 43% in Victoria to 57% in South Australia.

In the Australian Capital Territory, the largest proportion of consumers (40%) worked 16-30 hours per week. 30% of consumers worked 31-40 hours per week.

29% of employed consumers worked 16-30 hours per week and 19% worked between 8-15 hours per week. 2% of employed consumers worked less than 8 hours per week and less than 1% of employed consumers worked more than 40 hours per week.

Table 41 shows the average hours worked across all wage categories was 27.33 hours per week. Consumers who earned more than \$400 per week had the highest average hours worked with 37.12 hours per week.

On average, females worked fewer hours than males (25.48 hours per week compared to 28.34 hours per week).

54% of males worked more than 31 hours per week, compared to 42% of female employed consumers.

4.8 Employment Setting

- Open** The consumer is employed in the open labour market.
- Supported** The consumer is employed by a Commonwealth disability employment service.
- Other** Another work arrangement.

Table 45 shows 53% of employed consumers were working in a supported employment setting, 46% were working in the open labour market and 1% in 'other' settings.

Figure 4.8.1 Employed Consumers: Employment Setting

52% of male employed consumers were working in a supported employment setting, 47% were working in the open labour market and 1% were working in an ‘other’ setting.

The proportions are similar for female employed consumers, 55% were working in a supported employment setting; 44% were working in the open labour market and 1% in ‘other’ settings.

Younger consumers were more likely to be working in the open labour market; two-thirds of consumers under 25 years of age were working in the open labour market while one third were working in a supported employment setting.

Conversely, two thirds of consumers over the age of 40 years were working in a supported employment setting, and one third were working in the open labour market.

Other institutional accommodation	575	41	16	632
No usual residence	2	116	0	118
Not known or specified	166	630	4	800
Total	16,634	14,328	418	31,380

Table 49 shows the majority of employed consumers (63%) live at home, 16% live alone and 16% live in special purpose/community accommodation.

Among the 63% of employed consumers who live with family, 47% work in a supported employment setting and 52% work in the open labour market.

Of the 16% of employed consumers who live alone, 45% work in a supported employment setting and 3% work in the open labour market.

Among the 16% of employed consumers living in special purpose accommodation, 90% were working in a supported employment setting.

See also Table 47 (Appendix) for data on the level of support/assistance required by employed consumers within employment settings.

5 Overview of the Census – Explanatory Notes

5.1 Geographical Area

The census covered all Australian States and Territories and both rural and urban areas.

5.2 Scope of Census

The 2000 Commonwealth Disability Services Census recorded information about all 1004 Commonwealth funded disability employment, print disability, advocacy, information and respite care services which were operational on 30 June 2000 and received funding in 1999/2000. Thus, the tables included in this report indicate total service provision under Commonwealth funded disability programs.

Please note:

- Carer Respite services were included in the 2000 Census for the first time.
- Pilot projects, research and development activities and a small number of services undertaking activities not considered relevant for census purposes were excluded.

5.3 Collection Process

The data collection process was developed in consultation with peak representative disability organisations and the Australian Institute of Health and Welfare, which is the agency responsible for coordinating the Minimum Data Set collection. The questions and associated definitions for the Commonwealth's information collection through the 2000 Commonwealth Disability Services Census were developed to meet its Minimum Data Set responsibilities, under the Commonwealth/State Disability Agreement.

5.4 Conduct of the Census

Census Day Friday, 30 June 2000.

Census Week The week concluding on Census Day - 24-30 June 2000.

Census Year The year concluding on Census Day – 1 July 1999-30 June 2000.

All Commonwealth funded disability service outlets were required to complete a service form outlining basic facts about the operation of their business on Census Day, Census Week and Census Year.

Employment service outlets were also required to complete a consumer form for each of the consumers they had assisted during the Census Year.

Information was collected from services using a paper based questionnaire or custom made PC based data collection software. The software allowed manual data entry or import of data from the services business software. Services were also able to pre-populate certain fields with data from the 1999 Census.

5.5 Reliability of Census Data

Sampling error

As a full collection of Commonwealth funded disability employment, print disability, advocacy, information and respite care services was undertaken, random sampling error is not relevant to this data collection.

Non-sampling error

There are two major sources of non-sampling error relevant to the census:

- Response error on the part of the services and consumers. These errors may arise through ambiguous questions, misunderstanding or misinterpretation of responses required and data definitions, inability or unwillingness to provide accurate information and mistakes in answers to questions.

A number of processes were put in place to minimise the incidence of response errors. These include improved awareness and understanding of the data items and definitions used in the collection, improved help to services through a telephone help line service, stringent edit checking processes for the electronic collection instrument and rigorous follow-up with services of census return information. These measures have minimised the potential incidence of response errors.

- Errors arising through the data entry process.

Data entry errors have been minimised with the continued use of the electronic census data collection and upload systems. Electronic service returns were entered directly into the upload system (without keying) where extensive editing and quality control checking was automatically performed.

A possible source of non-sampling error may be the information management practices of services.

6 Glossary of Terms

Advocacy Service: These services are designed to enable people with a disability to increase the control they have over their lives through the representation of their interests and views in the community. Examples of this service include - Self advocacy/individual advocacy, Citizen advocacy, Group advocacy, System/systemic advocacy.

AIHW: Australian Institute of Health and Welfare

Applicant: An applicant is a person who has been accepted by an agency for receipt of service but has not yet received any pre-employment or job support.

Areas of Support/Assistance: Areas in which a person with a disability requires support or assistance, and the frequency of the support.

Areas of Support:

Self Care (eg eating, toileting)

Mobility (ie. around the home or away from home)

Communication (eg. understanding or being understood by strangers/family/friends/staff - in the person's native language if applicable)

Home Living (eg. housekeeping, cooking, budgeting, home maintenance)

Managing emotions (eg. behaviour/coping with feelings)

Social skills (eg. making and keeping friends/relationships)

Self direction (eg. thinking through problems/making decisions)

Learning (eg. both formal education and general understanding of new ideas)

Other day activity (eg. ability to participate in leisure, recreation)

Frequency of support:

Never - no support needed to undertake task/participate - requires no support or assistance in the area specified.

Occasional - requires minimal support and/or assistance in the area specified ie. usually does not require support.

Frequent - requires substantial and/or frequent support and/or assistance in the area specified ie. usually requires support.

Continual - requires extensive and continuous support and/or assistance ie. the person cannot perform the tasks(s) without support or assistance, or cannot perform them at all.

Not applicable - due to age only, where the need for help is not relevant due to the consumer's age.

Not known

Census Day: Friday, 30 June 2000.

Census Week: The week concluding on Census Day – 24-30 June 2000.

Census Year: The year concluding on Census Day – 1 July 1999-30 June 2000.

Consumer: A Consumer is a person with a disability who is registered as receiving support from a service. Consumers may receive varying amounts of support from ongoing intensive support to periodic or minimal support. This can include workers considered independent but who received support within the two years prior to the census.

All Consumers: The 2000 Commonwealth Disability Services Census recorded information about 53,427 consumers who received assistance from Commonwealth disability employment services between 1 July 1999 and 30 June 2000. These are referred to as 'All Consumers' and Tables and Figures referring to all consumers have the suffix 'FY'.

Consumers 'on the Books': Data about consumers employment situation was collected for those 45,950 consumers 'on the books' of a service on 30 June 2000. These consumers are referred to as consumers 'on the books'.

Employed Consumers: A worker or independent worker on census day.

CSDA: Commonwealth/State Disability Agreement. This Agreement defines the roles of the Commonwealth, State and Territory Governments in the administration of services for people with a disability in Australia. The Agreement also states the need for nationally comparable disability data to underpin improved planning efforts – the Minimum Data Set.

Direct Support Staff: Those staff that have direct contact with the consumers in a support role. This includes coordinators and other staff who spend a major proportion of their time in direct consumer contact.

Independent Worker: A consumer who the service assisted to obtain employment during the previous funding year, who continues to work but receives no employment assistance from the service outlet during the current funding year.

Indirect Support Staff: Those staff who have no, or only a minimal, direct supporting role eg. clerical staff, training personnel, board members, etc.

Information Service: A service that provides accessible information to people with disabilities, their carers, families and related professionals. This service type provides specific information about disabilities, specific and generic services, and equipment, and promotes the development of community awareness.

Job Seeker: A consumer who receives support from a service to prepare them for employment and/or to help place them in employment. Their support may include assessment, pre-employment training, job search, etc.

MDS: The Minimum Data Set. This is a collection of nationally consistent data on disability services funded and/or provided by each State and Territory Government and the Commonwealth under the Commonwealth/State Disability Agreement. The Australian Institute of Health and Welfare consolidates and publishes the data collected by individual jurisdictions.

‘On the books’: Consumers are considered to be ‘on the books’ when they are registered and have commenced a support program with a service. Excludes applicants and inactive consumers.

Not ‘on the books’: Consumers who were registered with a service during the financial year but who were deregistered prior to census day. (Consumers who had not been registered at any point during the year would not be included in the census.)

Open Employment Service: Services which provide employment assistance to people with a disability in obtaining and/or retaining paid employment.

Open Employment setting: Employment setting where a consumer is employed by an employer in the open labour market.

Open and Supported Employment Service: Services which provide both open and supported employment services.

Paid Staff: Staff who are paid for their work.

Print Disability Service: Services that provide alternative formats of communication for people who, by reason of their disabilities, are unable to access information provided in a print medium.

Respite Care Service: FaCS funded respite care is aimed at increasing the provision of immediate and short term respite to carers of young people with severe or profound disabilities.

Service Outlet: A service funded by the Commonwealth to provide Advocacy, Information, alternative forms of communication (Print Disability), Respite Care or Employment assistance to people with a disability. Each service outlet must be funded under a separate grant and have its own performance indicators.

Supported Employment Service (Business Service): A service which supports the paid employment of people with disabilities for whom competitive employment at or above the relevant award wage is unlikely and because of their disabilities, need substantial ongoing support to obtain paid employment.

Supported Employment setting: Employment setting where a consumer is employed by the service provider, or another Commonwealth employment service provider (typically the service supports, employs and pays the consumer).

Unpaid Staff: Staff that receive no pay for their work, this includes volunteers.

Worker: A consumer who has been offered a contract of employment and has accepted it with an employer in open or supported employment.

Work Experience: A consumer who is undertaking paid or unpaid work experience or work trial.

7.7 Feedback on the 2000 Commonwealth Disability Services Census Report

7.1 The Accessibility/Remoteness Index of Australia

The Accessibility/Remoteness Index of Australia (ARIA) has been used to classify the remoteness and accessibility of Commonwealth funded disability services.

