Factory paid the regular wage to workers by bank transfer on the 10th day after the pay period from 26th to 25th of the previous month, but the overtime compensation was paid at the end of next month after the pay period, which is 35 days following the pay period. Freedom of Association: Right to Freely Associate

FOA.2 Workers, without distinction whatsoever, shall have the right to establish and, subject only to the rules of the organization concerned, to join organizations of their own choosing without previous authorization. The right to freedom of association begins at the time that a worker seeks employment, and continues through the course of employment, including eventual termination of employment, and is applicable as well to unemployed and retired workers. (S)

Noncompliance

Explanation: The Chinese constitution guarantees Freedom of Association (FOA); however, the Trade Union Act prevents the establishment of trade unions independent of the sole official trade union - the All China Federation of Trade Unions (ACFTU). According to the ILO, many provisions of the Trade Union Act are contrary to the fundamental principles of FOA, including the non-recognition of the right to strike. As a consequence, all factories in China fall short of the ILO standards on the right to organize and bargain collectively. However, the government has introduced new regulations that could improve the functioning of the labor relations mechanisms. The Amended Trade Union Act of Oct. 2001 stipulates that union committees have to be democratically elected at members' assemblies and trade unions must be accountable to their members. The trade union has the responsibility to consult with management on key issues of importance to their members and to sign collective agreements. Trade unions also have an enhanced role in dispute resolution. In Dec. 2003, the Collective Contracts Decree introduced the obligation for representative trade unions and employers to negotiate collective agreements, in contrast to the previous system of non-negotiated administrative agreements.
