What Is DigitalCommons@ILR?

DigitalCommons@ILR offers electronic access to material that encompasses every aspect of the workplace. Research and scholarly output included within the DigitalCommons@ILR has been selected and deposited by individual departments, centers, institutes, and programs within the ILR School.

DigitalCommons@ILR aims to highlight the expertise of the school's faculty by making available their working papers, reports, conference presentations, journal articles, data sets, manuals, instructional materials, dissertations and theses, etc.

DigitalCommons@ILR is offered by Catherwood Library as part of its ongoing mission to serve as a comprehensive information center in support of the research, instruction, and service commitments of the ILR School and Cornell community.

Benefits of Participating

- **Showcase Your Work**: Reach a larger audience than any subscriber-restricted journal gives you.
- **Usage Statistics**: Receive statistics on page views and full text downloads.
- **Enhanced Search Ability**: Make your work more visible to online search tools such as Google.
- **Rapid Dissemination**: Enable rapid dissemination of your work with a built-in alert service.
- **Selected Works Page**: Allows you to create your own archive of works, CV, bio, and photo.
- **Journal Publishing**: Offers online journal publishing with gated and/or open access.

Frequently Asked Questions

Can DigitalCommons@ILR support multimedia files?

Yes, DigitalCommons supports a wide variety of sound, video, and executable file types.

What about copyright?

Copyright permission must be obtained, but library staff can request permission on your behalf. Library staff will also advise you on how to retain your rights to future publications.

Do journals allow preprints to stay on DigitalCommons after publication?

Yes, most journals do, but this should be checked with individual publishers. We can find out for you, if needed.

I only have print material. Can I put that in the repository?

Yes, we can scan your work and convert it into electronic form.

Can I find out how many times my papers are accessed?

Yes, you can receive usage statistics for the number of times your work is downloaded.
WHAT DO I HAVE TO DO?

Members of ILR academic departments, centers, institutes, or programs are eligible and welcome to participate in DigitalCommons@ILR.

Just contact the Catherwood Reference Department (ilrref@cornell.edu) to get started. All we need is a list of publications you'd like to have included. We'll check copyright and upload your materials—or, we can train your administrative staff.

We also welcome inquiries about other publication types—online workshop materials, meeting minutes, archival material, etc.