Remoteness/accessibility values for localities are derived from the road distance to service centres of greater than 5,000 in population in four categories of population size. This provides a detailed yet simple and stable measure of remoteness/accessibility over time.

There are five classifications of remoteness/accessibility using the ARIA index:

- **Highly Accessible** – localities with relatively unrestricted access to a wide range of goods and services and opportunities for social interaction.
- **Accessible** – localities with some restrictions to access of goods, services and opportunities for social interaction.
- **Moderately Accessible** – localities with significant restricted access to goods, services and opportunities for social interaction.
- **Remote** – localities with very restricted access to goods, services and opportunities for social interaction.
- **Very Remote** – locationally disadvantaged areas, with very little access to goods, services and opportunities for social interaction.

7.2 Statistical Linkage Key Analysis

The statistical linkage key permits the analysis of multiple service episodes by individual clients, while maintaining confidentiality. The linkage key is a composite of letters of the first name, surname, date of birth and sex of the consumer, with the following structure:

First name	2 nd + 3 rd Letters
Surname	2 nd + 3 rd + 5 th Letters
Date of Birth	MMDDYY
Sex	1 for M or 2 for F
Linkage	F _n (2 nd +3 rd)+S _n (2 nd +3 rd +5 th)+MMDDYY+1 or 2

An example is:

First name: <u>JOHN</u>	OH
Surname: <u>FITZGERALD</u>	ITG
Date of Birth: 10/08/36	100836
Sex: MALE	1
Linkage Key: 2 nd +3 rd +2 nd +3 rd +5 th +MMDDYY+M/F	OHITG1008361

Linkage key uses:

The linkage key allows the estimation of the number of individuals with a disability assisted instead of the instances of service provided to consumers. This estimation assists Commonwealth and State/Territory governments in planning the provision of a range of disability services.

Duplicate or multiple instances of a linkage key across services may be an indicator of multiple service use by a single consumer. It may also be an indicator of consumer mobility of during the financial year or duplicate records within the system.

Generally the linkage key should be quite unique since it is unusual to find two people with the same name, date of birth and sex (in the same state/city). However, there are two possible situations that can take place which will either generate a false duplicate or fail to identify one:

Case 1: False duplicate – two people taken to be one. As noted below the position of the linkage key letters for name and surname coincide in both names causing a duplicate Linkage Key:

**CARL REMUS BORN 11/06/45 MALE and
LARS DEMAS BORN 11/06/45 MALE**

With the same Linkage key: AREMS1106451

Case 2: Duplicate not detected – One person appears with two different names (aliases). As noted below the records may indeed refer to the same person but are counted as two different consumers.

**JOHN FITZGERALD BORN 10/08/36 MALE
JACK FITZGERALD BORN 10/08/36 MALE**

With different linkage keys: OHITG1008361 and ACITG1008361

2000 Commonwealth Disability Services Census

DEPARTMENT OF
FAMILY AND
COMMUNITY
SERVICES

SERVICE OUTLET FORM

(Please correct any errors in the name and address details above. See Data Guide page 1)

Confidentiality

Completed forms remain confidential to the Commonwealth Department of Family and Community Services. Commercial and personal information of individual services and consumers will not be released outside the terms of the advice provided.

Data Guide

Please refer to the Data Guide for assistance with filling in the forms and for clarification of definitions.

Help Desk

If you have any problems in completing the forms, or need any further explanation, please contact the Help Desk on **1800 772 686**.

Snapshot Date

The reference date is **Friday, 30 June 2000**. Snapshot information must be in relation to this date, but forms need not be completed *on* snapshot day. If your service outlet will not be open on snapshot day, an alternative typical day within the same week should be chosen, and should be noted in the comments field.

Due Date

The due date for the return of census forms is **Friday, 28 July 2000**. Please complete this form and return it, with the appropriate number of completed 'Consumer Forms', **via registered post** by the due date and in accordance with the terms and conditions of your funding agreement.

Return Address

Please forward all forms to the **2000 Commonwealth Disability Services Census, Department of Family and Community Services, Attention Celia Poole, Disability Service Reforms Branch, TOP-CE3, PO Box 7788, Canberra Mail Centre, ACT 2610**.

Contact person in your organisation for any queries

(see Data Guide page 2)

Name	Mr Mrs Miss Ms		
	Title or Position		()
	e-mail address		()
		First name Surname	Signature
			STD code Telephone no.
			STD code Fax no.

1. STAFF HOURS. Please enter total HOURS worked by staff and volunteers during the week. FROM Saturday, 24 JUNE 2000 UP TO AND INCLUDING Friday, 30 JUNE 2000.

		(total hours)	<i>(see Data Guide page 2)</i>
Paid staff	- direct support	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	
	- indirect support	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	
Unpaid staff	- direct support	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	
	- indirect support	<input type="text"/> <input type="text"/> <input type="text"/> <input type="text"/>	

2. Has this service operated for the FULL 1999/2000 FINANCIAL YEAR?

(see Data Guide page 3)

Yes No

3. How many HOURS A DAY does this service usually operate?

(see Data Guide page 4)

• hours

- no regular daily pattern of operation

4. How many DAYS A WEEK does this service usually operate?

(see Data Guide page 4)

• days

- no regular weekly pattern of operation

5. How many WEEKS A YEAR does this service usually operate?

(see Data Guide page 4)

weeks

- no regular annual pattern of operation

**IF YOUR SERVICE OUTLET TYPE IS Advocacy (2.01), Information (2.02), or Print Disability (2.12) as per service outlet type specified on the label on the front of this form,
DO NOT ANSWER ANY MORE QUESTIONS, FINISH HERE.**

Otherwise, please continue.

6. NUMBER OF CONSUMERS. Please enter the number of consumers receiving a service for each time period below, excluding applicants and people on waiting lists.

(see Data Guide page 5)

a) How many consumers **actually received support** on Friday, 30 June 2000?

--	--	--

b) Approximately how many consumers are supported on a **typical operating day**?

--	--	--

c) How many consumers were listed with your service as **receiving employment assistance program support** during the 1999/2000 financial year? (include independent workers and consumers that may have been inactive as at 30 June 2000).

--	--	--

(Performance Report)

Please complete one ‘Consumer Form’ for each person counted in 6c.

d) How many consumers were supported **during the week** from Saturday, 24 June 2000 up to and including Friday, 30 June 2000?

--	--	--

7. REFERRALS. Please enter the total number of consumers referred to your service outlet during the financial year 1 July 1999 to 30 June 2000.

(see Data Guide page 6)

Centrelink Accepted and Commenced

--	--	--

 a)

Not Accepted

--	--	--

 b)

(Performance Report)

Other Accepted and Commenced

--	--	--

 c)

Not Accepted

--	--	--

 d)

8. Please indicate the number of CONSUMERS 'ON THE BOOKS' as at Friday, 30 June 2000, against the categories below. [snapshot of Job Seekers and Workers]

a) The number of **Eligible Job Seekers.**

(see Data Guide page 7)

b) The number of **workers meeting the worker target** (ie the number of workers employed for at least 8 hours and at least 3 months).

(Performance Report)

c) The number of **workers not meeting the worker target** (ie the number of workers employed for less than 8 hours and less than 3 months).

d) The number of **Independent workers** (ie consumers not receiving employment assistance in 1999/2000 but still registered with your service).

e) The number of Consumers '**on the books**'
a) + b) + c) + d) = e) Computed Item.

YOUR COMMENTS

Please provide any comments or suggestions regarding the Census in the space below.

.....

.....

2000 Commonwealth Disability Services Census

CONSUMER FORM TARDIS ID A
 Form number B *(see Data Guide page 6)*

PLEASE REFER TO THE DATA GUIDE FOR ASSISTANCE AND DEFINITIONS

C. What is the consumer's FIRST NAME?

What is the consumer's SURNAME?

(see Data Guide page 10)

The second and third letters of the consumer's FIRST NAME and the second, third and fifth letters of the consumer's SURNAME will construct a statistical linkage key to estimate National service utilisation and will be used in a confidential manner (see shaded boxes above).

D. Is this consumer registered 'ON THE BOOKS' with your service as at 30 June 2000?

Yes 1 No 2 *(see Data Guide page 11)*
(Performance Report)

E. Which source REFERRED this consumer to your service during 1999/2000?

(Tick ONE box only) *(see Data Guide page 11)*
(Performance Report)

Centrelink 1 Other 2 Not Referred 3
 in 1999/2000

Note: Please keep a tally of the number of forms marked 'Centrelink' and 'Other', as it should match the number of consumers recorded in Question 7a and 7c respectively on the Service Outlet Form.

F. Is this consumer participating in the CASE BASED FUNDING TRIAL?

(Tick ONE box only) *(see Data Guide page 12)*

Yes Funded Trial 1 No Virtual (Grant Funding) 2
 Grant Funding 3

1. What is the consumer's DATE OF BIRTH?

(see Data Guide page 12)

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>
<i>d</i>	<i>d</i>	<i>m</i>	<i>m</i>	<i>y</i>	<i>y</i>	<i>y</i>	<i>y</i>

2. What is the consumer's SEX?

Male 1

(see Data Guide page 13)

Female 2

3. In which COUNTRY WAS THE CONSUMER BORN?

(Tick ONE box only)

(see Data Guide page 13)

Australia 01

Scotland 06

Other 11

England 02

Greece 07

(Please specify)

New Zealand 03

Germany 08

.....

Italy 04

Philippines 09

Not Known 12

Vietnam 05

Netherlands 10

4. Is the consumer of ABORIGINAL, TORRES STRAIT ISLANDER OR AUSTRALIAN SOUTH SEA ISLANDER origin?

(see Data Guide Page 14)

No 1

Yes - Aboriginal 2

Yes - Torres Strait Islander 3

Yes - Australian South Sea Islander 4

Not known 5

9. What is the consumer's PRIMARY DISABILITY GROUP?

(see Data Guide
Page 17)

(Tick the ONE category which has the most effect on the person's every day life)

- | | | | | | |
|--|--------------------------|---|--------------------------|--------------------------|----|
| Intellectual | <input type="checkbox"/> | 1 | Hearing | <input type="checkbox"/> | 7 |
| Specific learning/ADD
- other than intellectual | <input type="checkbox"/> | 2 | Speech | <input type="checkbox"/> | 8 |
| Autism | <input type="checkbox"/> | 3 | Psychiatric | <input type="checkbox"/> | 9 |
| Physical | <input type="checkbox"/> | 4 | Neurological | <input type="checkbox"/> | 10 |
| Deafblind | <input type="checkbox"/> | 5 | Acquired brain
injury | <input type="checkbox"/> | 11 |
| Vision | <input type="checkbox"/> | 6 | | | |

If you had difficulty choosing the category for Primary Disability Group, please also write the consumer's primary condition in the space provided

.....

