5. Whole School Improvement Plans
Replace “Comprehensive School Plan” with “Whole School Improvement Plan” wherever it appears in the contract.
Replace Article IV(A) - pp. 30-33 - with the following:
“A. Whole School Improvement Plans
1. Scope
Whole-school evaluation is the cornerstone of the quality assurance system in schools. It enables a school and external supervisors to provide an account of the school's current performance and to show to what extent it meets school district goals. This approach provides the opportunity for acknowledging the achievements of a school and for identifying areas that need attention.
Each school in the Boston Public School system will adopt a written Whole School Improvement Plan each year that sets specific educational goals for the school year. The primary purpose of this plan is to provide the leadership of each school with a process to help guide its decision-making
regarding instructional improvement and programmatic options offered to students. The development of this plan is the responsibility of each school's Instructional Leadership Team (ILT).

2. Approval
Each school's proposed Whole School Improvement Plan shall be submitted to the appropriate Deputy Superintendent. The Deputy Superintendent will either approve the plan or return it for revision. If the plan is returned for revision, the Deputy Superintendent shall provide a written explanation of the decision and specific recommendations for revision of the Plan. The school will then have to submit a revised plan according to the Deputy Superintendent's given timelines.

3. Content
The Whole School Improvement Plans are designed to enable those in schools, supervisors and support services to identify to what extent the school is adding value to learners' prior knowledge, understanding and skills. The underlying philosophy of that plan should be guided and built on the following six essentials for whole school improvement:
1) Use effective instructional practices and create a collaborative school climate to improve student learning
2) Examine student work and data to drive instruction and professional development
3) Invest in professional development to improve instruction
4) Share leadership to sustain instructional improvement
5) Focus resources to support instructional improvement and improved student learning
6) Partner with families and community to support student learning

B. School Performance Assessment

1. Collection of Data
Careful analysis of student performance data is critical to that improvement and to developing a good school plan. The evaluation of both qualitative and quantitative data is essential when deciding how well a school is performing. The Instructional Leadership Team (ILT) at each school shall conduct a thorough analysis of a wide range of data associated with leadership and management, teaching and learning and family and community engagement. Through this process, the ILT is encouraged to have staff, parents and the school community reflect on the effectiveness of existing school policies and practices. The range of performance related data may include, among other criteria:
   • MCAS scores
   • Formative assessments
   • Learning Walk reviews
   • Samples of student work
   • Collaborative Coaching and Learning inquiry

2. Annual Assessment
Schools will continue to be assessed annually. Each school will undergo a rigorous external review by the Deputy Superintendent comparing the goals outlined in the Whole School Improvement Plan to performance. School whose performance is unsatisfactory may be subject to further review by the Superintendent. The Superintendent may request a joint labor/management intervention process for those schools that have been identified as underperforming. This Intervention Team can recommend appropriate improvement measures, including but not limited to:
   • Reassignment of some or all members of the bargaining unit and/or administration
   • Reallocation of staff duties
   • Additional time to attempt improvement, but not more than one year
   • Intensive monitoring
Assignment of part-time or full-time in-school specialists or consultants

Specialized staff development

Replacement of some or all of the leadership team including Principal-Headmaster and members of the School Site Council.

A school's annual assessment is not subject to a grievance by any member of the bargaining unit. A School Site Council may request a review of an unsatisfactory assessment by the Deputy Superintendent, but an annual assessment may be changed only by the Superintendent.

C. School Intervention Teams

The School Intervention Team will be composed of three members chosen by the Union, three members selected by the Superintendent, and a seventh member who is jointly agreed to by the Superintendent and the President of the Union. To the extent possible, an appropriately qualified substitute will be assigned to cover the classes of a teacher when the teacher is working as part of a school intervention team. This team will initiate an assessment of the reasons for the under-performance and present a remedial plan for improvement after spending time at the school and talking with school staff, parents, and community members. The remedial plan will be completed up to four months after the team is appointed. The plan will then be submitted to the Superintendent for appropriate action.

D. Underperforming Schools

1. The Superintendent may designate up to five schools per year as underperforming. In the event that either the State DOE or the federal government identifies certain schools as under performing, those schools will count toward the total of five schools the Superintendent can choose yearly. It is the intent of this section to include schools targeted for intervention by either the federal govt. or the state as contributing towards the 'five' allowed under this section, regardless of how they are characterized by the federal govt. or the state.

2. The Superintendent may immediately fill, at his/her discretion up to 50% of all vacancies of underperforming schools during the first year. If a school remains underperforming for a second year, the Superintendent may fill 50% of the vacancies that exist in year 2. Vacancies that the superintendent wishes to target must be identified prior to the running of the excess pools and that information will be communicated to the union in advance of the excess process.

As defined above, Superintendent will have broad discretion to fill vacancies at under performing schools; however, if a laid off teacher has not been recalled and a new teacher is hired under this provision in a particular program area, the laid off teacher will be recalled to a vacancy in a program area for which he/she is qualified. The School Department may provide incentives to attract teachers to positions at under performing schools so long as the incentives are not monetary.

3. The Superintendent may mandate that teachers in underperforming schools work up to twenty hours of additional professional development. The first twelve hours can be scheduled as two days during the week before school starts on a Tuesday, Wednesday, or Thursday, or as two days scheduled on Saturdays or other non-pupil school days. The remaining eight hours can be completed as are the current eighteen hours of professional development (see Article V[E]). Teachers participating in these twenty hours shall be compensated on a pro rata basis on their annual salary for this additional time. The faculty will vote to decide the schedule for the additional twenty hours. The vote will be conducted with five days' notice to staff and with using a secret ballot. The twenty hours will receive retirement credit.

Any teacher who does not want to participate in the twenty additional
hours of professional development may voluntarily exceed himself/herself from the under performing school and participate in the excess pool procedure as defined in Article V J. In this case, the need to notify the teacher by 4/15 is waived, provided the teacher desires to enter the excess pool that season.

- If the remedial plan recommends the removal of a BTU building representative from an underperforming school, the Superintendent and the President of the BTU will agree to meet and discuss the matter. Both the Superintendent and the President of the BTU must agree before the building representative may be removed.