10. Does the consumer have any OTHER SIGNIFICANT DISABILITY GROUP(S)?

(see Data Guide
page 20)

- | | | | | |
|-----------|--------------------------|---|---|--|
| Yes | <input type="checkbox"/> | 1 | | |
| No | <input type="checkbox"/> | 2 | → | If you have ticked 'No' or 'Not known' please go straight to |
| Not known | <input type="checkbox"/> | 3 | → | Question 12 |

11. Please tick ALL OTHER applicable SIGNIFICANT DISABILITY GROUP(S) (Other than the disability group ticked in question 9)

(see Data Guide
page 20)

- | | | | | | |
|--|--------------------------|---|--------------------------|--------------------------|----|
| Intellectual | <input type="checkbox"/> | 1 | Hearing | <input type="checkbox"/> | 7 |
| Specific learning/ADD
- other than intellectual | <input type="checkbox"/> | 2 | Speech | <input type="checkbox"/> | 8 |
| Autism | <input type="checkbox"/> | 3 | Psychiatric | <input type="checkbox"/> | 9 |
| Physical | <input type="checkbox"/> | 4 | Neurological | <input type="checkbox"/> | 10 |
| Deafblind | <input type="checkbox"/> | 5 | Acquired brain
injury | <input type="checkbox"/> | 11 |
| Vision | <input type="checkbox"/> | 6 | | | |

If you had difficulty choosing the category for Other Significant Disability Group, please also write the consumer's other condition(s) in the space provided

.....

12. How much SUPPORT OR ASSISTANCE is needed with the activities listed below:

(see Data Guide page 21)

(Tick ONE box only for each category 'a' to 'j', based on the following categories)

Please Note:

- A need for support or assistance may, or may not, be related to the service being received.
- Answer for all areas, though some may appear less appropriate for an individual person than other areas. They are intended to cover people with any disability(s) receiving any service type(s).

	None	Occasional	Frequent	Continual or the consumer cannot do at all	Not known
(a) Self-care eg. Eating, toileting, bathing, dressing	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(b) Mobility around the home or away from home	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(c) Communication ability to make self understood and to understand others	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(d) Home living eg. Handling money, budgeting, housekeeping, cooking, home maintenance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(e) Social skills eg. Making and keeping friends/relationships, interacting with others	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(f) Self-direction eg. Thinking through problems making decisions, responsibility for actions	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(g) Managing emotions and behaviour eg. behaving within accepted limits, coping with feelings	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(h) Learning eg. understanding new ideas, formal education, remembering, participating in learning activities	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(i) Working obtaining and retaining work in either open or supported employment, ability to perform tasks related to their job	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
(j) Other day activity eg. leisure activities, recreation alternatives to paid employment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

13. Is the consumer in receipt of any of the following PENSIONS/BENEFITS?

(see Data Guide page 22)

(Tick ONE box only for each category 'a' to 'c', based on the following categories)

	Yes (1)	No (2)	Not known (3)
a) Disability Support Pension	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Newstart/Youth Allowance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Mobility Allowance	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

14. Please indicate the consumer's MAIN INCOME SOURCE

(see Data Guide page 23)

- not that of any partner or other household member

(Tick ONE box only)

Disability Support Pension	<input type="checkbox"/> 1	Paid employment	<input type="checkbox"/> 5
Newstart / Youth Allowance	<input type="checkbox"/> 2	Compensation income	<input type="checkbox"/> 6
Mobility Allowance	<input type="checkbox"/> 3	Other income	<input type="checkbox"/> 7
Other pension/benefit	<input type="checkbox"/> 4	Nil income	<input type="checkbox"/> 8
		Not known	<input type="checkbox"/> 9

15. Did this consumer RECEIVE SUPPORT TODAY (30 June 2000)?

(see Data Guide page 23)

Yes 1 No 2

Note: Please keep a tally of the number of forms marked 'Yes', as it should match the number of consumers recorded in Question 6a on the Service Outlet Form.

16. Approximately, when did this consumer COMMENCE RECEIVING ACTIVE SUPPORT from your service? (ie. Accepted and Commenced a support program)
(Eg. March 1999 = 03 1999)

(see Data Guide page 23)
(Performance Report)

If consumer commenced before 1 July 1998, please tick box (do not indicate month and year if ticked)

(If after 06 1999 go to Q20)

Please indicate month and year.

Month Year

If the Consumer commenced receiving active support in or after July 1999 (ie 071999) DO NOT answer Questions 17, 18 or 19. Proceed to Question 20.

17. Was the consumer EMPLOYED during the 1998/99 financial year?

(see Data Guide page 24)
(Performance Report)

Yes 1 No 2

18. Please estimate the consumer's PERIOD OF EMPLOYMENT IN MONTHS during the 1998/1999 financial year

(see Data Guide page 24)
(Performance Report)

Months •

19. Please estimate the consumer's AVERAGE STANDARD HOURS WORKED PER WEEK during 1998/1999 (Estimated to the nearest half hour)

(see Data Guide page 25)
(Performance Report)

Hours •

20. Was this consumer EMPLOYED on both 30 June 1999 and 1 July 1999?

(see Data Guide page 26)
(Performance Report)

Yes 1 No 2

(ie. Was the consumer employed on the last day of the 1998/99 financial year and the first day of the 1999/2000 financial year)

21. Was this consumer EMPLOYED at any time during the 1999/2000 financial year?

Yes 1

No 2

(see Data Guide page 27)

(Performance Report)

(If no, go to Question 24)

**If the Consumer was not employed at any time during the
1999/2000 financial year DO NOT answer
Questions 22 and 23.
Proceed to Question 24.**

**22. Please estimate the consumer's PERIOD OF EMPLOYMENT IN MONTHS during
the 1999/2000 financial year**

(see Data Guide page 27)

(Performance Report)

Months •

Does this period include three months continuous employment?

**23. Please estimate the consumer's AVERAGE STANDARD HOURS
WORKED PER WEEK during the 1999/2000 financial year**

(see Data Guide page 28)

(Performance Report)

(Hours worked should reflect the BASIS OF EMPLOYMENT during 1999/2000)

Hours •

**IF THE CONSUMER IS NOT 'ON THE BOOKS' WITH YOUR SERVICE ON
30 JUNE 2000 FINISH HERE. OTHERWISE, PLEASE CONTINUE.**

24. Please indicate the consumer's PHASE on 30 June 2000 *(Tick ONE box only)*

(see Data Guide page 29)

(Performance Report)

Worker 1

Work experience 2

Job Seeker 3

Independent worker 5

Other 4

(Please specify)

.....

IF THE CONSUMER'S PHASE FOR Q24 IS:
 Work experience (2) **OR**
 Job Seeker (3) **OR**
 Other (4)
DO NOT ANSWER ANY MORE QUESTIONS, FINISH HERE
OTHERWISE, PLEASE CONTINUE.

25. Please indicate the consumer's GROSS WEEKLY WAGE *(see Data Guide page 31)*
(Tick ONE box only)

- | | | | | | | | | |
|---------|--------------------------|---|-----------|--------------------------|----|-----------------|--------------------------|----|
| No Wage | <input type="checkbox"/> | 1 | \$81-100 | <input type="checkbox"/> | 6 | \$301-350 | <input type="checkbox"/> | 11 |
| \$1-20 | <input type="checkbox"/> | 2 | \$101-150 | <input type="checkbox"/> | 7 | \$351-400 | <input type="checkbox"/> | 12 |
| \$21-40 | <input type="checkbox"/> | 3 | \$151-200 | <input type="checkbox"/> | 8 | more than \$400 | <input type="checkbox"/> | 13 |
| \$41-60 | <input type="checkbox"/> | 4 | \$201-250 | <input type="checkbox"/> | 9 | | | |
| \$61-80 | <input type="checkbox"/> | 5 | \$251-300 | <input type="checkbox"/> | 10 | | | |

26. Please indicate the consumer's WAGE LEVEL and CONDITIONS *(see Data Guide page 31)*
(Tick ONE box only)

- | | | | | | |
|---|--------------------------|---|--|--------------------------|---|
| (Full) Award Wage and Conditions | <input type="checkbox"/> | 1 | Enterprise or Certified Agreement which covers wages | <input type="checkbox"/> | 4 |
| SWS productivity based wage | <input type="checkbox"/> | 2 | Individual Workplace Agreement/Employment Contract | <input type="checkbox"/> | 5 |
| Other pro rata/productivity based wage under legal industrial agreement | <input type="checkbox"/> | 3 | Wage not based on Award/Agreement | <input type="checkbox"/> | 6 |

27. On which BASIS is the consumer currently EMPLOYED?

(Hours worked should reflect the BASIS OF EMPLOYMENT)

*(see Data Guide
page 32)*

Full Time - Permanent 1

Full Time - Temporary 5

Part Time - Permanent 2

Part Time - Temporary 6

Casual - Permanent 3

Casual - Temporary 7

Seasonal - Permanent 4

Seasonal – Temporary 8

28. Please indicate the SETTING OF THE CONSUMER'S EMPLOYMENT

(Tick ONE box only)

*(see Data Guide
page 33)*

The consumer is employed by your service or another Commonwealth disability employment service
(typically the service supports and pays the consumer)

1

The consumer is employed by an employer in the open labour market.

2

2000 Commonwealth Disability Services Census

Data Guide: Data Items and Definitions

Preface

This Data Guide is designed to assist all those involved in supplying or analysing data for the June 2000 Disability Services Census.

The Data Guide provides definitions, classifications, comments and justifications for the inclusion of each data item - first those included on the Service Form, then those items on the Consumer Form.

For information regarding employment assistance performance reports and the extraction of performance reporting data from the census data provided, please refer to the User Documentation.

Please read this document as it will help you to complete the forms.

If you have any comments, suggestions or queries on the data definitions, please contact the help desk on 1800 772 686, or feel free to provide them in the comments section of your return.

SERVICE FORM

LABEL

Please check that the details printed on the label are correct, including the service outlet type. The service outlet types relevant to the Commonwealth are coded as follows:

2.00 COMMUNITY SUPPORT non-specified

2.01 Advocacy

Advocacy services are designed to enable people with a disability to increase the control they have over their lives through the representation of their interests and views in the community. Examples include:

- self advocacy/individual advocacy
- citizen advocacy
- group advocacy
- system/systemic advocacy

2.02 Information/referral

Information services provide accessible information to people with disabilities, their carers, families and related professionals. This service type provides specific information about disabilities, specific and generic services, equipment, and promotes the development of community awareness.

2.12 Print disability

Print disability services provide alternative formats of communication for people, who by reason of their disabilities, are unable to access information provided in a print medium.

4.00 RESPITE

4.05 Commonwealth funded respite care

Commonwealth funded respite care is aimed at increasing the provision of immediate and short term respite to carers of young people with severe or profound disabilities.

5.00 EMPLOYMENT non-specified

Services, which provide employment assistance to people with a disability to assist them, obtain and/or retain employment.

5.01 Open Employment Services

Services that assist in the transition of people with disabilities from special education or employment in supported work setting, to paid employment in the workforce in the open labour market.

5.02 Supported Employment Services

(Also known as business services) support the paid employment of people with disabilities for whom competitive employment at or above the relevant award wage is unlikely and because of their disabilities, need substantial ongoing support to obtain paid employment.

5.03 **Open and Supported Employment Service**

Services which provide both open and supported employment assistance.

5.04 **Other Employment Service**

Services which primarily provide employment services for people with a disability which are not covered by the above models.

5.05 **Rehabilitation Service**

Services which primarily provide rehabilitation services for people with a disability. The aim of rehabilitation services is to gain a durable employment outcome and/or an independent living outcome for the consumer.

Comment: The above categories represent those service types relevant to Commonwealth funded services only. There are more categories, not listed here, which are relevant to State and Territory Governments.

CONTACT PERSON

Please print the name of an appropriate contact officer in the space provided on the blue form, together with their telephone, fax number and e-mail address if available. Please note that 'appropriate contact officer' means someone who is involved in completing the forms, rather than the administrative head of the service outlet.

1. STAFF HOURS - for the week ending on 'snapshot day' (ie from Saturday 24 June 2000 up to and including Friday 30 June 2000).

Defined as: The total hours worked by staff, including volunteers and contract staff, for the week ending on the selected snapshot day. Separate figures should be entered for each applicable category of staff in the classification below. For larger multi-outlet (numerous outlets), multi-service type (varied service type) organisations, all staff should be apportioned across outlets, if applicable. Only record those staff hours apportioned to a particular outlet on its service form.

Direct support staff are those who have direct contact with consumers in a support role. This will include coordinators and other staff who spend a major portion of their time in direct consumer contact.

Indirect support staff are those who have no, or only a minimal, direct supporting role eg. clerical staff, training personnel, board members, etc.

Classification: Paid staff (including contract staff)

- direct support staff
- indirect support staff

Unpaid staff (*including volunteers*)

- direct support staff
- indirect support staff

Please write numbers to indicate your answer, one number per box, with all numbers finishing in the right hand box, eg.

		5	2
--	--	---	---

If your answer is 'none' or 'nil', place a dash in the right hand box, eg.

			-
--	--	--	---

Comment: Please enter hours, NOT full time equivalent, and ensure these hours are actual hours worked, not rostered.

Include:

- board members, if they work/meet during that week.
- overtime and any unpaid hours worked.
- hours to run a method of transport for consumers.

Exclude:

- staff on leave or receiving training.

Please note: information about contract staff hours will not be collected separately in 2000 due to difficulties in distinguishing paid staff from contract staff.

Justification: To assist in analysis of staffing inputs for disability support, and to enable a comparison of the staffing requirements of different service types. It is important to include 'volunteers' due to the significant contribution they make within many organisations.

2. FULL FINANCIAL YEAR OPERATION

Defined as: Whether the service operated for the full financial year.

Classification:

1	Yes
2	No
3	Not known

Comment: Information about income source(s) for the service will not be collected in 2000, mainly due to concerns about how well it could be completed by people being requested to do so. For future collections, it is anticipated that a question about service expenditure may be included in its place. If you have any comments on how this could be done, please write them in the comments field of the service outlet form.

Justification: This question is useful for explaining variation in estimated consumer numbers over the 1999/2000 financial year.

3. HOURS OF OPERATION PER DAY

- Defined as:** The number of hours per day that the service usually operates ('Normal Hours' not on-call time), rounded to the nearest half hour.
- Classification:** Enter hours of operation (valid numbers 0.5 to 24).
- Comment:** Services which have no regular daily pattern of operation should tick the 'no regular daily pattern' box. (eg. flexible hours, on-call)
Please do NOT provide the number of hours per week for this question.
- Justification:** To gain a greater understanding of patterns of service delivery.
-

4. DAYS OF OPERATION PER WEEK

- Defined as:** The number of days (or part days) per week that the service usually operates, rounded to the nearest half day.
- Classification:** Enter number of days of operation (valid numbers 0.5 to 7).
- Comment:** Services which have no regular weekly pattern of operation should tick the 'no regular pattern of operation' box.
- Justification:** To gain a greater understanding of patterns of service delivery.
-

5. WEEKS OF OPERATION PER YEAR

- Defined as:** The number of weeks per year that the service usually operates (full or part week).
- Classification:** Enter whole number of weeks of operation (valid numbers 1 to 52).
- Comment:** Services which have no regular pattern of operation should tick the 'no regular pattern of operation' box.
- Justification:** To gain a greater understanding of patterns of service delivery.
-

6. NUMBER OF CONSUMERS

- Defined as:** Total number of consumers receiving a service for each time period (within this service outlet type), excluding those people who are solely receiving Supported Wage System (SWS) funded support and those solely receiving Department of Family and Community Services (DFaCS) wage subsidy support.
- Classification:** a. Number of consumers who **actually received support on snapshot day** is the number of consumers actually provided with support on 30 June 2000, either 'face-to-face' or through individual job search, telephone contact, etc. The service must have allocated some of its resources to the person on the snapshot day.

- b. Estimated number of consumers receiving support on a typical operating day is the approximate average number of consumers that would be seen on a typical day, not necessarily on snapshot day (excluding consumers who were inactive eg. on long term leave or have exited your service on 30 June 2000).
- c. Number of consumers who were listed with your services as receiving employment assistance program support during 1999/2000, is the number of consumers who received active support between 1 July 1999 up to and including 30 June 2000 (ie this includes those consumers who received support during the financial year but did not on 30 June 2000 as well as those consumers who were inactive, exited or on long term leave and independent workers who did not receive support during 1999/2000 but whose last episode of support was within the last 24 months).
- d. Number of consumers **during the week ending on snapshot day** is the number of consumers supported from Saturday 24 June up to and including Friday 30 June excluding consumers who are inactive (eg. on long term leave or have exited your service) on 30 June 2000. It relates to the same time period as does Question 1 on Staff Hours.

Comment: **Advocacy, Information, Print Disability and Respite services are not required to complete this or any further questions.**

Consumer numbers are required, not instances of service.

'Number of consumers who were listed as receiving employment assistance program support during the 1999/2000 financial year' has been added in 2000 to facilitate collection of performance information and analysis of service utilisation over the full financial year.

Include:

- any consumer provided with support (other than applicant support) in the past 12 months.
- any consumer you consider to be an independent worker, who did not receive support during 1999/2000 but whose last episode of support was within the last 24 months.

Exclude:

- consumers simply requesting information, making a phone inquiry etc.
- any person who has been accepted by an agency but has been placed on a waiting list and is not receiving any support.
- consumers solely in receipt of Supported Wage System (SWS) funded support (these consumers will be counted through other means. If, however, these consumers are also receiving support funded through the Disability Programs recurrent grant, they will need to be counted against this question).
- consumers solely in receipt of Department of Family and Community Services (DFaCS) wage subsidies funded support (these consumers will be counted through other means. If, however, these consumers are also receiving support funded through the Disability Programs recurrent grant, they will need to be counted against this question).

Justification: The information is needed to provide a basic count of consumers accessing services, and will provide a link to population data from the 1993 and 1998 Survey of Disability Ageing and Carers, and to Australian population census data.

7. CONSUMER REFERRALS

Defined as: The total number of consumers referred to your service outlet during the 1999/2000 financial year. Separate figures should be entered for each applicable referral source and outcome in the classification below.

Centrelink referred consumers to your service and these consumers chose to attend your service.

Other sources referred consumers to your service. This includes where the consumer approached the service directly, were referred by a school; or another service provider (excluding Centrelink).

'Accepted and Commenced' are those consumers referred to your service outlet who were accepted and have since commenced receiving assistance (excluding applicant support) between 1 July 1999 and 30 June 2000.

'Not Accepted' are those consumers referred to your service outlet who were not offered assistance. People in this category may have been assessed by the service to determine their eligibility, but were not provided with assistance (exclude those consumers on waiting lists).

Classification: Centrelink

- Accepted and Commenced.
- Not Accepted

Other

- Accepted and Commenced
- Not Accepted

Please write numbers to indicate your answer, one number per box, with all numbers finishing in the right hand box, eg.

		5	2
--	--	---	---

If your answer is 'nil' or 'none', place a dash in the right hand box, eg.

			-
--	--	--	---

Comment: Please enter the number of consumers referred, NOT the number of referrals. Ensure those consumers referred by Centrelink, match the number of consumers for whom a 'Centrelink' and 'Other' response has been recorded in Question E on the Census Consumer form.

Exclude:

- People referred to the service during 1999/2000, but have not yet commenced receiving assistance (ie. are still undergoing assessment with no decision made regarding eligibility for assistance by 30 June 2000).

- People referred to the service during 1999/2000 where a decision has been made that the person is eligible for assistance and the same service has not commenced providing assistance by 30 June 2000.

Justification: To examine number and source of consumer referrals during the 1999/2000 financial year. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

8. CONSUMERS 'on the books'

Defined as: Number of consumers '**on the books**' on snapshot day is the number of consumers listed with your service on 30 June 2000 excluding consumers who are inactive (eg. on long term leave or have exited your service) on 30 June 2000.

- Classification:**
- Eligible Job Seekers** means an individual in the Target Group who is not receiving or awaiting Job Search Training or Intensive Assistance from a Department of Employment Workplace Relations and Small Business funded Job Network Service and who has been assessed as eligible by Centrelink for department funded employment assistance and who has commenced receiving employment assistance from the Service Outlet;
 - Number of workers meeting the Worker Target (ie. working greater than or equal to 8 hours and greater than or equal to 3 months).**
Defined as the number of employed consumers receiving support from your service who, as at 30 June 2000, have worked for at least 3 months and at least 8 hours per week.
 - Number of workers not meeting the Worker Target (ie. working less than eight hours or less than three months).**
Defined as the number of consumers who are receiving employment support from the service and who are employed on the date of snapshot. On Friday, 30 June 2000 the duration of employment is less than three months, and/or less than eight hours per week.
 - Independent workers** means an individual who the Service Outlet assisted to obtain employment during the previous funding year (1998/1999) and who continues to work but who received no employment assistance from your service in this funding year (1999/2000).
 - Consumers 'on the books'** means the number of consumers listed with your service on 30 June 2000 excluding consumers who are inactive (eg. on long term leave or have exited your service on 30 June 2000), that is the sum total of Eligible Job Seekers, workers meeting Worker Target, workers not meeting Worker Target and Independent workers
a) + b) + c) + d) = e).

Comment: Consumer numbers are required, not instances of service.

Include:

- Any consumer provided with support (other than applicant support) in the last 12 months.

Exclude:

- Independent workers who have not received an episode of support in the last two years.
- Consumers simply requesting information, making a phone inquiry etc.
- Any person who has been accepted by an agency but has been placed on a waiting list.
- Consumers who are inactive (ie on long term leave or have exited your service) on Friday, 30 June 2000.
- Consumers solely in receipt of the Supported Wage System (SWS) funded support (these consumers will be counted through other means). If however, these consumers are also receiving support funded through the disability programs recurrent grant or Case Based Funding Trial, they will need to be counted against this question).

Justification: To determine the status and total number of consumers 'on the books' as at Friday, 30 June 2000. To collect a snapshot of job seekers and workers. To derive performance information contained in Attachment B4 of Employment Assistance Service Level Agreements (for 1999/2000).

CONSUMER FORM

The purpose of the Consumer Form is to collect information on ‘consumers’, ie people with a disability who receive support from your service.

Please complete one form for each consumer who received support from your service outlet during the 1999/2000 financial year, regardless of whether or not they actually received support on 30 June 2000. The number of forms you complete should match the number of consumers recorded against Question 6c of the Service Outlet Form.

Include forms for:

- any consumer provided with support (other than applicant support) in the 1999/2000 financial year
- any consumer you consider to be an independent worker, who did not receive support during 1999/2000 but whose last episode of support was within the last 24 months.

Exclude forms for:

- any consumer on your waiting lists.

FOR CONSISTENCY PURPOSES, ALL FORMS SHOULD BE COMPLETED BY THE SERVICE PROVIDER.

Service providers should either keep a copy of the forms, or cross-reference the Form Number inserted on each Consumer Form (Item B) with their own records of each person. This makes it easier to locate the appropriate record should any responses require clarification.

A. TARDIS ID

Defined as: The number assigned to each service outlet receiving Commonwealth Disability Programs funding. This should be copied from the label on the front of the Service Outlet Form.

Classification: A numeric ID with a maximum of four digits.

Comment: The TARDIS ID is numeric and unique nationally.

Justification: Necessary to facilitate data editing and to link the consumer form with the appropriate service outlet form.

B. FORM NUMBER

Defined as: A unique number assigned by the service provider to each completed consumer form.

Classification: A numeric ID with a maximum of four digits.

Comment: The ID number must be numeric.

Justification: Necessary to facilitate data editing, data interpretation and response clarification.

C. CONSUMER NAME

Defined as: The consumers FIRST NAME and SURNAME.
[Further information on the provision, purpose and authority for the collection of this consumer information can be found in the “Special Notice to Consumers about 30 June 2000 (Census Day)”, which is to be distributed to all consumers under Information Privacy Principle Two of the Privacy Act (1988).]

Classification: FIRST NAME is a 15 character field.
SURNAME is a 15 character field.

Comment: The consumer’s FIRST NAME and SURNAME will be collected in 2000 to facilitate data editing, data interpretation and response clarification. This information is for disability program management and statistical purposes only and will not affect the consumers entitlements or be used in output.

Justification: To enable the production of performance reports and the analysis of accurate demand data on the number of people accessing Commonwealth funded disability services and facilitate informed policy development, evaluation and planning.

LINKAGE KEY – derived from Consumer Name information on receipt of Census return

Defined as: The second and third letters of the person’s first name, and the second, third and fifth letters of the person’s last name. Do not include apostrophes, hyphens, inflections or dashes. For consistency in recording, the letters of the ‘first name’ should be taken from the full name where known (eg Thomas not Tom). Last name is the family or surname. Where the person’s first name is less than three letters long and/or the last name is less than five letters long, enter a ‘-’ in the remaining squares. Further information on the application of the linkage key can be found in the *2000 Commonwealth Disability Services Census – Linkage Key Information Sheet*.

Classification: The second and third letters of the person’s first name, and the second, third and fifth letters of the person’s last name.

Comment: Selected letters were chosen rather than initials, to protect consumer privacy when data is provided to the Australian Institute of Health and Welfare (AIHW). This information is derived from CONSUMER NAME (and other fields) and is provided to the AIHW for statistical purposes only and will not be used in output.

Justification: To obtain data on the number of people accessing CSDA services on the selected snapshot day. The data item will be used in conjunction with sex and date of birth data to statistically reduce the multiple counting of individuals across service types. Data on the number of people accessing CSDA services on the selected snapshot day can only be obtained by reducing multiple counting to a statistically acceptable minimum.

D. CONSUMER 'on the books'

Defined as: The status of the consumer on 30 June 2000, that is whether the consumer was '**on the books**' and registered as receiving support with your service as at 30 June 2000. Number of consumers '**on the books**' on snapshot day is the number of consumers listed with your service on 30 June 2000.

Classification: 1 Yes
2 No

Comment: YES responses should tally to match 8e on the service form.
Indicate NO for consumers who are inactive (eg. on long term leave or have exited your service) on 30 June 2000.
Where a response is NO, the blank option must be selected for question 24 and questions 25 through to 28 should NOT be completed.

Justification: This information is needed to provide a basic count of consumers accessing services.

E. CONSUMER REFERRAL

Defined as: The total number of consumers referred to your service outlet during the financial year.

Classification: 1 Centrelink
2 Other
3 Not Referred during the 1999/2000 financial year.

Comment: **Centrelink** referred consumers to your service and these consumers chose to attend your service.

Other sources referred consumers to your service. This includes where the consumer approached the service directly, were referred to by a school, or another service provider (excluding Centrelink).

Not Referred during the 1999/2000 financial year. The consumer was not referred to your service during the 1999/2000 financial year.

Exclude:

- people referred to the service during 1999/2000, but have not yet commenced receiving assistance (ie. still undergoing assessment with no decision made regarding eligibility for assistance by 30 June 2000).
- people referred to the service during 1999/2000 where a decision has been made that the person is eligible for assistance and the same service had not commenced providing assistance by 30 June 2000.

Justification: To examine number and source of consumer referrals during the 1999/2000 financial year. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

F CASE BASED FUNDING TRIAL

Defined as: The status of the consumer in relation to the Case Based Funding Trial.

Classification: 1 Yes - Funded Trial

The service outlet is participating in the Case Based Funding Trial and is providing employment assistance to the consumer using Case Based Funding.

2 No - Virtual Trial

The service outlet is participating in the Case Based Virtual Trial and is providing employment assistance to the consumer using block grant funding.

3 No – Grant Funding.

The service outlet is not participating in the Case Based Funding Trial and is providing employment assistance to the consumer under recurrent grant funding.

Comment: Please tick one box only. Tick ‘No-Virtual Trial’ if the service outlet is providing employment assistance to the consumer using grant funding and the consumer is participating in the Case Based Funding Virtual Trial.

Justification: To determine the source and model of funding used to provide employment assistance to the consumer.

1. DATE OF BIRTH

Defined as: The consumer’s date of birth.

Classification: dd/mm/yyyy. Note: If the actual date of birth is unknown, estimate the year of birth and enter 99/99 as the day and month.

Comment: For privacy reasons, age in years will be the output data item rather than date of birth.

Justification: Age is needed for analysis of service utilisation, and comparison with population data. Actual date of birth is used in conjunction with Sex and the Linkage Key to statistically reduce the multiple counting of individual service users across service types on the selected snapshot day.

2. SEX

Defined as: The sex of the consumer.

Classification: 1 Male
2 Female

Justification: Needed for analysis of service utilisation. Addresses issues such as gender variation in underlying disability rates and access to services.

3. COUNTRY OF BIRTH

Defined as: The country in which the consumer was born.

Classification: 1 Australia
2 England
3 New Zealand
4 Italy
5 Vietnam
6 Scotland
7 Greece
8 Germany
9 Philippines
10 Netherlands
11 Other
12 Not Known

Comment: The ability to link this data to ABS population data is considered essential. In line with the ABS – Standard Australian Country Classification. This information has been updated to reflect the ten most prevalent countries of birth and remove any potential statistical bias regarding English speaking countries.

Justification: Ethnicity is important in the study of disability patterns and access to services. Country of birth is the most easily collected and consistently reported of possible data items. The resulting data can be related to the ABS Census, other ABS population data, other ABS data, and many other data collections.

4. INDIGENOUS OR AUSTRALIAN SOUTH SEA ISLANDER ORIGIN

Defined as: Self-defined as in the ABS ‘working definition’, ie the consumer self-identifies as being of Aboriginal, Torres Strait Islander or Australian South Sea Islander origin in response to a verbal or written question.

Classification: 1 NO
2 YES - Aboriginal
3 YES - Torres Strait Islander
4 YES - Australian South Sea Islander
5 Not known

Comment: Responses must NOT be based on the perceptions of anyone other than the consumer, or their advocate. Visual assessment by the service provider is NOT a reliable method.

Justification: There is a strong case for ensuring that information on peoples of Aboriginal, Torres Strait Islander and Australian South Sea Islander origin is collected for planning, evaluation, and delivery of essential services. Accurately and consistently monitoring the issue of inequalities in health and access to health services between people of Indigenous origin and others in Australia is particularly important, as is accounting for government expenditure in this area.

5. METHOD OF COMMUNICATION

Defined as: The method of communication, including sign language, most effectively used by the consumer.

Classification:

- 1 Little, or no, effective communication
- 2 Sign languages and other effective non-spoken communication
- 3 Spoken language (effective)
- 4 Not known

Comment: For codes 2 and 3 the communication must be *effective*. Effective communication for this purpose is defined as the ability to communicate more than just basic needs, to unfamiliar people. The communication may be in a language other than English, even where the person can speak fluent English.

Justification: Method of communication is an important indicator of potential barriers to social integration, particularly in conjunction with country of birth data, and information on language spoken at home.

6. LANGUAGE SPOKEN AT HOME

Defined as: The language spoken/used by the consumer in the consumer's current home (ie private residential setting) on a regular basis, to communicate with other residents, or regular visitors, of the home or setting; or
where the person is not currently living in a private residential setting (ie they are living in group homes, specific purpose hostels etc), the main language spoken/used in the person's most recent private residential setting; and/or
where the person has little or no effective communication skills, the main language spoken/used by the consumer's family or other household members amongst themselves.

- Classification:**
- 1 English
 - 2 Italian
 - 3 Greek
 - 4 Vietnamese
 - 5 Chinese (all dialects)
 - 6 Arabic/Lebanese
 - 7 German
 - 8 Spanish
 - 9 Other (to be specified)
 - 10 Not known

Comment: The language spoken at home may not be the preferred language of the consumer.

Where the main language spoken at home is known and is not specified in the classification (ie 'Other'), please specify it in the space provided.

In cases where the person's method of communication is a sign language or other effective non-spoken communication, then the 'Other' language specified could be, for example, 'Auslan' or another 'sign language'.

For those households where more than one language is spoken, please record the language most commonly used.

Justification: To relate MDS data to ABS population data on 'language spoken at home', and to use this information in conjunction with data on 'country of birth' to examine service use by people of non-English speaking background.

7. CONSUMER SUBURB AND POSTCODE

Defined as: Suburb and postcode of the address where the consumer usually resides.

Classification: 4-digit numeric field and specify field.

Comment: 'Usually resides' means that the consumer lives there **four or more** days per week on average.

Justification: To obtain a picture of the catchment area of services, particularly rural districts.

8. LIVING ARRANGEMENT/ACCOMMODATION TYPE

Defined as: The type of physical accommodation in which the consumer usually resides and their living arrangements.

Classification:

	Community	Example
1	Lives alone.	Lives alone in private or public housing (including houses, flats, mobile homes, caravan parks etc)
2	Lives with family member(s) and/or spouse (including foster family)	Lives with family members in private or public housing. 'Family members' can include step, in-law, de-facto and foster relationships. This category still applies if non-related people also share the household with the person and his/her family.
3	Special purpose (disability) community accommodation	Accommodation specifically targeted to people with a disability, such as group homes, disability hostels, congregate care, community residential units etc. Usually less than 20 persons, and may or may not have 24 hour supervision or care. 'Special purpose' does not mean physical modifications to the dwelling eg ramps, although these may be present.
4	Other community accommodation (<i>specify</i>)	This category includes a wide range of living arrangements, not included elsewhere, such as living with friends, boarding houses, non-special purpose hostels, hotels and guest houses.
	Institutional	
5	Nursing Home	
6	Hospital	General and specialist, including psychiatric.
7	Other institutional accommodation (<i>specify</i>)	Usually large (more than 20 people) special purpose accommodation, with 24 hour supervision or care.
8	No usual residence	This category includes those who are homeless, or who live in crisis/transitional accommodation such as that provided by the Supported Accommodation Assistance Program (SAAP).
9	Not known	

Comment: 'Usually resides' means that the consumer lives there **four or more** days per week on average. The suggested categories are broadly based on ABS definitions.

A major consideration is to ensure that categories are mutually exclusive. Extraction of data on both institutional and non-institutional accommodation is also important.

Justification: Accommodation is of fundamental importance to each consumer, and is also an area of considerable policy importance and change. Collection of this data item will enable the investigation of links between living arrangement and service utilisation eg are people who live alone more likely to access services? The use of living arrangements as an indicator of potential in-home support, and as a linking item with ABS data, is also useful for planning purposes.

9. PRIMARY DISABILITY GROUP

Defined as: Disability group is a broad categorisation of disabilities in terms of the underlying impairment, condition or cause, and reflects those impairments identified as significant in the Commonwealth Disability Services Act (1986). The Act refers to its target group as people with a disability ‘that is attributable to an intellectual, psychiatric, sensory or physical impairment or combination of such impairments’.

Primary disability group is that disability, impairment or condition causing most difficulty to the consumer (*overall difficulty in daily life, not just within the context of the support offered by this service*). This data item should ideally reflect the views of both the service provider and the consumer. Should there be any discrepancy, the service provider’s assessment should be recorded based on information held. (*If the primary disability group cannot easily be chosen, then define primary as the consumer’s disability to which the service caters*).

Classification:

	Disability	Classification	Examples
1	Intellectual	Conditions appearing in the developmental period (age 0-18) with concurrent learning difficulties and the need for more support in everyday life-skills compared to others of the same age	Down Syndrome Tuberous Sclerosis Cri-du-chat Syndrome Fragile X Syndrome Prader Willi Syndrome
2	Specific learning/ Attention Deficit Disorder (excluding Intellectual)	A general term referring to a group of disorders, presumed due to central nervous system dysfunction rather than an intellectual disability, covering significant difficulties in the acquisition and use of listening, speaking, reading, writing, reasoning or mathematical skills.	Attention Deficit Disorder
3	Autism	A pervasive developmental disorder involving disturbances in cognition, interpersonal communication, social interactions and behaviour in particular obsessional, ritualistic, stereotyped and rigid behaviours.	Asperger’s Syndrome and Pervasive Developmental Delay

	Disability	Classification	Examples
4	Physical	A general term referring to a range of disorders.	Paraplegia, quadriplegia, muscular dystrophy, motor neurone disease, neuromuscular disorders, cerebral palsy, absence or deformities of limbs, spina bifida, arthritis, back disorders, ataxia, bone formation or degeneration, scoliosis, multiple sclerosis
5	Deafblind (dual sensory)	Deafblind combined sensory impairments causing severe restrictions in communication, and in the ability to participate in community life.	
6	Vision	Vision disability encompasses blindness, vision impairment, visual disability (not corrected by glasses or contact lenses).	
7	Hearing	Hearing disability encompasses deafness, hearing impairment, hearing loss.	
8	Speech	Speech disability encompasses speech loss, impairment and/or difficulty in being understood.	
9	Psychiatric	Severe psychiatric conditions or disorders	Schizophrenias, affective disorders, anxiety disorders, addictive behaviours, personality disorders, stress, psychosis, depression and adjustment disorders.
10	Neurological	Epilepsy and organic dementia	Alzheimer's Disease, epilepsy
11	Acquired Brain Injury	Characteristically, multiple disabilities arising from damage to the brain acquired after birth. Results in deterioration in cognitive, physical, emotional or independent functioning. Can be as a result of accidents, stroke, brain tumours, infection, poisoning, lack of oxygen, degenerative neurological disease, etc.	Head injury, stroke, brain damage

Comment: ‘Disability group’ as defined here cannot be a pure classification. It is based on grouping different concepts, namely cause (eg acquired brain damage), impairment (eg physical impairment arising from paraplegia) and condition (eg epilepsy). The categories do not contain all the detail which might be wanted in a more highly developed system.

The purpose of the examples set out here is to ensure that data are collected in a consistent way, reflecting current usage in the field. The categories should also relate to other relevant data collections. The examples are included to illustrate the ‘disability group’ with which the more common underlying conditions and disabilities are likely to be associated. These examples are also designed to answer the more common questions which are asked by service providers and many of these questions relate to specific conditions.

There is currently complex terminology in Australia, arising from the practice of blurring or collapsing different concepts into the one term ‘disability’. The International Classification of Impairments, Disabilities and Handicaps makes the following distinctions. Using the example of a person with quadriplegia:

- their underlying *condition* involves damage to the nervous system;
- they have *impairments* of skeletal function and of their urinary and gastrointestinal function;
- they have locomotor, body disposition and personal care disabilities;
- they experience *handicap* in the areas of physical independence and mobility, and possibly occupation and social integration.

Further consultation is being undertaken to clarify these concepts. If you have difficulty choosing the Primary Disability Group, please write in the consumer’s primary condition in the space provided.

Justification: This item forms a basis for description of the consumers accessing disability services.

10. OTHER SIGNIFICANT DISABILITY GROUP(S) - whether present

Defined as: The presence of a disability group(s) (other than that indicated as being primary) that also cause difficulty for the consumer.

Classification:

1	Yes
2	No
3	Not known

Comment: If the response to this item is ‘No’ or ‘Not known’, then Question 11 should be left unanswered.

Justification: To enable a more complete picture of the number of people, within the major disability groupings, than would otherwise be available with ‘primary disability group’ only. Using the two categories of ‘primary’ and ‘other significant’ disability avoids the use of ‘multiple’ as a response and permits far greater description of the person’s disability.

11. OTHER SIGNIFICANT DISABILITY GROUP(S)

Defined as: Disability group(s) (other than that indicated as being primary) that also cause difficulty for the consumer.

All appropriate categories should be indicated, other than that of the primary disability group. For example, a consumer with a primary disability group of acquired brain injury, who also requires support in aspects of their life due to a psychiatric disability, should be counted against code 9 below. Acquired brain injury would not be indicated for this example, as it has already been reported in the previous question on primary disability group.

Classification:

- 1 Intellectual
- 2 Specific learning/Attention Deficit Disorder (excluding intellectual)
- 3 Autism
- 4 Physical
- 5 Deafblind
- 6 Vision
- 7 Hearing
- 8 Speech
- 9 Psychiatric
- 10 Neurological
- 11 Acquired brain injury

Comment field - provided to specify conditions which do not readily fit into the above categories.

Comment: Item 11 should only be answered if the response to Question 10 is 'Yes'.

Justification: To enable a more complete picture of the number of people, within the major disability groupings, than would otherwise be available with 'primary disability group' only. In conjunction with information from Question 9, it permits far greater description of the person's disability, both as additional specific conditions and as conditions associated with the primary condition.

12. FREQUENCY OF SUPPORT OR ASSISTANCE NEEDED

Defined as: Frequency of support needed within each of the following:

- a) **Self Care** (eg eating, toileting, bathing, dressing)
- b) **Mobility** (eg around the home or away from home, but does not include the ability to use transport or drive a motor vehicle)
- c) **Communication** (eg ability to make self understood and to understand strangers/family/friends/staff, in the person's native language if applicable)
- d) **Home living** (care of necessities and domestic activities eg handling money, budgeting, housekeeping, cooking, home maintenance)
- e) **Social skills** (interpersonal skills eg making and keeping friends/relationships, interacting with others)
- f) **Self direction** (performance demands eg thinking through problems, making decisions, being responsible for actions)

- g) **Managing emotions and behaviour** (own personal behaviour eg behaving within accepted limits, coping with feelings)
- h) **Learning** (applying knowledge and performing related tasks eg ability to understand new ideas, undertake formal education, remember ideas and events, participate in learning activities)
- i) **Working** (ability to obtain and retain work in either open or supported employment, ability to perform tasks related to their job)
- j) **Other day activity** (personal social activities eg ability to participate in leisure, recreation and alternatives to paid employment).

The scope of the definition covers how often the consumer needs support in their overall situation, not just within the particular service provided.

The need must be due to the consumer's condition, and should be ongoing (have lasted or be expected to last for 6 months or more).

The level of support defined in this way may not always relate to the level of support required within the service accessed.

- Classification:**
- 1 **None** - no support or assistance needed in the area specified.
 - 2 **Occasional** support and/or assistance needed in the area specified ie usually does not need support, or requires only minimal support.
 - 3 **Frequent** support and/or assistance needed in the area specified ie needs substantial support and/or assistance usually, but not always.
 - 4 **Continual** support and/or assistance needed in the area specified ie requires extensive and continuous support and/or assistance, with the person being unable to perform the task(s) without support or assistance, or being unable to perform them at all.
 - 5 **Not Known**

Comment: Some areas may appear less appropriate for an individual person than other areas, since they are intended to cover people with any of the disability groups and in any service type.

By using a person's overall situation as the indicator, a common consumer population should be identifiable across service types ie a person should receive the same 'level' irrespective of the service type accessed.

A need for support or assistance in a particular area may, or may not, be relevant to the service being received. The support areas included in this item cover most of the areas of activity included in the International Classification of Impairment, Disability and Handicap. This item attempts to collect information about these areas as comprehensively as possible for people receiving services of all types, since they can indicate a need for a service in addition to that being offered, which may or may not be being provided for a person elsewhere.

Example: A person with a severe intellectual disability with associated physical disability and challenging behaviour may be allocated code 4 in all categories.

Some psychiatric conditions may result in code 3 for emotions and social skills, code 2 for working and code 1 for other categories.

A person with no speech might be code 2, 3 or 4 for communication and possibly code 1 for all other items (note that in this example the data item on ability to communicate may indicate that the person has effective non-spoken communication).

Justification: To aid in analysing usage patterns and service access, and relate to ABS population data. Comparisons with other service types, such as between open and supported employment types, could demonstrate differences in access patterns for people with specific support needs. Analysis based on this data item and others, such as method of communication, disability group(s) and living arrangement/accommodation type, could provide indications of other relationships relevant to service provision.

13 PENSIONS/BENEFITS

Defined as: Pensions/benefits received by the consumer.

Classification: a) Disability Support Pension
b) Newstart/Youth Allowance
c) Mobility Allowance

Comment: Please tick 'Yes', 'No' or 'Not known' to indicate whether or not the consumer is in receipt of any of the above pensions/benefits. This question differs from 'Main Source of Income', in that a consumer may be in receipt of one or more of these pensions/benefits in addition to their principle source of income.

Justification: To permit continuity in data collection; to assist in monitoring any changes to the new consumer screening mechanism; and to identify any trends over time.

14. MAIN INCOME SOURCE

Defined as: Main source of income of the consumer with a disability.

Classification: 1 Disability Support Pension
2 Newstart/Youth Allowance
3 Mobility allowance
4 Other pension or benefit (eg. Dept of Veteran's Affairs, not superannuation)
5 Paid employment (includes income from the person's own business/partnership)
6 Compensation income
7 Other income (eg. superannuation, investments etc.)
8 Nil income
9 Not known

Comment: This item refers to a consumer's own main source of income, not that of a partner or of other household members.

Justification: To provide an assessment of income equity, and to indicate broad employment status.

15. SUPPORT INDICATOR

Defined as: Whether the consumer actually received support on 'snapshot day', Friday, 30 June 2000. It does not include support provided to applicants or people on waiting lists.

Classification: 1 Yes
2 No

Comment: Support may be either 'face-to-face' or through individual job search, telephone contact, etc.
The number of forms marked 'Yes' for this question should coincide with the number of consumers recorded against Question 6a on the Service Outlet Form.

Justification: To examine consumer data on a specified day.

16. SUPPORT COMMENCEMENT

Defined as: The date when the consumer received their first episode of support (other than applicant support) from this service outlet.

Classification: If the consumer was commenced before 1 July 1998 please tick this box, if not, enter the month and year of first episode of active support – **MMYYYY**. eg. February 2000, would be represented as 022000.

Comment: Where consumers have commenced active support with your service before 1 July 1998 please tick the 'commenced before 1 July 1998' check box.

Justification: To examine the consumers duration of employment over time. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

17. EMPLOYED 1998/99 FINANCIAL YEAR

Defined as: Was the consumer employed in the 1998/1999 financial year?

Classification: 1 Yes
2 No

Comment: Identifies whether the consumer has had a period of employment over the last two years. Note: This data item contributes to the identification of consumers achieving a worker target in 1999/2000 or new worker classification.

Justification: To examine the consumers duration of employment over time. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

18. PERIOD OF EMPLOYMENT DURING 1998/99 FINANCIAL YEAR.

Defined as: The number of months a consumer has worked over the 1998/1999 financial year.

Classification: Months •

Comment: Identifies how many months in the last financial year a consumer has worked. This identifies a worker target being met in the 1998/99 financial year and, coupled with a worker target being met in 1999/2000, enables classification as either a replacement, continuing, continuing (part year) or new worker. Where a person has had more than one job during the report period, it is necessary to calculate an average of the total hours and duration of employment. (Total hours are outlined on page 25).

The method of calculating employment duration in cases of multiple jobs is as follows:

Where a person has consecutive jobs, the employment duration is calculated as the sum of the duration of both periods. If, for example, a person was employed for two months and ceased employment then later was placed in another position for three months, the employment duration for that person would be recorded as **five months**.

Where a person has overlapping or concurrent jobs, the employment duration is calculated as the period of time the person is in continuous work, not the sum of the duration of both periods. If, for example, a person has held one position for six months and commences a second position three months into the first job, and the second position lasts for four months, the total duration of employment is to be recorded as **seven months**. The impact of the second position will be measured by an increase in the number of hours worked per week.

Justification: To examine the consumers duration of employment over time. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

19. AVERAGE STANDARD HOURS WORKED DURING 1998/99

Defined as: The standard number of hours worked per week by the consumer. If standard hours vary, estimate average standard hours.

Classification: Standard hours to one decimal place, rounded to the nearest half hour (eg. 15 hrs and 30 minutes = 15.5).

Comment: An indication of the number of hours worked in 1998/1999. Where a person has had more than one job during the report period, it is necessary to calculate an average of the total hours and duration of employment.

To illustrate the method for calculating the average hours and employment duration, two examples are given below. The first is where a person has two jobs that are consecutive, and a second where the two jobs are concurrent. Details of the two jobs are:

- Job 1 2 months (or 8 weeks) for 15 hours per week
- Job 2 3 months (or 13 weeks) for 20 hours per week

Example 1 Consecutive Jobs

a) Duration

Where Job 1 and Job 2 are consecutive the duration is the sum of both periods.
3 months + 2 months = 5 months.

b) Average Hours per Week

In a case where Job 1 and Job 2 are consecutive, the method to calculate the average hours is given below:

$$\frac{\text{Sum of number of hours worked}}{\text{Sum of duration (weeks)}} = \frac{120 \text{ hours} + 260 \text{ hours}}{21 \text{ weeks}}$$

$$= 18 \text{ hours/week}$$

c) Answer

In this case, the person would be recorded as being employed for an average of 18 hours/week for a period of 5 months, during the report period.

Note: When calculating average hours, the duration is termed in weeks for greater accuracy.

Example 2 Concurrent Jobs

a) Duration

For concurrent jobs, the employment duration is the period of time the person is in continuous employment, irrespective of any overlapping time. The period of time where jobs overlap is not counted. Thus, using the example of the two jobs given above, if both jobs started on the same date, the total employment duration would be recorded as **three months**.

b) Average hours per week

Where jobs are concurrent the average hours per week are calculated by dividing the sum of hours worked by the period of continuous employment (**not the sum of duration of both jobs**).

$$\frac{\text{Sum of hours worked}}{\text{Duration of continuous employment}} = \frac{120 \text{ hours} + 260 \text{ hours}}{13 \text{ weeks}}$$

$$= 30 \text{ hours/week}$$

c) Answer

In this case, the person would be recorded as being employed for an average of 30 hours/week over a three month period.

Justification To examine the employment patterns of consumers in conjunction with other indicators and for comparisons with ABS data. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

20. CONSUMER EMPLOYED 30 JUNE 1999 AND 1 JULY 1999.

Defined as: Employment of a consumer on both 30 June 1999 and 1 July 1999.

Classification: 1 Yes
2 No

Comment: To determine whether a consumer worked from one financial year 'into' the next financial year.

Justification: To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

21. EMPLOYED 1999/2000 FINANCIAL YEAR

Defined as: Was the consumer employed in the 1999/2000 financial year.

Classification: 1 Yes
2 No

Comment: Identifies whether the consumer was employed during this funding year.

Justification: To examine the consumers duration of employment. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

22. PERIOD OF EMPLOYMENT DURING 1999/2000 FINANCIAL YEAR

Defined as: The number of months a consumer has worked over the 1999/2000 financial year.

Classification: Number of Months

Does this period include three months continuous employment?

The number of months is mandatory. For any period that is more than three months please also indicate by ticking the box.

Comment: Identifies how many months in the financial year a consumer has worked. The 'including 3 months of continuous employment' flag is a transitional data item for Grant versus Case Based Funding Trial and evaluation.

This identifies a worker target being met in the 1999/2000 financial year and coupled with a worker target being met in 1998/1999, enables classification as either a replacement, continuing, continuing (part year) or new worker.

Where a person has had more than one job during the report period, it is necessary to calculate an average of the total hours and duration of employment. (Total hours are outlined on page 29).

The method of calculating employment duration in cases of multiple jobs is as follows:

Where a person has consecutive jobs, the employment duration is calculated as the sum of the duration of both periods. If, for example, a person was employed for two months and ceased employment then later was placed in another position for three months, the employment duration for that person would be recorded as **five months**.

Where a person has overlapping or concurrent jobs, the employment duration is calculated as the period of time the person is in continuous work, not the sum of the duration of both periods. If, for example, a person has held one position for six months and commences a second position three months into the first job, and the second position lasts for four months, the total duration of employment is to be recorded as **seven months**. The impact of the second position will be measured by an increase in the number of hours worked per week.

Justification: To gain a greater understanding of patterns of consumers employment over time. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

23. AVERAGE STANDARD HOURS WORKED DURING 1999/2000

Defined as: The standard number of hours worked per week by the consumer. If standard hours vary, estimate average standard hours.

Classification: Standard hours to one decimal place, rounded to the nearest half hour (eg.15 hours and 30 minute = 15.5)

Comment: An indication of the number of hours worked in 1999/2000.
Where a person has had more than one job during the report period, it is necessary to calculate an average of the total hours and duration of employment.

To illustrate the method for calculating the average hours and employment duration, two examples are given below. The first is where a person has two jobs that are consecutive, and a second where the two jobs are concurrent. Details of the two jobs are:

Job 1 2 months (or 8 weeks) for 15 hours per week
Job 2 3 months (or 13 weeks) for 20 hours per week

Example 1 Consecutive Jobs

a) Duration

Where Job 1 and Job 2 are consecutive the duration is the sum of both periods.

3 months + 2 months = 5 months.

b) Average Hours per Week

In a case where Job 1 and Job 2 are consecutive, the method to calculate the average hours is given below:

$$\frac{\text{Sum of number of hours worked}}{\text{Sum of duration (weeks)}} = \frac{120 \text{ hours} + 260 \text{ hours}}{21 \text{ weeks}}$$
$$= 18 \text{ hours/week}$$

c) Answer

In this case, the person would be recorded as being employed for an average of 18 hours/week for a period of 5 months, during the report period.

Note: When calculating average hours, the duration is termed in weeks for greater accuracy.

Example 2 Concurrent Jobs

a) Duration

For concurrent jobs, the employment duration is the period of time the person is in continuous employment, irrespective of any overlapping time. The period of time where jobs overlap is not counted. Thus, using the example of the two jobs given above, if both jobs started on the same date, the total employment duration would be recorded as **three months**.

b) Average hours per week

Where jobs are concurrent the average hours per week are calculated by dividing the sum of hours worked by the period of continuous employment (**not the sum of duration of both jobs**).

$$\frac{\text{Sum of hours worked}}{\text{Duration of continuous employment}} = \frac{120 \text{ hours} + 260 \text{ hours}}{13 \text{ weeks}}$$
$$= 30 \text{ hours/week}$$

c) Answer

In this case, the person would be recorded as being employed for an average of 30 hours/week over a three month period.

Justification: To examine the employment patterns of consumers in conjunction with other indicators and for comparisons with ABS data. To derive performance information contained in Attachments B3 and B4 of Employment Assistance Service Level Agreements (for 1999/2000).

24. PHASE

Defined as: The status of the consumer in the service outlet on Friday, 30 June 2000.

- Classification:**
- 1 **Worker: (Note: this does not equal a worker target)**
a consumer who has been offered a contract of employment and has accepted it with an employer in open or supported employment. Consumers in the following employment situations should be recorded as workers:
 - apprentice
 - contract work
 - enclaves
 - family business
 - self-employed
 - trainee
 - volunteer work
 - Work Based Personal Assistance
 - work from home
 - work in open employment, supported employment, or
 - open and supported employment services.
 - 2 **Work experience:**
a consumer who is undertaking paid or unpaid work experience or work trial. Consumers in the following employment situations should be recorded as work experience:
 - work trial - Open Employment
 - work trial - Supported Employment
 - 3 **Job Seeker:**
a consumer who receives support from a service to prepare them for employment and/or to help place them in employment. It may include skills assessment, pre-employment training, job search etc. A consumer who is employed and is seeking other or further employment is a worker, *not* a job seeker. Consumers in the following employment situations should be recorded as Job Seekers:
 - CRS program
 - further education
 - pre-employment training
 - social skills training
 - vocational program
 - 4 **Other:**
Please specify. Consumers in the following situations should be recorded as Other:
 - non vocational programs
 - daycare programs
 - Activity Therapy Centre
 - Independent Living Training
 - 5 **Independent Worker:**
A consumer who the service outlet assisted to obtain employment during the previous funding year, who continues to work but receives no employment assistance from the service outlet during this funding year.

Comment: It is possible for a consumer to be in two phases at the one time. The most common situation is when a person is a Worker and is also seeking a new job (ie. Job seeker). In this instance ‘Worker’ should be recorded.

**WHERE A RESPONSE OF ‘NO’ HAS BEEN PROVIDED FOR QUESTION D,
PLEASE SELECT THE BLANK OPTION FOR THIS QUESTION,
DO NOT COMPLETE ANY FURTHER QUESTIONS.**

**IF THE CONSUMER’S PHASE IS WORK EXPERIENCE, JOB SEEKER OR
OTHER, DO NOT ANSWER ANY FURTHER QUESTIONS.**

Justification: To determine the employment phase (status) of the consumer on census day.

25 WAGE

Defined as: Indication, by range, of the gross weekly wage being paid to the consumer by their employer. If the consumer’s weekly wage varies, use an average wage.

Classification:

1	No Wage
2	\$1-20
3	\$21-40
4	\$41-60
5	\$61-80
6	\$81-100
7	\$101-150
8	\$150-200
9	\$201-250
10	\$251-300
11	\$301-350
12	\$351-400
13	more than \$400

Justification: To look at comparative outcomes, in conjunction with other indicators such as type of disability, wage level, basis and type of employment.

26. WAGE LEVEL AND CONDITIONS (award/agreement comparison)

Defined as: Current relationship of the consumer’s wage and conditions to award/agreement wage.

Classification: 1 **(Full) Award Wage and Conditions**
The ‘full award wage’ is the rate set in the relevant award for a particular occupation. Awards are legally enforceable documents that prescribe wages and conditions of employment and are determined by industrial relations commissions or tribunals. An award wage is the legal minimum rate of pay.

- 2 **SWS productivity based wage**
A productivity based wage rate determined in accordance with the Supported Wage System (SWS). The worker must be a participant in the SWS, administered by the Commonwealth Department of Family and Community Services. (An SWS participant receives an Award Wage, but should only be counted in the SWS productivity based wage category).
- 3 **Other pro rata/productivity based wage under legal industrial agreement**
A pro rata or productivity based wage, paid under a legal industrial agreement (for example, an Aged or Infirm Permit, Special Wage Permit, or Enterprise Agreement which provides a discounted or reduced wage rate based on the person's productive capacity). Awards with Under Rate Employee Clauses would also fall into this category. 'Piece rates' or 'payment by results' are other systems which remunerate workers based on their level of output.
- 4 **Enterprise or Certified Agreement which covers wages**
Enterprise or Certified Agreements are specifically negotiated for a workplace or organisation, and are the result of workplace or enterprise bargaining. Agreements can be made between employers and unions, or directly between employers and employees. They carry the same legal force as an Award.
- 5 **Individual Workplace Agreement/Employment Contract**
A written agreement between an employer and an employee about that employee's terms and conditions of employment (for example, an Australian Workplace Agreement issued by the Office of the Employment Advocate, a State-based Individual Workplace Agreement, or a common law employment contract). Individual agreements/contracts may vary from employee to employee in the same workplace.
- 6 **Wage not based on award/agreement**
Any wage which does not fit into one of the above categories

Justification: To assist in assessing wage and condition outcomes and trends

27. BASIS OF CURRENT EMPLOYMENT

Defined as: The basis on which the consumer is currently employed.

Full Time Employment

Full time workers work the agreed or award hours for a full time employee in their occupation. If agreed or award hours do not apply, employees are regarded as full time if they ordinarily work 35 hours or more per week.

Part Time Employment

Part time workers work fewer hours than full time employees, and are employed on a permanent or continuing basis. They accrue paid holidays, sick leave and long service leave entitlements on a pro rata basis. (Employment of less than 35 hours per week is generally considered to be part-time).

Casual Employment

Casual employees are not usually entitled to paid holiday or sick leave. They will generally have a higher hourly rate or loading to compensate for the lack of leave and other entitlements. They may be either permanent or temporary employees and have either fixed or irregular hours of work.

Seasonal Employment

Seasonal work is work in a position or industry that experiences a dramatic employment increase or build up for a defined period of time each year, after which the employment ceases or is greatly reduced until the following season. (Good examples of seasonal work are the fruit picking and ski seasons).

Permanent Employment

Permanent employees are employed on a continuing basis, and are entitled to paid holiday leave, sick leave and long service leave (usually there is a qualifying period).

Temporary Employment

Temporary employees are employed for a short or fixed term and are entitled to paid holiday and sick leave (usually there is a qualifying period).

- Classification:**
- 1 Full Time - Permanent employment
 - 2 Part Time - Permanent employment
 - 3 Casual - Permanent employment
 - 4 Seasonal - Permanent employment
 - 5 Full Time - Temporary employment
 - 6 Part Time - Temporary employment
 - 7 Casual - Temporary employment
 - 8 Seasonal - Temporary employment

Comment: This item is not related to the number of hours the individual works: it is an indication of the permanency of the position held.

Justification: To examine the permanency and nature of work held.

28. SETTING OF EMPLOYMENT

Defined as: The current employment setting of the consumer.

- Classification:**
- 1 The consumer is employed by your service or another Commonwealth disability employment service (typically the service supports, employs and pays the consumer).
 - 2 The consumer is employed by an employer in the open labour market.
 - 3 Other (specify): should be used where neither of the above describe the type of employment, for example self-employed, contract work, etc.

Comment: Where a consumer has two or more jobs that are in different settings, the place where the person spends the most time should be selected. Where a consumer spends equal amounts of time in different settings, please make a judgement on which ONE should be recorded.

Justification: To determine the employment environment/setting of the consumer.

7.7 Feedback on the 2000 Commonwealth Disability Services Census Report

The annual Commonwealth Disability Services Census Report is used for a variety of purposes and its readership is increasing.

To ensure continuous improvement in the content and presentation of the report, your feedback on the 2000 Commonwealth Disability Services Census Report is essential.

The Department would appreciate receiving your feedback and any further comments or suggestions you may have. We will endeavour to incorporate your suggestions into the 2001 Census Report. To assist you in evaluating the 2000 Report, the following form may be cut out and forwarded to:

Disability Services Census Report Evaluation
Disability Service Reforms Branch
CE3
Department of Family and Community Services
PO Box 7788
Canberra Mail Centre ACT 2610

Should you wish to discuss the report or require further information please contact the Information Management Team on (02) 6244 7384.

Feedback on the 2000 Commonwealth Disability Services Census Report

Contact Details:

Name (optional):

Role:

Branch/Section/Service:

Contact Phone Number: (.....)

1. Is the level of detail in the report sufficient?

Yes No

2. Are you happy with the length of the report?

Yes No

3. Is the layout of the report easy to follow (i.e. is it easy to find information you are looking for)?

Yes No

4. How useful are the Data Summary and Summary of Findings?

Comments:
.....
.....

5. How useful are the regional analyses of consumers and services?

Comments:
.....
.....

6a. Do you find the tables and graphical representation useful and easy to interpret?

Yes No

If No, why?

6b. Do you prefer tables or graphs?

Tables Graphs

Comments:

6c. Is the text accompanying the tables and figures easy to follow and useful?

Yes No

Comments:

7a. Which tables and figures do you use? (To identify specify Table 22, figure 4 etc)

Comments:

.....

.....

7b. Are there any further tables or figures you would like to see in the report?
(such as cross-collection comparisons)

Comments:

.....

.....

8. Keeping in mind the data items collected, what other information would you like to see in the report?

Please specify:

.....

9. What other data should be collected?

Comments:

.....

Can you suggest any further improvements to the report?

(please use reverse of form if more space is required)

.....

.....

.....

Thank you for your feedback
